

FY 2027 -2031 Transportation Improvement Program (TIP)

Adopted: May 13, 2026

Amended:

"...planning for the future transportation needs of the Pensacola FL-AL Urban Area..."

Executive Summary (Begins on Page ES-1)

Resolution 26-08 (Begins on Page RES-1)

5 Year Summary by Funding Table (Begins on Section FT Page 1)

Section 1 – Bridge (Begins on Section 1 Page 1)

Section 2 – Capacity (Begins on Section 2 Page 1)

Section 3 – Bike/ Pedestrian (Begins on Section 3 Page 1)

Section 4 – Transportation Alternatives (Begins on Section 4 Page 1)

Section 5 – TSM (Begins on Section 5 Page 1)

Section 6 – Miscellaneous (Begins on Section 6 Page 1)

Section 7 – Public Transportation (Begins on Section 7 Page 1)

Section 8 – Aviation (Begins on Section 8 Page 1)

Section 9 – Resurfacing (Begins on Section 9 Page 1)

Section 10 – Port (Begins on Section 10 Page 1)

Appendix A: Acronyms / Definitions

Appendix B: Phase Fund Codes

Appendix C: Status Report for Ongoing Projects

Appendix D: Federally Obligated Projects for Fiscal Year 2025

Appendix E: TPO Project Priorities for FY 2027-2031

Appendix F: Fiscal Constraint Demonstration

Appendix G: Department of Economic Opportunity Letter of Consistency

Appendix H: Florida and Alabama Departments of Transportation Letters of Consistency and Florida Department of Transportation Checklist

Appendix I: Alabama Department of Transportation Certification, Memorandum of Understanding, Performance Measures Agreement, Authorized Projects, 2027-2031 Spreadsheet, and Monthly Spreadsheets

Appendix J: Eastern Federal Lands Highway Division Projects

Appendix K: FY 2027-2031 TIP Process and Comments

Executive Summary

The purpose of the Transportation Improvement Program is to provide a project listing that reflects the needs and desires of the Transportation Planning Organization (TPO) Study Area. The TIP is also developed to reflect the financial restraints within the various funding sources and programs. The TIP is a five-year plan for transportation improvements within the TPO Study Area; it contains information about the type of work to be completed, project phasing, estimated costs, and funding sources. The Code of Federal Regulations defines the Transportation Improvement Program (TIP) as a “prioritized listing/program of transportation projects covering a period of four years that is developed and formally adopted by a TPO (transportation planning organization) as part of the metropolitan planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53” [23 C.F.R 450.104]. Florida Statute requires the addition of a fifth year to the TIP [339.175(8)(c)(1)]. The TIP is also required to include all regionally significant projects, regardless of funding [23 C.F.R 450.326(f)]. All projects listed in Section 2 are considered Regional Significant Projects as the facilities serve regionally significant needs are included in the transportation model network. These are the Federal Functional Classified Roadways. Recently completed projects are the paved shoulders on CR 99 from CR 91 to Carrier Drive and the five-laning of Canal Road from Orange Beach Boulevard to Foley Beach Express in Alabama, General Daniel “Chappie” James, Jr. Bridge Replacement in Pensacola, and US 98 in Gulf Breeze from Bayshore Road to Portside Drive.

The TIP is developed by the Florida-Alabama TPO in cooperation with the Florida Department of Transportation (FDOT), the Alabama Department of Transportation (ALDOT), and the local governments in the TPO region. Coordination with the Eastern Shore MPO occurs through Baldwin County representation on the Florida-Alabama TPO and TCC. A project in both Mobile MPO and Eastern Shore MPO, the I-10 River Bridge and Bayway Project, has been presented by ALDOT to the Florida-Alabama TPO. These cooperating agencies provide the Florida-Alabama TPO with estimates of available federal and state funds for use in development of the financial plan. In the development of the Department’s 5 Year Work Program an inflation factor is applied to all appropriate phases of years one through five of the program. The inflation factors and application to appropriate phases is discussed in the Department’s Work Program Instructions. Therefore, the projects in the TIP are presented in Year of Expenditure (YOE), which takes into account the inflation rate over the five years in the TIP.

Organizational Structure and 3-C Planning Process:

The Florida-Alabama TPO was established by the designation of the governor through an interlocal agreement in 1977. An amendment in 1998 expanded membership to include all five (5) county commissioners from Santa Rosa County, providing equitable population and geographic representation on the TPO. Apportionment of membership was reviewed in 2013 following the 2010 Census. Representation from Orange Beach, Alabama was added. This membership

apportionment was approved by the Florida governor on August 8, 2024 and by the Alabama governor on August 26, 2024. The interlocal agreement was updated in 2015.

The Emerald Coast Regional Council (ECRC) provides the designated professional staff to the Florida-Alabama TPO and performs the work required to maintain the continuing, cooperative and comprehensive (3-C) planning process. The ECRC serves seven (7) counties and is unique in its role in staffing three (3) separate TPOs (MPOs) in Northwest Florida. A staff services agreement between the Florida-Alabama TPO and the ECRC, effective on January 12, 2015, establishes this staffing arrangement. The TPO maintains bylaws, which describe the operating procedures for the TPO and its advisory committees. The bylaws were updated and adopted in 2016.

The Florida-Alabama Transportation Planning Organization (TPO) is the designated Metropolitan Planning Organization (MPO) for the Pensacola FL-AL Urban Area. The TPO is mandated by the Federal Highway Act of 1962 (and subsequent re-authorizations) to perform the transportation planning activities within the urban area. This legislation ensures 3-C “continuing, cooperative and comprehensive” planning process. This process involves collaboration among various governmental agencies and units of government and results in a consensus regarding the transportation products for the urban area.

The Florida-Alabama TPO was formed after the 1970 Census. The current composition of the Florida-Alabama TPO after the 2020 Census consists of 19 members.

- 5 Escambia County Commissioners
- 5 Santa Rosa County Commissioners
- 1 Baldwin County Commissioner
- 5 City of Pensacola Council Members
- 1 City of Milton Council Member
- 1 City of Gulf Breeze Council Member
- 1 City of Orange Beach Council Member

Two advisory committees provide input to the TPO regarding transportation plans in the urban area. The Technical Coordinating Committee consists of planners, engineers, and various transportation related agencies in the TPO area and the Citizens’ Advisory Committee represents the citizens in the TPO area. The current study area of the TPO is listed below and is based on the 2020 Census. The TPO is the policy board whereas the Technical Coordinating Committee and the Citizens’ Advisory Committee provide recommendations to the TPO for possible action.

Several transportation related products are presented to the TPO and Advisory Committees such as the Long Range Transportation Plan, the Transportation Improvement Program, Project Priorities, and the Unified Planning Work Program are required based on Federal and State regulations. The Long Range

Transportation Plan must accompany a twenty year planning horizon and is updated every five years. The Transportation Improvement Program is updated annually and provides a list of projects (Federal, State, and Local) with their anticipated funding phases and dollars amounts for five years. The Project Priorities are primarily based on the Long Range Transportation Plan Cost Feasible Plan and are provided annually to the Department of Transportation to use as a guide to build their five year Work Program. The Unified Planning Work Program is updated every two years and provides a detailed list of the TPO's work activities and dollars amounts. After presentations to the TPO, opportunity for public comment, and discussion by the TPO members, these planning related products are approved.

Florida-Alabama TPO Metropolitan Planning Area Boundary

Title VI:

Pursuant to Section 9 of the US DOT Order 1050.2A, the Florida-Alabama TPO assures FDOT and ALDOT that no person on the basis of race, color, national origin, sex, age, disability, family, or religious status as provided by the Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, State of Florida Civil Rights Act of 1992, and other nondiscrimination authorities be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination or retaliation under any program or activity. For additional information click on the following link https://www.ecrc.org/resource_center/public_involvement/title_vi_ada.php.

Financial Plan:

The TIP is financially constrained for each year. Federally funded projects identified in the TIP can be implemented using current and proposed revenue sources based on the FDOT's Tentative Work Program, the ALDOT Work Program, and locally designated transportation revenues. As required by federal and state law, a summary of available funds by funding category and project type for the state and federally funded projects contained within the TIP has been included in Appendix F [23 C.F.R. 450.326(k) and C.F.R. 450.326(j) and Subsection 339.175(8), F.S.] The detailed project listing and financial summary "contain system-level estimates of costs and revenue sources that are reasonably expected to be available to adequately operate and maintain Federal-aid highways (as defined by 23 U.S.C. 101(a)(5)) and public transportation (as defined by title 49 U.S.C. Chapter 53) [23 CFR 450.326 (j)].

To further ensure the financial soundness of the TIP, all projects funded by the Florida Department of Transportation with federal or non-federal dollars are considered committed projects if included in the first three years of the FDOT Five-Year Work Program. Section 339.135(4)(b)(5) Florida Statutes mandates that the FDOT Work Program include a balanced 36-month forecast of cash and expenditures and a five-year finance plan supporting the Work Program. All local government projects (non-federally funded) that are included in the TIP are a part of a member local government's capital improvement program. Non-federally funded projects with funding in the first year of local government capital improvement element or capital improvement programs are considered to be committed projects.

Project Categories:

Capacity - Projects (such as widening existing roads or building roads on new alignments) in the TIP are from the Cost Feasible Plan of the TPO Long Range Transportation Plan Update and the Project Priorities.

Transportation Systems Management (TSM) – Drawn from the FDOT Candidate list and the TPO Priorities for TSM Improvements, these projects may also be identified in the TPO's Congestion Management Process Plan, Corridor

Management Plans, and Safety Plans. Some are part of studies by FDOT or local governments and are needed to improve mobility and /or safety at intersections and along existing roadways. TSM projects are typically low-cost and can be constructed in less than two years with allocated District 3 funds.

Transportation Alternatives – Transportation Alternatives Program (TA) provides funding for programs and projects defined as transportation alternatives. The INFRASTRUCTURE INVESTMENT AND JOBS ACT (IIJA) continues the Transportation Alternatives (TA) set-aside from the Surface Transportation Block Grant (STBG) program. Eligible uses of the set-aside funds include a variety of smaller-scale transportation projects such as pedestrian and bicycle facilities, recreational trails, safe routes to school projects, community improvements such as historic preservation and vegetation management, and environmental mitigation related to stormwater and habitat connectivity. <https://www.fhwa.dot.gov/bipartisan-infrastructure-law/ta.cfm>.

Eligible Entities

Under 23 U.S.C. 133(h)(4)(A), as amended by the IIJA, the entities eligible to receive TA Set-Aside funds are:

1. A local government. Local government entities include any unit of local government below a State government agency, except for an TPO representing an urbanized area with a population over 200,000. Examples include city, town, township, village, borough, parish, or county agencies.
2. A regional transportation authority. Regional transportation authorities are considered the same as the Regional Transportation Planning Organizations defined in the statewide planning section (23 U.S.C. 135(m)).
3. A transit agency. Transit agencies include any agency responsible for public transportation that is eligible for funds as determined by the Federal Transit Administration.
4. A natural resource or public land agency. Natural resource or public land agencies include any Federal, Tribal, State, or local agency responsible for natural resources or public land administration. Examples include:
 - State or local park or forest agencies.
 - State or local fish and game or wildlife agencies.
 - Department of the Interior land management agencies.
 - U.S. Forest Service.
5. A school district, local education agency, or school. School districts, local education agencies, or schools may include any public or nonprofit private school. Projects should benefit the general public and not only a private entity.
6. A Tribal government.
7. A metropolitan planning organization that serves an urbanized area with a population of 200,000 or fewer. TPOs representing urbanized areas over 200,000 population are not eligible entities.
8. A nonprofit entity. The BIL removed the requirement that the nonprofit entity be responsible for the administration of local transportation safety programs.
9. Any other local or regional governmental entity with responsibility for or oversight of transportation or recreational trails (other than a metropolitan planning organization that serves an urbanized area with a population of over

200,000 or a State agency) that the State determines to be eligible, consistent with the goals of 23 U.S.C. 133(h).

10. A State, at the request of an eligible entity listed above. State DOTs are not eligible entities as defined under 23 U.S.C. 133(h)(4)(A) unless requested by another eligible entity. (23 U.S.C. 133(h)(4)(A)(x)). TPOs representing urbanized areas over 200,000 population are not eligible entities. (23 U.S.C. 133(h)(4)(A)(ix)). State DOTs and TPOs Transportation Alternatives (TA) Set-Aside Implementation Guidance may partner with any eligible entity project sponsor to carry out a project. After projects have been selected, the State DOT may manage projects. The RTP set-aside funds retain the RTP eligible project sponsor provisions under 23 U.S.C. 206 (23 U.S.C. 133(h)(5)(C)).

Eligible Projects

The IIJA retained previous TA Set-Aside eligibility, amended the reference for SRTS projects, and added activities in furtherance of a vulnerable road user safety assessment, as defined in 23 U.S.C. 148(a). See 23 U.S.C. 133(h)(3). The BIL also added eligibility for State DOTs to use funds for administrative and technical assistance, limited to 5 percent of the TA Set-Aside fund (after the RTP set-aside). 23 U.S.C. 133(h)(6)(C). TA Set-Aside eligible projects consist of: Section 133(h)(3)(A): Projects or Activities described in 23 U.S.C. 101(a)(29) or 23 U.S.C. 213 as in effect prior to the enactment of the IIJA. Those sections contained the following eligible projects:

(1) Transportation Alternatives means any of the following activities when carried out as part of any program or project authorized or funded under title 23 U.S.C., or as an independent program or project related to surface transportation:

(A) Construction, planning, and design of on-road and off-road trail facilities for pedestrians, bicyclists, and other nonmotorized forms of transportation, including sidewalks, bicycle infrastructure, pedestrian and bicycle signals, traffic calming techniques, lighting and other safety-related infrastructure, and transportation projects to achieve compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.).

(B) Construction, planning, and design of infrastructure-related projects and systems that will provide safe routes for non-drivers, including children, older adults, and individuals with disabilities to access daily needs.

(C) Conversion and use of abandoned railroad corridors for trails for pedestrians, bicyclists, or other nonmotorized transportation users.

(D) Construction of turnouts, overlooks, and viewing areas.

(E) Community improvement activities, including:

(i) inventory, control, or removal of outdoor advertising;

(ii) historic preservation and rehabilitation of historic transportation facilities;

(iii) vegetation management practices in transportation rights-of-way to improve roadway safety, prevent against invasive species, and provide erosion control (see State DOTs Leveraging Alternative Uses of the Highway Right-of-Way Guidance); and

(iv) archaeological activities relating to impacts from implementation of a transportation project eligible under title 23, U.S.C.

(F) Any environmental mitigation activity, including pollution prevention and pollution abatement activities and mitigation to: (i) address stormwater

management, control, and water pollution prevention or abatement related to highway construction or due to highway runoff; or (ii) reduce vehicle-caused wildlife mortality or to restore and maintain connectivity among terrestrial or aquatic habitats.

(2) The recreational trails program under 23 U.S.C. 206 of title 23. (See the Recreational Trails Program section. Any project eligible under the RTP also is eligible under the TA Set-Aside.)

(3) The safe routes to school program (23 U.S.C. 208):

- Infrastructure-related projects eligible under 23 U.S.C. 208(g)(1).
- Noninfrastructure-related activities eligible under 23 U.S.C. 208(g)(2).
- SRTS coordinators eligible under section under 23 U.S.C. 208(g)(3).

(4) Planning, designing, or constructing boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divided highways.

- See Boulevards from Divided Highways for examples.

Section 133(h)(3)(B): projects and activities under the safe routes to school program under 23 U.S.C. 208.

Section 133(h)(3)(C): activities in furtherance of a vulnerable road user safety assessment (as defined in 23 U.S.C. 148(a)).

Section 133(h)(6)(C): Improving Accessibility and Efficiency. See State Technical Assistance description under the Allocations and Suballocations.

Other Related Eligibility

The BIL amended other sections of title 23 that relate to projects eligible under the TA Set-Aside, including:

- STBG: 23 U.S.C. 133(b)(7) clarified eligibility for recreational trail projects including the maintenance and restoration of existing recreational trails, and amended the citation for the safe routes to school program under section 208.
- HSIP: 23 U.S.C. 148(a)(11)(B)(v) added SRTS noninfrastructure projects as eligible under HSIP as a specified safety project. Many activities eligible under the TA Set-Aside already were eligible under HSIP, subject to HSIP criteria.

Bicycle/Pedestrian – The TPO Bicycle, Pedestrian, Trails Master Plan Projects are included in the 2050 Long Range Transportation Plan Needs Plan. Funded Transportation Alternatives and SUN Trail projects are included in the TIP.

Public Transportation – Transit projects are drawn from the TPO Five Year Transit Development Plan, and the local transit operator provides priorities to the TPO. Projects for Community Transportation Coordinator (CTC) and the Escambia County Area Transit (ECAT) fixed route service are included in the TIP. The FTA is the primary funding source for ECAT projects, with supplementation by matching grants by the city of Pensacola and Escambia County. The CTC receives funding directly from the Commission for the Transportation Disadvantaged. ECAT is consulted in the development of the Project Priorities for Public Transportation and has a member on the TPO's Technical Coordinating Committee that reviews and provides input in the development of the TIP.

Aviation – Aviation projects are drawn from the airport master Plan and Airport Layout Plan, developed by local authorities and reviewed by the DOT and the Federal Aviation Administration (FAA). Project Priorities are given to the TPO for

inclusion in the report and may be funded by the FAA, FDOT, or Airport Authority. Airfields included in this report are the Pensacola International Airport and the Peter Prince Field in Milton.

Seaport – Port projects are drawn from the adopted Port Master Plan, for area deep water seaports. They are primarily the domain of city government, and though the TIP is consistent with city plans, their inclusion is primarily due to the formation of the Seaport and Economic Development Trust Fund. This fund provides state money through the Florida Ports Council for port projects. The Port of Pensacola is the only deep-water port in this report.

Resurfacing – Also known as system preservation, these projects are determined by the FDOT. While the TPO may ask that particular roadways be examined for resurfacing needs, the priority for resurfacing is based on an engineering evaluation of pavement condition. Resurfacing projects on the State Highway System are funded through a statewide program.

Bridge – These projects are selected by the FDOT on criteria established through bridge inspections. Bridge Sufficiency Ratings are established by the FHWA and are on a 0 (worst) to 100 (best). Funds are generally available for rehabilitation work if the bridge rating falls below 80, or are available for replacement if the rating falls below 50. For bridges off the state highway system, the engineering costs will be the owner's responsibility. All other phases (excluding in-house phases) are to be split 75% Federal (from the set-aside) and 25% owner up to a total cost of \$5 million (limiting federal participation on each bridge to \$3.75 million). This limitation excludes in-house phases.

Freight – A Freight Working Group meets periodically to review and discuss freight needs and projects in the area. The TPO staff is also a member of the State of Florida Metropolitan Planning Organization Advisory Council's Freight Committee and has submitted Freight Projects to this committee for consideration for funding advancement in the TIP.

Safety – The TPO gives the highest point total for Safety in its Evaluation Criteria for ranking projects in its Long Range Transportation Plan Needs Plan. FDOT and ALDOT each develop a Highway Safety Improvement Program annually. Each transportation project in the TIP when it is designed and/or constructed is intended to improve safety. In addition, safety is addressed in the Performance Measures section later in this report.

Miscellaneous – Supplemental projects not fitting into any of the other category. An example is planning funds for the MPO/TPO Process.

Project Selection:

Project selection is dependent on the priorities for the various projects and on financial constraints. The selection of priorities for the TPO Study Area involves various forms of input including input from the citizens and through the Citizens'

Advisory Committee and the Technical Coordinating Committee making recommendations to the TPO.

The TIP is consistent with the federal requirements in 23 CFR 450.322(b). Important components of Federal and State Legislation for Transportation Improvement Programs include:

1. TIP/STIP must be updated at least every four (4) years and contain four years worth of projects.
2. Proposed TIP projects must be derived from locally developed public “human transit” transportation services including: Special Needs of Elderly Individuals and Individuals with Disabilities (See U.S.C. 49 sections 5310)
3. Visual aids should be included in TIP development such as photographs, charts, graphs, and any other visual aid that would enhance public knowledge of the project.

The Infrastructure Investment and Jobs Act (IIJA) retains the ten (10) Planning Factors as the *Scope of the Planning Process*. The ten (10) Planning Factors are:

- (A) support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
- (B) increase the safety of the transportation system for motorized and nonmotorized users;
- (C) increase the security of the transportation system for motorized and nonmotorized users;
- (D) increase the accessibility and mobility of people and for freight;
- (E) protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth, housing, and economic development patterns;
- (F) enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
- (G) promote efficient system management and operation;
- (H) emphasize the preservation of the existing transportation system;
- (I) improve the resiliency and reliability of the transportation system and reduce or mitigate storm water impacts of surface transportation; and

(J) enhance travel and tourism.

Project Priority Statement:

The Florida-Alabama TPO Adopted Project Priorities for Fiscal Years 2027-2031 is in Appendix E.

Consistency with Other Plans:

In accordance with these federal and state laws, this TIP covers five fiscal years and is consistent with the Florida Transportation Plan, the Florida-Alabama Long Range Transportation Plan (LRTP), the Congestion Management Process Plan (CMPP) and the local government comprehensive plans. The TIP contains project information for the construction and maintenance of the transportation facilities of the TPO Study Area. Facility types vary from roads, highways and bridges to seaports, airports, and bicycle and pedestrian accommodations. The TIP also includes project information for the various public transportation systems such as local bus and trolley systems and the Transportation Disadvantaged Program. The TIP is consistent with the federal requirements in 23 CFR 450.322(b).

Implemented Projects:

Annually, FDOT, ALDOT, and Escambia County Area Transit produce lists of projects that have had federal funds obligated to them in the preceding year. These lists of projects for Fiscal Year 2025 are in Appendix D.

Public Involvement:

The public participation process for the FY2027-2031 TIP began during February, March, April, May of 2025 with the development of the TPO's Project Priorities. In May 2025, the Project Priorities were presented to the TPO and its advisory committees, the Citizens' Advisory Committee and the Technical Coordinating Committee. This review of the Project Priorities was advertised within TPO's agenda and it was sent by news release to local media. Public outreach took place from March 10, 2025 to April 25, 2025. News releases were distributed to media outlets and meeting information was promoted through social media sites. Flyers were created and emailed to members of the TPO and advisory committees. Workshops with the TPO, TCC, and CAC also occurred as hybrid on March 12 and April 9, 2025 to obtain comments on the Project Priorities. Both of these workshops were advertised and contain an agenda item for public comment.

In May 2025, the proposed final Project Priorities were presented to the advisory committees for final review and to the TPO for adoption. The adoption of the Priorities in May 2025 was part of TPO agenda, so it was advertised and issued as a news release. A public forum was part of that meeting to allow an additional opportunity for public involvement. The adopted Project Priorities are in Appendix E.

This review of the Project Priorities was advertised within TPO's agenda and it was sent by news release to local media. A hybrid public workshop to review and comment on the Project Priorities was held on April 9, 2025. Notifications were sent to various community groups, inviting them to attend the workshop.

On October 16, 2025, FDOT held a hybrid public workshop to gather public comments on its Tentative Five-Year Work Program, which includes selected TPO Project Priorities. The Tentative Five-Year Work Program was also placed on-line for a week to obtain additional public comment. In November 2025, FDOT presented the Tentative Five-Year Work Program to the TPO for endorsement; that TPO meeting was also advertised with the local media. Public comments gathered throughout the creation of the Project Priorities and in the review of the Tentative Work Program have been considered through each step of the planning process. As such, this TIP reflects a combination of the public's interests as well as the interests of the various government agencies that are participants in the TPO planning process.

In cases where public comment is significant, 23 Code of Federal Regulations (CFR) Part 450 requires the following: "When significant written and oral comments are received on the draft transportation plan or TIP (including the financial plan) as a result of the public participation process or the interagency consultation process required by EPA's conformity regulations [for air quality], a summary, analysis, and report on the disposition of comments shall be made part of the final plan and TIP." The public comments received in the review of the Project Priorities are listed in Appendix E. In addition, the public comments received during the development of the TIP are listed in Appendix K. Public notice of public involvement activities and time established for public review and comment on the TIP will satisfy the Program of Projects public review requirements of the Section 5307 Program. Due dates for comments are included in the May TPO agenda enclosure and in the emails to review agencies.

Certification:

The last Joint FDOT/TPO Certification was held on March 2, 2026. The Joint FDOT/TPO Certification is an annual process in FDOT District 3. The ALDOT/TPO Self Certification Statement is included in Appendix I. Lastly, the last Federal Highway Administration's certification of the TPO occurred in July 2022 and the next Federal Highway Administration certification is scheduled for August 4, 2026.

Air Quality:

The Clean Air Act (CAA) requires the Environmental Protection Agency (EPA) to develop and enforce air quality standards. Under the CAA, the EPA is mandated to review standards for criteria pollutants every five years. Criteria pollutants are listed as carbon monoxide (CO), nitrogen dioxide (NO₂), ozone (O₃), sulfur dioxide (SO₂), and particulate matter 2.5 or 10. The National Ambient Air Quality Standard (NAAQS) for ozone was last reviewed in 2008 at which time the EPA lowered the standard from 85 ppb to the current standard of 75 ppb. On January 19, 2010, the

EPA published a Notice of Proposed Rulemaking in the Federal Register, with the intention of strengthening the NAAQS for ground level ozone. On October 1, 2015, the EPA finalized revisions to the National Ambient Air Quality Standards (NAAQS) for ground-level ozone. The rule sets more stringent standards, lowering both the primary (health-based) and secondary (welfare-based) standards from 75 parts per billion (ppb) to 70 ppb.

The TPO staff for the Florida– Alabama Transportation Planning Organization (TPO) monitors air quality and ozone readings for the TPO on a quarterly basis. The FL-AL TPO is currently in attainment for ground level ozone. In anticipation of the lowered standard, the TPO staff is interacting with government agencies and the public to ensure that air quality affected by ground-level ozone can be readily addressed and mitigated to maintain air quality compliance. TPO staff will establish regional air quality reporting guidelines and increase interaction with the public and local governments, repositioning as an information resource for air quality in Northwest Florida. There are five air quality monitoring sites located within Northwest Florida. Three of which are in Escambia and Santa Rosa counties. Data collected from these monitors and updates on the NAAQS will be reported to the FL – AL TPO and Advisory Committees quarterly.

Environmental Mitigation:

The TPO is committed to minimizing and mitigating the negative impacts of transportation projects on the natural and built environment in order to preserve and enhance the quality of life. The TPO has worked with both the FDOT and ALDOT to establish state and federal contacts that are now included in an e-mail distribution list. The TIP has been sent to these agencies to keep them abreast of the funded transportation projects in the next five years and to offer them a chance to mitigate any potential conflicts with the funding agencies.

Congestion Management Process:

The TPO is responsible for implementing the Congestion Management Process, and projects identified in the Plan are included in the TIP. The TPO updates its Congestion Management Process in conjunction with the Long Range Transportation Plan. Projects identified through the Congestion Management Process can be a priority for Transportation Systems Management as they are submitted as a “candidate” project by FDOT. Corridor Management Plans identified in the Congestion Management Process will be listed as Corridor Management studies and/or implementation if they are included in the TIP. The Congestion Management Process major update can be found at this link [CMP](#). A minor update to the Congestion Management Process occurs annually, except for the year of the major update, through updates to the Performance Measures and Level of Service tables. The Congestion Management Process minor update can be found at this link [FL-AL CMPP 2025 Minor Update](#).

Transportation Disadvantaged (TD):

The Florida Commission for the Transportation Disadvantaged requires each county to submit Annual Performance Reports to review the services provided and costs for those services. The Annual Performance Reports for Escambia and Santa Rosa County are in Appendix F.

Federal and state agencies are using performance measures as a way of ensuring greater accountability for expenditure of public funds. ALDOT has adopted the Livability Principles and Indicators as a sustainability measurement against future actions.

Level of Effort (LVOE) - Alabama Projects Only (See Appendix I):

Projects in the STIP/TIP, referred to as Level of Effort (LVOE) projects, represent grouped projects not considered of appropriate scale to be identified individually. Projects may be grouped by function, work type, and/or geographical area, using the applicable classifications under 23 CFR 771.117(c) and (d), and/or 40 CFR part 93. In nonattainment and maintenance areas, project classifications must be consistent with the *exempt* project classifications contained in the EPA transportation conformity regulations (40 CFR part 93).

LVOE projects are placed in the STIP/TIP according to selected funding programs, with the planned funding amounts for each year. ALDOT, and the affected TPOs, will be required to make a formal amendment to the STIP/TIPs for any adjustment of funding of an LVOE group that exceeds 20 percent of its originally planned funding to a particular Region. The selected statewide funding programs include:

Projects that are not considered to be of appropriate scale for individual identification may fall into one of eight Level-of-Effort (LVOE) categories listed below. Level-of-effort projects are not required to be listed individually in the TIP, although the TPO may choose to do so.

- Interstate Resurfacing Program (includes lighting, sign and pavement rehabilitation)
- Non-Interstate Resurfacing Program (FM)
- Transportation Alternative Program (TAP)
- Safety Projects (Highway Safety Improvement Program, roadway, signal and rail-crossing, etc.)
- Recreational Trails (administered by the Alabama Dept. of Economic and Community Affairs)
- County Allocation Funds (off-system bridges and STP non-urban) until prior year carryover is fully obligated
- Federal Transit Programs: 5311 (non-urban), and 5310 (Elderly and Disabilities)
- Electric vehicles (administered by the Alabama Dept. of Economic and Community Affairs)

Transit Recipients of Section 5307 and Section 5339 funding are now direct recipients. Additionally, five TPOs are direct recipients of Section 5310 funding.

Such funding does not pass through ALDOT and therefore does not fall under the level-of-effort process. These projects must be included in the TIP.

Addition or deletion of individual LVOE projects are considered an administrative modification, and do not require any further TPO action prior to authorization, subject to the dollar thresholds established in the sections above. ALDOT will maintain a matrix listing, on the STIP website, of LVOE projects for each of the five ALDOT Regions. The TPOs will be notified as soon as any specific projects within their urban areas, are identified and selected, and will have ten (10) days to decline the project. Additionally, the TPOs will be notified as soon as any safety projects are modified or deleted within their urban areas and will have ten (10) days to decline the project deletion or change.

Level of Effort (LVOE) holds funds that are not dedicated to specific projects, and may be used to cover cost increases, or add new projects or project phases. LVOE shall not exceed the thresholds, or the requirements, of any other items that require an amendment.

Level of Effort resurfacing shall be programmed annually. Projects or project lists will be added as soon as available, and TPOs will be notified of all changes that occur in the list.

Following approval of the FY2027-2031 TIP, edits to the TIP will occur by amendment or by administrative modification. Amendments and modifications occur as a result of: (1) additional or unknown project requirements; (2) increasing the Planning Area during the 2050 LRTP update; and (3) increasing the Urbanized Area or Planning Area as a result of the 2020 Decennial Census. Both amendments and modifications can be tracked through emails from the FDOT District III TIP Coordinator.

An Amendment is a major TIP planned project revision that:

- Adds a new project, or deletes a project, that utilizes federal funds from a statewide line item, exceeds the thresholds listed below, and excludes those federally-funded statewide program projects.
- Adds a new project phase(s), or increase a current project phase, or deletes a project phase(s), or decreases a current project phase that utilizes federal funds, where the revision exceeds the following thresholds:
 - \$5 million for ALDOT federally-funded projects and Transportation Management Area (TMA) attributable projects.
 - \$1 million for ALDOT federally-funded projects and for non-TMA TPO's attributable projects.
 - \$750,000 for the county highway and bridge program.
- Involves a change in the Scope of Work to a project(s) that would:
 - Result in a revised total project estimate that exceeds the thresholds established between ALDOT and the Planning Partner (not to exceed any federally-funded threshold contained in the MOU).

- Results in a change in the Scope of Work on any federally-funded project that is significant enough to essentially constitute a New Project.
- Level of Effort (LVOE) planned budget changes, exceeding 20% of the original budgeted amount.

Approval by the TPO is required for the amendments. Amendments require public review and comment, and redemonstrations of fiscal constraint.

An Administrative Modification is a minor TIP revision that:

- Adds a project from a level of effort category or line item, utilizing 100 percent state or non-federal funding, or a TPO TIP placement of the federally funded, Statewide Program, or federal funds from a statewide line item that do not exceed the thresholds established by the Planning Partner.
- Adds a project for emergency repairs to roadways, bridges, except those involving substantive or functional adjustments, location or capacity changes.
- Draws down, or returns funding, from the existing STIP/TIP Reserve Line Item, and does not exceed the threshold established between ALDOT and Planning Partners.
- Adds federal or state capital funds from low-bid savings, de-obligations, release of encumbrances, from savings on programmed phases, and any other project-cost modification sent to and approved by FHWA or FTA, to another programmed project phase or line item.

Administrative Modifications do not require federal approval nor public review and comment, and nor re-demonstration of fiscal constraint.

See the flow chart below for ALDOT's TIP Amendment and Modification process.

Amendment (Resolution) or Administrative Modification (E-mail)

Amendment Process -- Florida Projects Only:

For Administrative Modifications to the TIP, TPO action is not required. The Transportation Planning Director approves this type of amendment by signature, then copies are placed in the next TPO agenda as an information item and the TIP is updated with the amended information and the amended date in the cover is updated.

TIP Amendments and Modifications are governed by the FDOT MPO Handbook:

An administrative modification is a minor revision that includes minor changes to the project/project phase costs, minor changes to funding sources of previously included projects, and minor changes to project/project phase initiation dates. An administrative modification is a revision that does not require public review and comment, and a redemonstrations of fiscal constraint.

An amendment means a revision that involves a major change to a project including the deletion of a project or a major change in project cost, project/project phase initiation dates, or a major change in design concept or design scope. An amendment is a revision the requires public review and comment and a redemonstrations of fiscal constraint.

1. The complete Transportation Improvement Program shall be adopted only upon a vote of TPO, assembled in a properly noticed public meeting;

2. In order to expedite amendments to the TIP, the TPO authorizes the Transportation Planning Director to administratively approve airport, public transportation, and seaport project amendments which do not materially affect surface transportation traffic volumes or traffic distribution in the vicinity of the subject airport, public transportation facility, or seaport;
3. The TPO authorizes the Transportation Planning Director to administratively approve roll-forward amendments, to ensure that approved projects that did not get authorized by June 30 remain eligible for authorization after July 1;
4. If the TPO is requested to amend its TIP on an emergency basis, such as during a period when the TPO is not scheduled to meet, the TPO authorizes its Chairman or the Transportation Planning Director to approve projects less than \$2.0 million;
5. The TPO also authorizes the Transportation Planning Director to administratively approve amendments to the TIP which do not meet any one of the five criteria which require a formal TIP amendment: (a) addition of new individual projects; (b) change adversely impacts financial constraint of the TIP; (c) change results in major scope changes; (d) deletion of a project from the TIP; or (e) change in project cost greater than 20% AND \$2.0 million;
6. The TPO requires the Transportation Planning Director to inform the TPO of all TIP amendments approved under these authorizations at least once per quarter; and

Project Priorities amendments must be approved by the TPO by formal action. They must be placed on the TPO agenda and listed in the legal ad placed for the meeting. Approval of an amendment to the Project Priorities must be by roll-call vote. Once approved, the Project Priorities are updated with the amended information and copies of the amendment are provided to FDOT

Florida Department of Transportation 23 CFP Part 667 “Periodic Evaluation of Facilities Repeatedly Requiring Repair and Reconstruction Due to Emergency Events” April 1, 2026

Two projects in Escambia County and two projects in Santa Rosa County are listed in this report that need to be identified in the FY 2027-2031 TIP:

1. I-10/110 ESCAMBIA CO RESTORE ROADWAY SIGNS HURRICANE IVAN (PROJECT ID 417537-1). REPAIR/RESTORE ROADWAY SIGNS FOR FHWA INTERSTATE SYSTEM 9/16/2004.
2. SR 8 (I-10) WEIGH IN MOTION STATION EB SPRING FLOODS (PROJECT ID 436117-1). EXISTING DITCH SYSTEMS LOCATED ALONG THE SOUTHSIDE 4/28/2014.
3. PERMANENT REPAIRS-ESCAMBIA RIVER BR TO CR 197A WOODBINE RD (PROJECT ID 417486-2). REPLACING 20 APPROACH SLABS BR NOS 580002 52 04 54 05 55 108 56 07 & 57 9/16/2004.

4. SR 10 (US 90) AT THE END OF WHITE RIVER BRIDGE (PROJECT ID 448258-1). PERMANENT REPAIR FOR WASHOUT; BITUMINOUS SHOULDER UNDERMINED GUARDRAIL UNDERMINED WITH POSTS HANGING, MISC ASPHALT UNDERMINED, EXISTING BANK & SHORE PROTECTION COMPROMISED & SIGNS DAMAGED 9/16/2020.

Federal Planning Emphasis Areas

On December 30, 2021, FHWA distributed a memorandum to state DOTs to encourage TPOs to identify tasks associated with Planning Emphasis Areas (PEAs). The following lists the eight PEAs as defined by FHWA:

Public Involvement – Early, effective, and continuous public involvement brings diverse viewpoints into the decision-making process. FHWA Division and FTA regional offices should encourage TPOs, State DOTs, and providers of public transportation to increase meaningful public involvement in transportation planning by integrating Virtual Public Involvement (VPI) tools into the overall public involvement approach while ensuring continued public participation by individuals without access to computers and mobile devices. The use of VPI broadens the reach of information to the public and makes participation more convenient and affordable to greater numbers of people. Virtual tools provide increased transparency and access to transportation planning activities and decision-making processes. Many virtual tools also provide information in visual and interactive formats that enhance public and stakeholder understanding of proposed plans, programs, and projects. Increasing participation earlier in the process can reduce project delays and lower staff time and costs.

Strategic Highway Network (STRAHNET)/U.S. Department of Defense (DOD) Coordination – FHWA Division and FTA regional offices should encourage TPOs and State DOTs to coordinate with representatives from DOD in the transportation planning and project programming process on infrastructure and connectivity needs for STRAHNET routes and other public roads that connect to DOD facilities. According to the Declaration of Policy in 23 U.S.C. 101(b)(1), it is in the national interest to accelerate construction of the Federal-aid highway system, including the Dwight D. Eisenhower National System of Interstate and Defense Highways, because many of the highways (or portions of the highways) are inadequate to meet the needs of national and civil defense. The DOD's facilities include military bases, ports, and depots. The road networks that provide access and connections to these facilities are essential to national security. The 64,200-mile STRAHNET system consists of public highways that provide access, continuity, and emergency transportation of personnel and equipment in times of peace and war. It includes the entire 48,482 miles of the Dwight D. Eisenhower National System of Interstate and Defense Highways and 14,000 miles of other non-Interstate public highways on the National Highway System. The STRAHNET also contains approximately 1,800

miles of connector routes linking more than 200 military installations and ports to the primary highway system. The DOD's facilities are also often major employers in a region, generating substantial volumes of commuter and freight traffic on the transportation network and around entry points to the military facilities. Stakeholders are encouraged to review the STRAHNET maps and recent Power Project Platform (PPP) studies. These can be a useful resource in the State and TPO areas covered by these route analyses.

Federal Land Management Agency (FLMA) Coordination – FHWA Division and FTA regional offices should encourage TPOs and State DOTs to coordinate with FLMA in the transportation planning and project programming process on infrastructure and connectivity needs related to access routes and other public roads and transportation services that connect to Federal lands. Through joint coordination, the State DOTs, TPOs, Tribal Governments, FLMA, and local agencies should focus on integration of their transportation planning activities and develop cross-cutting State and TPO long range transportation plans, programs, and corridor studies, as well as the Office of Federal Lands Highway's developed transportation plans and programs. Agencies should explore opportunities to leverage transportation funding to support access and transportation needs of FLMA before transportation projects are programmed in the Transportation Improvement Program (TIP) and Statewide Transportation Improvement Program (STIP). Each State must consider the concerns of FLMA that have jurisdiction over land within the boundaries of the State (23 CFR 450.208(a)(3)). TPOs must appropriately involve FLMA in the development of the metropolitan transportation plan and the TIP (23 CFR 450.316(d)). Additionally, the Tribal Transportation Program, Federal Lands Transportation Program, and the Federal Lands Access Program TIPs must be included in the STIP, directly or by reference, after FHWA approval in accordance with 23 U.S.C. 201(c) (23 CFR 450.218(e)).

Planning and Environment Linkages (PEL) – FHWA Division and FTA regional offices should encourage State DOTs, TPOs and Public Transportation Agencies to implement PEL as part of the transportation planning and environmental review processes. The use of PEL is a collaborative and integrated approach to transportation decision-making that considers environmental, community, and economic goals early in the transportation planning process, and uses the information, analysis, and products developed during planning to inform the environmental review process. PEL leads to interagency relationship building among planning, resource, and regulatory agencies in the early stages of planning to inform and improve project delivery timeframes, including minimizing duplication and creating one cohesive flow of information. This results in transportation programs and projects that serve the community's transportation needs more effectively while avoiding and minimizing the impacts on human and natural resources.

Data in Transportation Planning – To address the emerging topic areas of data sharing, needs, and analytics, FHWA Division and FTA regional offices should encourage State DOTs, TPOs, and providers of public transportation to incorporate data sharing and consideration into the transportation planning process, because data assets have value across multiple programs. Data sharing principles and data management can be used for a variety of issues, such as freight, bike and pedestrian planning, equity analyses, managing curb space, performance management, travel time reliability, connected and autonomous vehicles, mobility services, and safety. Developing and advancing data sharing principles allows for efficient use of resources and improved policy and decision-making at the State, MPO, regional, and local levels for all parties.

State Planning Emphasis Areas – 2021

Safety – The Florida Transportation Plan and the State’s Strategic Highway Safety Plan place top priority on safety, with a state target of zero traffic fatalities and serious injuries. In addition to adopting safety targets, the TPOs must show how their Long Range Transportation Plan (LRTP) and priority projects in their Transportation Improvement Program (TIP) support progress toward those targets. The UPWP should consider enhancements to data analyses and community involvement to better inform the identification and prioritization of safety projects.

Resilience – Resilience, as it relates to transportation emphasis area, is: “Improve the resilience and reliability of the transportation system and mitigate stormwater impacts of surface transportation.” Resilience is defined as the ability to adapt to changing conditions and prepare for, withstand, and recover from disruption. These conditions can encompass a wide variety of environmental, technological, economic, or social impacts. TPOs can address resilience within their planning processes by leveraging tools such as the *FHWA Resilience and Transportation Planning Guide* and the *FDOT Quick Guide: Incorporating Resilience* in the TPO LRTP. It should be noted that while these documents focus primarily on the development of TPO LRTPs and TIPs, addressing resilience should be a consideration within every planning document prepared by an TPO. TPOs should place a particular emphasis on coordination with agency partners responsible for natural disaster risk reduction, or who may be developing local resilience planning initiatives. Additionally, TPOs should consider the additional costs associated with reducing vulnerability of the existing transportation infrastructure. Proactive resiliency planning will help the TPO develop planning documents that are ultimately more realistic and cost-effective.

Emerging Mobility – Advances in communication and automation technology result in new mobility options, ranging from automated and connected transport, electric vehicles, ridesharing, and micro-mobility, to flying cars and space travel. These

changes may be disruptive and transformational, with impacts to safety, vehicle ownership, travel capacity, vehicle miles traveled, land-use, transportation design, future investment demands, supply chain logistics, economy, and the workforce. Implementation of all seven goals of the Florida Transportation Plan can be furthered through both the transformation of major corridors and hubs and the expansion of transportation infrastructure to embrace and support the adoption of emerging mobility. The TIP should recognize the important influence of emerging mobility on the multi-modal transportation system and include related planning studies, collaboration efforts, research, or other activities.

Performance Measures – Performance Management is a strategic approach to connect investment and policy decisions to help achieve performance goals. Performance measures are quantitative criteria used to evaluate progress. Performance measure targets are the benchmarks against which collected data is gauged. The INFRASTRUCTURE INVESTMENT AND JOBS ACT (IIJA) requires State DOTs and TPOs to conduct performance-based planning by tracking performance measures and setting data-driven targets to improve those measures. Performance-based planning ensures the most efficient investment of federal transportation funds by increasing accountability, transparency, and providing for better investment decisions that focus on key outcomes related to seven national goals:

- Improving Safety;
- Maintaining Infrastructure Condition;
- Reducing Traffic Congestion;
- Improving the Efficiency of the System;
- Improving Freight Movement;
- Protecting the Environment; and,
- Reducing Delays in Project Delivery.

23 CFR 490.107 establishes timelines for State DOTs and TPOs to comply with the requirements of IIJA. State DOTs are required to establish statewide targets and TPOs have the option to support the statewide targets or adopt their own.

Safety. Safety (PM 1) is the first national goal identified in 23 CFR 490.207. In March of 2016, the Highway Safety Improvement Program (HSIP) and Safety Performance Management Measures Rule was finalized and published in the Federal Register. The rule requires TPOs to set targets for the following safety-related performance measures and report progress to the State DOT:

- Number of Fatalities;
- Number of Serious Injuries;

- Number of Nonmotorized Fatalities and Serious Injuries;
- Rate of Fatalities per 100 Million Vehicle Miles Traveled (VMT); and
- Rate of Serious Injuries per 100 Million VMT.

The Florida and Alabama Departments of Transportation Highway Safety Improvement Plans (HSIP) focused on how to accomplish the vision of eliminating fatalities and reducing serious injuries on all public roads. The HSIP development process included review of safety-related goals, objectives, and strategies in TPO plans. The HSIP guides FDOT, ALDOT, TPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout each State.

The HSIP highlights the commitment to a vision and initiative of zero deaths. The HSIP annual report documents the statewide performance measures toward that zero deaths vision and initiative. As such, the TPO supported the adoption of the HSIP safety performance measures, FDOT's 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, and 2026 safety targets, which set the target at "0" for each performance measure to reflect FDOT's goal of zero deaths, ALDOT's 2018 safety targets, which set the targets at 1,010 for Number of Fatalities; 1.490 for Rate of Fatalities per Hundred Million Vehicle Miles Traveled; 8,369 for Number of Serious Injuries; 12.420 for Rate of Serious Injuries per Hundred Million Vehicle Miles Traveled, and 390 for Number of Non-Motorized Fatalities and Non-Motorized Serious Injuries to reflect ALDOT's Towards Zero Death Initiative; ALDOT's 2019 safety targets, which set the targets at 932 for Number of Fatalities; 1.330 for Rate of Fatalities per Hundred Million Vehicle Miles Traveled; 8,469 for Number of Serious Injuries; 12.080 for Rate of Serious Injuries per Hundred Million Vehicle Miles Traveled, and 394 for Number of Non-Motorized Fatalities and Non-Motorized Serious Injuries; ALDOT's 2020 safety targets, which set the targets at 964 for Number of Fatalities; 1.350 for Rate of Fatalities per Hundred Million Vehicle Miles Traveled; 8,143 for Number of Serious Injuries; 11.080 for Rate of Serious Injuries per Hundred Million Vehicle Miles Traveled, and 384 for Number of Non-Motorized Fatalities and Non-Motorized Serious; ALDOT's 2021 safety targets, which set the targets at 961 for Number of Fatalities; 1.364 for Rate of Fatalities per Hundred Million Vehicle Miles Traveled; 6,595 for Number of Serious Injuries; 9.355 for Rate of Serious Injuries per Hundred Million Vehicle Miles Traveled, and 366 for Number of Non-Motorized Fatalities and Non-Motorized Serious Injuries; ALDOT's 2022 safety targets which set the targets at 961 for Number of Fatalities; 1.400 for Rate of Fatalities per Hundred Million Vehicle Miles Traveled; 6,000 for Number of Serious Injuries; 9.000 for Rate of Serious Injuries per Hundred Million Vehicle Miles Traveled; and 365 for Number of Non-Motorized Fatalities and Non-Motorized Serious Injuries; ALDOT's 2023 safety targets which set the targets at 1,000 for Number of Fatalities; 1.440 for Rate of Fatalities per Hundred Million Vehicle Miles

Traveled; 6,500 for Number of Serious Injuries; 9.820 for Rate of Serious Injuries per Hundred Million Vehicle Miles Traveled and to reflect ALDOT's Towards Zero Death Initiative; and 400 for Number of Non-Motorized Fatalities and Non-Motorized Serious Injuries; and ALDOT's 2024 safety targets which set the targets at 1,000 for Number of Fatalities; 1.400 for Rate of Fatalities per Hundred Million Vehicle Miles Traveled; 6,400 for Number of Serious Injuries; 9.800 for Rate of Serious Injuries per Hundred Million Vehicle Miles Traveled and to reflect ALDOT's Towards Zero Death Initiative; and 400 for Number of Non-Motorized Fatalities and Non-Motorized Serious Injuries. ALDOT's 2025 safety targets which set the targets at 1,000 for Number of Fatalities; 1.400 for Rate of Fatalities per Hundred Million Vehicle Miles Traveled; 6,300 for Number of Serious Injuries; 9.800 for Rate of Serious Injuries per Hundred Million Vehicle Miles Traveled and to reflect ALDOT's Towards Zero Death Initiative; and 400 for Number of Non-Motorized Fatalities and Non-Motorized Serious Injuries. ALDOT's 2025 safety targets which set the targets at 1,000 for Number of Fatalities; 1.400 for Rate of Fatalities per Hundred Million Vehicle Miles Traveled; 6,200 for Number of Serious Injuries; 9.800 for Rate of Serious Injuries per Hundred Million Vehicle Miles Traveled and to reflect ALDOT's Towards Zero Death Initiative; and 400 for Number of Non-Motorized Fatalities and Non-Motorized Serious Injuries. The TPO supported the FDOT and ALDOT targets by approving Resolution 18-01 on February 14, 2018; Resolution 19-01 on February 13, 2019, Resolution 20-01 on February 12, 2020, Resolution 21-12 on February 10, 2021, Resolution 22-01 on February 9, 2022; Resolution 23-01 on January 11, 2023; Resolution 23-23 on November 8, 2023; Resolution 24-28 on December 11, 2024; and Resolution 25-29 (see Florida-Alabama TPO Safety Performance Table).on November 12, 2025.

Florida-Alabama TPO Safety Performance Targets

Entity	Number of Fatalities	Rate of Fatalities per Hundred Million Vehicle Miles Traveled	Number of Serious Injuries	Rate of Serious Injuries per Hundred Vehicle Miles Traveled	Number of Non-Motorized Fatalities and Non-Motorized Serious Injuries
FDOT (2018)	0	0	0	0	0
FDOT (2019)	0	0	0	0	0
FDOT (2020)	0	0	0	0	0
FDOT (2021)	0	0	0	0	0

FDOT (2022)	0	0	0	0	0
FDOT (2023)	0	0	0	0	0
FDOT (2024)	0	0	0	0	0
FDOT (2025)	0	0	0	0	0
FDOT (2026)	0	0	0	0	0
ALDOT (2018)	1,010	1.490	8,369	12.420	390
ALDOT (2019)	932	1.330	8,469	12.080	394
ALDOT (2020)	964	1.350	8,143	11.080	384
ALDOT (2021)	961	1.364	6,595	9.355	366
ALDOT (2022)	961	1.400	6,000	9.000	365
ALDOT (2023)	1,000	1.440	6,500	9.820	400
ALDOT (2024)	1,000	1.400	6,400	9.800	400
ALDOT (2025)	1,000	1.400	6,300	9.800	400
ALDOT (2026)	1,000	1.400	6,200	9.800	400

Bridge and Pavement. Bridge and Pavement (PM 2) is the second national goal identified in 23 CFR 490.307 and 23 CFR 490.407 and was finalized in May 2017 and published in the Federal Register. The rule requires TPOs to set targets for the following bridge and pavement related performance measures and report progress to the State DOT. These performance measures were adopted again in 2023.

- Percent of Interstate Pavements in Good Condition;
- Percent of Interstate Pavements in Poor Condition;
- Percent of Non-Interstate National Highway System Pavements in Good Condition;
- Percent of Non-Interstate National Highway System Pavements in Poor Condition;
- Percent of National Highway System Bridges classified as in Good Condition by Deck Area; and

- Percent of National Highway System Bridges classified as in Poor Condition by Deck Area.

System Performance. System Performance (PM 3) is the third national goal identified in the 23 CFR 490.507 and 23 CFR 490.607 and was also finalized in May 2017 and published in the Federal Register. The rule requires TPOs to set targets for the following system performance related performance measures and report progress to the State DOT.

- Percent of Person Miles Traveled on Interstate System that is reliable;
- Percent of Person Miles Traveled on Non-Interstate National Highway System that is reliable; and
- Truck Travel Time Reliability Index.

Whereas, Safety Targets are established annually by the TPO by February 27th, Targets for Pavement, Bridge, and System Performance were adopted on September 12, 2018 by Resolution 18-24 for targets in 2021 which supported the DOT targets and were adopted again in 2023 by Resolutions 23-02 for Alabama on January 11, 2023 and 23-05 for Florida on April 12, 2023 and do not need to be adopted again until 2027 since they are four year targets; unless DOT adjusts its 4 year targets. FDOT targets for 2021 for Pavement are: ≥ 60 for Percent of Interstate Pavements in Good Condition, ≤ 5 for Percent of Interstate Pavements in Poor Condition; ≥ 40 for Percent of Non-Interstate National Highway System Pavements in Good Condition; and ≤ 5 for Percent on Non-Interstate National Highway System Pavements in Poor Condition. FDOT targets for 2021 for Bridges are: ≥ 50 for Percent of National Highway System Bridges Classified as in Good Condition by Deck Area and ≤ 10 for Percent of National Highway System Bridges Classified as in Poor Condition by Deck Area. FDOT's 2021 targets for System Performance are: 70 for Percent of Person Miles Traveled on Interstate System that is Reliable; 50 for Percent of Person Miles Traveled on Non-Interstate National Highway System that is Reliable; and 2 for Truck Travel Time Reliability Index. FDOT targets for 2025 for Pavement are: ≥ 60 for Percent of Interstate Pavements in Good Condition, ≤ 5 for Percent of Interstate Pavements in Poor Condition; ≥ 40 for Percent of Non-Interstate National Highway System Pavements in Good Condition; and ≤ 5 for Percent on Non-Interstate National Highway System Pavements in Poor Condition. FDOT targets for 2025 for Bridges are: ≥ 50 for Percent of National Highway System Bridges Classified as in Good Condition by Deck Area and ≤ 10 for Percent of National Highway System Bridges Classified as in Poor Condition by Deck Area. FDOT's 2025 targets for System Performance are: ≥ 70 for Percent of Person Miles Traveled on Interstate System that is Reliable; ≥ 50 for Percent of Person Miles Traveled on Non-Interstate National Highway System that is Reliable; and ≤ 2 for Truck Travel Time Reliability Index.

ALDOT targets for 2021 for Pavement are: “Not Applicable” for Percent of Interstate Pavements in Good Condition since there is no Interstate System in the Alabama Portion of the Florida-Alabama TPO, “Not Applicable” for Percent of Interstate Pavements in Poor Condition since there is no Interstate System in the Alabama Portion of the Florida-Alabama TPO; >40 for Percent of Non-Interstate National Highway System Pavements in Good Condition; and <5 for Percent on Non-Interstate National Highway System Pavements in Poor Condition. ALDOT targets for 2021 for Bridges are: >27 for Percent of National Highway System Bridges Classified as in Good Condition by Deck Area and <3 for Percent of National Highway System Bridges Classified as in Poor Condition by Deck Area. ALDOT’s 2021 targets for System Performance were: “Not Applicable” for Percent of Person Miles Traveled on Interstate System that is Reliable since there is no Interstate System in the Alabama Portion of the Florida-Alabama TPO; 93.6 for Percent of Person Miles Traveled on Non-Interstate National Highway System that is Reliable; and “Not Applicable” for Truck Travel Time Reliability Index since there is no Interstate System in the Alabama Portion of the Florida-Alabama TPO. However, ALDOT adjusted its 4-year targets in 2021 to better support the decision making progress for investment strategies which the TPO adopted by Resolution 21-02 ALDOT targets for 2024 for Pavement are: “Not Applicable” for Percent of Interstate Pavements in Good Condition since there is no Interstate System in the Alabama Portion of the Florida-Alabama TPO, “Not Applicable” for Percent of Interstate Pavements in Poor Condition since there is no Interstate System in the Alabama Portion of the Florida-Alabama TPO; >40 for Percent of Non-Interstate National Highway System Pavements in Good Condition; and <5 for Percent on Non-Interstate National Highway System Pavements in Poor Condition. ALDOT targets for 2024 for Bridges are: ≥ 25 for Percent of National Highway System Bridges Classified as in Good Condition by Deck Area and ≤ 3 for Percent of National Highway System Bridges Classified as in Poor Condition by Deck Area. ALDOT’s 2024 targets for System Performance were: “Not Applicable” for Percent of Person Miles Traveled on Interstate System that is Reliable since there is no Interstate System in the Alabama Portion of the Florida-Alabama TPO; 90 for Percent of Person Miles Traveled on Non-Interstate National Highway System that is Reliable; and “Not Applicable” for Truck Travel Time Reliability Index since there is no Interstate System in the Alabama Portion of the Florida-Alabama TPO (see Florida-Alabama TPO Bridge, Pavement, and System Performance Tables).

For comparative purposes, baseline (2017) statewide conditions are as follows:

- 82.2 percent of person-miles traveled on the Interstate are reliable;
- 84.0 percent of person-miles traveled on the non-Interstate are reliable; and
- 1.43 truck travel time reliability index.

In establishing these targets, FDOT reviewed external and internal factors that may affect reliability, analyzed travel time data from the National Performance Management Research Dataset (NPMRDS) for the years 2014 to 2017, and developed a sensitivity analysis indicating the level of risk for road segments to become unreliable.

The federal travel time reliability measures follow a new methodology that differ from prior Florida efforts. In addition, beginning in 2017, the NPMRDS expanded its coverage of travel segments, and a new vendor began to supply the dataset, creating a difference in reliability performance results on non-Interstate NHS segments between pre-2017 trends and later trends. These factors create challenges for establishing a confident trend line to inform target setting for the next two to four years.

In consideration of these differences, as well as other unknowns and unfamiliarity associated with the new required processes, FDOT took a conservative approach when establishing its initial statewide system performance and freight targets.

FDOT collects and reports reliability data to FHWA each year to track performance and progress toward the reliability targets. During 2018 and 2019, the percentage of person-miles that are reliable improved over the 2017 baseline on both the Interstate and non-Interstate NHS. The truck travel time reliability index improved slightly from the 2017 baseline to 2018 but declined slightly in 2019. Actual performance in 2019 was better than the 2019 targets, and in early 2021 FHWA determined that FDOT made significant progress toward the 2019 targets. Performance improved for all measures in 2020. FHWA's determination of significant progress toward the 2021 bridge and pavement targets is anticipated in 2023.

System performance and freight are addressed through several statewide initiatives:

- Florida's Strategic Intermodal System (SIS) is composed of transportation facilities of statewide and interregional significance. The SIS is a primary focus of FDOT's capacity investments and is Florida's primary network for ensuring a strong link between transportation and economic competitiveness. These facilities, which span all modes and includes highways, are the workhorses of Florida's transportation system and account for a dominant share of the people and freight movement to, from and within Florida. The SIS includes 92 percent of NHS lane miles in the state. Thus, FDOT's focus on improving performance of the SIS goes hand-in-hand with improving the NHS, which is the focus of the FHWA's TPM program. The SIS Policy Plan was updated in early 2022 consistent with the updated FTP. The SIS Policy Plan defines the policy framework for designating which

facilities are part of the SIS, as well as how SIS investments needs are identified and prioritized. The development of the SIS Five-Year Plan by FDOT considers scores on a range of measures including mobility, safety, preservation, and economic competitiveness as part of FDOT's Strategic Investment Tool (SIT).

- In addition, FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP identifies truck bottlenecks and other freight investment needs and defines the process for setting priorities among these needs to receive funding from the National Highway Freight Program (NHFP). Project evaluation criteria tie back to the FMTP objectives to ensure high priority projects support the statewide freight vision. In February 2018, FHWA approved the FMTP as FDOT's State Freight Plan. FDOT updated the plan in spring 2020.
- FDOT also developed and refined a methodology to identify freight bottlenecks on Florida's SIS on an annual basis using vehicle probe data and travel time reliability measures. Identification of bottlenecks and estimation of their delay impact aids FDOT in focusing on relief efforts and ranking them by priority. In turn, this information is incorporated into FDOT's SIT to help identify the most important SIS capacity projects to relieve congestion.

Florida-Alabama TPO Bridge Targets

Entity	Percent of NHS Bridges classified as in Good Condition by Deck Area		Percent of NHS Bridges classified as in Poor Condition by Deck Area	
	2 Year (2019)	4 Year (2021)	2 Year (2019)	4 Year (2021)

- *TPO only required to adopt 4-year targets. Adopted by Resolution 23-02 on January 11, 2023 for Alabama and Resolution 23-05 on April 12, 2023 for Florida. However, FDOT adjusted its 4 year targets in 2025 which adopted by Resolution 24-29 on December 11 2024.

Transit Asset Management (TAM). The TPO is also required to adopt State of Good Repair Performance Measures for Transit Asset Management (TAM). The TAM rule from the Federal Transit Administration became effective on October 1, 2016. The rule requires TPOs to set targets for the following transit related performance measures and report progress to the State DOT.

- Rolling Stock (Percentage of revenue vehicles that have met or exceeded their Useful Life Benchmark);
- Equipment (Percentage of non-revenue, support service and maintenance vehicles that have met or and exceeded their Use Life Benchmark);
- Facilities (Percentage of facilities within an asset class rated below condition 3 on the Transit Economics Requirements Model Scale); and
- Infrastructure. (Percentage of track segments with performance restrictions).

Similarly, TAM targets were adopted by the TPO on September 12, 2018 by Resolution 18-30 which supported the DOT targets and are adopted annually the transit provider. The TPO must reference the TAM targets annually in the TIP. The Infrastructure category does not apply to the TPO since there is no rail fixed guideway track in the TPO area. For Florida, the Rolling Stock category consists of Vans, Cutaway Buses, Body on Chassis, and Full Size Buses. The targets for these categories are Vans (reduce by 0 Percent of current inventory), Cutaway Buses (reduce by 0 Percent of current inventory), Body on Chassis (reduce by 0 Percent of current inventory), and Full Size Buses (reduce by 10 Percent of current inventory). The Equipment category is to reduce Service Vehicles by 10 Percent that have met or exceeded their Useful Life Benchmark. Facilities Category is to fund no more than 20% of FTA facilities with a condition rating below 3 (Good) on the Transit Economics Requirements Model Scale. For Alabama, the Rolling Stock category consists of Vans, Cutaway Buses, Body on Chassis, and Full Size Buses. The targets for these categories are Vans (reduce by 10 Percent of current inventory), Cutaway Buses (reduce by 10 Percent of current inventory), Body on Chassis (reduce by 10 Percent of current inventory), and Full Size Buses (reduce by 10 Percent of current inventory). The Equipment category is to reduce Service Vehicles by 10 Percent that have met or exceeded their Useful Life Benchmark. Facilities Category is to fund no more than 20% of FTA facilities with a condition rating below 3 (Good) on the Transit Economics Requirements Model Scale (see Florida-Alabama TPO Transit Asset Management (TAM) Table).

Florida-Alabama TPO Transit Asset Management (TAM) Targets

Entity	Percent of Revenue Vehicles that have met or exceed their Useful Life Benchmark				Percent of Service Vehicles that have met or exceed their Useful Life Benchmark	Percent of FTA-funded facilities with a condition rating below 3.0 (Good) on the FTA Transit Economic Modal Scale
	Vans	Cutaway Buses	Body on Chassis	Full Size Buses

*Adopted by Resolution 18-30 on September 12, 2018.

**ALDOT's Group TAM Plan was adopted in January 2022

Public transportation agencies are required to establish and report transit asset management targets annually for the following fiscal year. Each public transit provider or its sponsors must share its targets, TAM, and asset condition information with each TPO in which the transit provider's projects and services are programmed in the TPO's TIP.

To the maximum extent practicable, transit providers, states, and TPOs must coordinate with each other in the selection of performance targets.

The TAM rule defines two tiers of public transportation providers based on size parameters. Tier I providers are those that operate rail service or more than 100 vehicles in all fixed route modes, or more than 100 vehicles in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes, or have 100 vehicles or less in one non-fixed route mode. A Tier I provider must establish its own transit asset management targets, as well as report performance and other data to FTA. A Tier II provider has the option to establish its own targets or to participate in a group plan with other Tier II providers whereby targets are established by a plan sponsor, typically a state DOT, for the entire group.

A total of 20 transit providers participated in the FDOT Group TAM Plan and continue to coordinate with FDOT on establishing and reporting group targets to FTA through the National Transit Database (NTD). The participants in the FDOT Group TAM Plan are comprised of the Section 5311 Rural Program and open-door

Section 5310 Enhanced Mobility of Seniors & Individuals with Disabilities FDOT subrecipients. The Group TAM Plan was adopted in October 2018 and covers fiscal years 2018-2019 through 2021-2022. Updated targets were submitted to NTD in 2019.

Florida Group TAM Plan Participants

District	Participating Transit Providers	
1	Hendry County Central Florida Regional Planning Council	
2	Suwannee Valley Transit Authority Suwannee River Economic Council Baker County Council on Aging Nassau County Council on Aging/Transit Ride Solution (Putnam County)	Levy County Transit Big Bend Transit
3	Tri-County Community Council Big Bend Transit Gulf County ARC Calhoun County Senior Citizens Association	Liberty County Transit JTRANS Wakulla Transit
4	<i>No participating providers</i>	
5	Flagler County Public Transportation Sumter Transit Marion Transit	
6	Key West Transit	
7	<i>No participating providers</i>	

As shown in the table below, Alabama has a total of 28 transit providers participating in the ALDOT Group TAM Plan. The TAM Plan was developed with and covers ALDOT's Tier II transit providers, specifically organizations that are recipients of Sections 5311 and 5307 FTA program funding. The Subrecipients included in this TAM Plan provide Demand Response and Fixed Route Service. ALDOT and its Subrecipients adopted internal performance targets in January 2017. It was agreed that the performance targets would be reviewed and updated annually. Each Subrecipient formally agreed to be part of the Group TAM Plan process and remained in close contact with ALDOT staff throughout the plan development. ALDOT's TAM Plan will be updated every four years with the next update scheduled for October 2022.

Alabama Group TAM Plan Participants

Formal Agency Name	Business Entity
Alabama-Tombigbee Regional Commission	ATRC Rural Transportation

Area Referral and Information Service for the Elderly	A.R.I.S.E. Inc.
Autauga County Commission	Autauga County Rural Transportation
Baldwin County Commission	Baldwin Regional Area Transit System (BRATS)
Birmingham Regional Paratransit Consortium	ClasTran
Blount County Commission	Blount County Public Transportation
Chilton County Commission	Chilton County Transit
City of Eufaula	Eufaula/Barbour Transit Authority
City of Guntersville	Guntersville Public Transportation
City of Troy	Pike Area Transit System (PATs)
Covington County Commission	Covington Area Transit System (CATS)
Cullman County Commission	Cullman Area Rural Transportation System (CARTS)
Dekalb County Commission	Dekalb County Rural Transportation
East Alabama Regional Planning and Development Commission	Area Wide Community Transportation Service (ACTS)
Educational Center for Independence	Educational Center for Independence
Escambia County Commission	Escambia County Alabama Transit System (ECAT)
Etowah County Commission	Etowah County Rural Area Transportation
H.E.L.P. Inc.	H.E.L.P. Inc.
Jackson County Commission	Jackson County Rural Transportation
Lee-Russell Council of Governments	Lee County Express (LETA) Phenix City Express (PEX)
Macon County Commission	Macon County Rural Transportation Program
Madison County Commission	Transportation for Rural Areas of Madison County (TRAM)
North Central Alabama Regional Council of Governments	NARCOG Regional Transit Agency
Northwest Alabama Council of Local Governments	NACOLG Transit
SE AL Regional Planning and Development Commission	Wiregrass Transit Authority
St. Clair County Commission	St. Clair County Rural Transportation Program
Walker County Commission	Walker County Rural Transportation Program
West Alabama Health Services, Inc.	West Alabama Public Transportation

The TPO has the following Tier I and Tier II providers operating in the region.

- Tier I: None

- Tier II: Escambia County Area Transit and Tri County Community Council (FL) & Baldwin Regional Area Transit System (AL)

All three (3) providers are considered Tier II providers. Escambia County Area Transit is not part of the FDOT Group TAM Plan. The other two transit providers, Tri County Community Council (FL) & Baldwin Regional Area Transit System (AL) are included in group TAM plans developed by the FDOT Public Transit Office in Tallahassee and the ALDOT office in Montgomery.

Tri County Community Council (FL) & Baldwin Regional Area Transit System are part of the Group TAM Plan for Fiscal Years 2018/2019-2022/2023 developed by FDOT and ALDOT for Tier II providers in Florida and Alabama and coordinates with FDOT and ALDOT on reporting of group targets to NTD. The FY 2019 asset conditions and 2020 targets for the Florida and Alabama Tier II providers are shown in the following Tables above.

The statewide group TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities over the next year. The targets reflect the most recent data available on the number, age, and condition of transit assets, and expectations and capital investment plans for improving these assets during the next fiscal year.

As required by FTA, FDOT and ALDOT will update their respective TAM Plan at least once every four years. FDOT and ALDOT will update the statewide performance targets for the participating agencies on an annual basis by June 1st and will notify the participating transit agencies and the TPOs in which they operate when the targets are updated.

Public Transit Safety Performance. The Federal Transit Administration (FTA) Public Transportation Agency Safety Plan (PTASP) rule established transit safety performance management requirements for certain providers of public transportation that receive federal financial assistance. The PTASP rule requires operators of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53 to develop and implement a PTASP based on a safety management systems approach. Development and implementation of PTSAPs is anticipated to help ensure that public transportation systems are safe nationwide.

The rule applies to all operators of public transportation that are a recipient or sub-recipient of FTA Urbanized Area Formula Grant Program funds under 49 U.S.C. Section 5307, or that operate a rail transit system that is subject to FTA's State Safety Oversight Program. The rule does not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations that are regulated by the United States Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

The transit agency sets targets in the PTASP based on the safety performance measures established in the National Public Transportation Safety Plan (NPTSP). The required transit safety performance measures are:

1. Total number of reportable fatalities.
2. Rate of reportable fatalities per total vehicle revenue miles by mode.
3. Total number of reportable injuries.
4. Rate of reportable injuries per total vehicle revenue miles by mode.
5. Total number of reportable safety events.
6. Rate of reportable events per total vehicle revenue miles by mode.
7. System reliability - Mean distance between major mechanical failures by mode.

Each provider of public transportation that is subject to the rule must certify it has a PTASP, including transit safety targets for the above measures. Providers initially were required to certify a PTASP and targets by July 20, 2020. However, on April 22, 2020, FTA extended the deadline to December 31, 2020 to provide regulatory flexibility due to the extraordinary operational challenges presented by the COVID-19 public health emergency. On December 11, 2020, FTA extended the PTASP deadline for a second time to July 20, 2021.

Once the public transportation provider establishes targets, it must make the targets available to TPOs to aid in the planning process. TPOs have 180 days after receipt of the PTASP targets to establish transit safety targets for the TPO planning area. In addition, the Florida-Alabama TPO must reflect those targets in any LRTP and TIP updated on or after July 20, 2021. The transit safety targets will need to be adopted annually by the Transit Provider. The TPO must reference the Transit Safety targets annually in the TIP.

In Florida, each Section 5307 and 5311 transit provider must develop a System Safety Program Plan (SSPP) under Chapter 14-90, Florida Administrative Code. FDOT technical guidance recommends that Florida's transit agencies revise their existing SSPPs to be compliant with the new FTA PTASP requirements.

The Targets for Transit Safety Measures were approved by the TPO on January 13, 2021 by Resolution 21-07 which supported the DOT targets: Demand Response (DR) and Fixed Route (FR): Fatalities = BRATS (DR) 0; ECAT (DR) 0; ECAT (FR) 0; Injuries = BRATS (DR) 0; ECAT (DR) 0; and ECAT (FR) 0; Safety Events = BRATS (DR) 0; ECAT (DR) 0; ECAT (FR) 0; and System Reliability = BRATS (DR) 185,235; ECAT (DR) 70,632; and ECAT (FR) 90,850. Since the target for total number of reportable fatalities, total number of reportable injuries and total number of reportable safety events is zero, the corresponding rates are also zero. Please note that ECAT added Microtransit (DR-DO) and Paratransit (DR-PT) in 2026.

Transit Safety Performance Targets

Entity	Fatalities	Injuries	Safety Events	System Reliability
BRATS (DR 2021)	0	0	0	185,235
ECAT (DR 2021)	0	0	0	70,632
ECAT (FR 2021)	0	0	0	90,850
BRATS (DR 2022)	0	0	0	67,486
ECAT (DR 2022)	0	0	0	76,621
ECAT (FR 2022)	0	0	0	91,469
BRATS (DR 2023)	0	4	4	76,759
ECAT (DR 2023)	0	0	0	48,888
ECAT (FR 2023)	0	0	0	52,030
BRATS (DR 2024)	0	5	5	49,080
ECAT (DR 2024)	0	0	0	71,053
ECAT (FR 2024)	0	0	0	30,361
BRATS (DR 2025)	0	4	4	62,677
ECAT (DR 2025)	0	0	0	20,272
ECAT (FR 2025)	0	0	0	5,234
BRATS (DR 2026)	0	0	0	75,000
ECAT (DR-DO 2026)	0	0	0	210,477
ECAT (DR-PT 2026)	0	0	0	7,909
ECAT (FR 2026)	0	0	0	19,157

- Adopted by Resolution 21-07 on January 13, 2021.

Investment Priorities in the TIP. The TIP considers potential projects that fall into specific investment priorities.

Safety. For the Florida-Alabama TPO, this includes the Safe Routes to School and the Escambia-Santa Rosa Community Traffic Safety Team Programs; and Bridge,

Capacity, Bicycle/Pedestrian, Transportation Alternative, Transportation System Management, Public Transportation, Resurfacing, Aviation, Port, and other Miscellaneous categories in the TIP. The expectation of the TIP projects in each of these categories is to improve safety and to reduce fatalities once these projects are constructed for highway, sidewalk, bicycle lane, multi-use path, and transit improvements. The Florida SHSP and the Florida Transportation Plan (FTP) both highlight the commitment to a vision of zero deaths. The FDOT Florida Highway Safety Improvement Program (HSIP) annual report documents the statewide interim performance measures toward that zero deaths vision. As such, the TPO is supporting the adoption of the FDOT statewide HSIP interim safety performance measures and FDOT's safety targets, which set the target at "0" for each performance measure to reflect the Department's goal of zero deaths. The TIP considers potential projects that fall into specific investment priorities established by the TPO in the Long-Range Transportation Plan (LRTP). For the Florida-Alabama TPO, this includes safety programs such as the Escambia-Santa Rosa Community Traffic Safety Team (CTST) and Safe Routes to Schools (SRTS) Team and address infrastructure or behavior safety. Infrastructure examples: Installation of school flashing signals, roadway lighting, traffic calming, traffic signals. Behavioral safety examples: SRTS education/enforcement activities, pedestrian/bicycle safety education. The TIP includes specific investment priorities that support the TPO's goals including safety, using a prioritization and a project selection process established in the LRTP. This process evaluates projects that have an anticipated effect of reducing both fatal and injury crashes. The TPO's goal of reducing fatal and serious injury crashes is linked to this investment plan and the process used in prioritizing the projects is consistent with federal requirements. The TPO will continue to coordinate with FDOT and transit providers to take action on the additional targets and other requirements of the federal performance management process.

Bridge and Pavement. The focus of Florida-Alabama TIP's investments for bridge and pavement condition includes Bridge, Roadway Capacity, and Resurfacing projects. These improvements include pavement replacement or reconstruction (on the NHS); New lanes or widenings of NHS facilities, including resurfacing existing NHS lanes associated with new capacity; Bridge replacement or reconstruction; New bridge capacity on the NHS; and System resiliency projects that improve NHS bridge components (e.g., upgrading culverts). The Florida-Alabama TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the statewide pavement and bridge performance targets. The Bridge Projects identified in the TIP will maintain the bridges classified in Good Condition and assist in improving the bridges classified in Poor Condition. Resurfacing Projects in the TIP will assist in improving the Interstate and Non-Interstate National Highway System pavements

that are classified in Poor Condition as well as improving reliability of freight movement for interstate and Non-Interstate National Highway System roadways. System preservation is one of the Federal Planning Factors and the Objectives in the 2050 Long Range Transportation support this Planning Factor are: Objectives C.1 and C.2. Some of the bridges mentioned in the 2050 LRTP that need to be annually monitored are the US 98 Bridge to Lillian, Alabama, Theo Baars Bridge in Perdido Key, Quintette Bridge between Escambia and Santa Rosa Counties, Bob Sikes Bridge to Pensacola Beach, and the Navarre Beach Bridge. This corresponds to the 2050 Long Range Transportation Plan Objective C.2. The focus of Florida-Alabama TPO's investments in bridge and pavement condition include:

- Pavement replacement or reconstruction (on the NHS)
- New lanes or widenings of NHS facilities, including resurfacing existing NHS lanes associated with new capacity
- Bridge replacement or reconstruction
- New bridge capacity on the NHS.

System Performance. The focus of Florida Alabama TPO's investments that address system performance and freight include programs and strategies or major projects funded in the TIP and the LRTP that address system performance and freight on the Interstate and non-Interstate NHS in the TPO area, such as those in the following categories:

- Corridor Management improvements;
- Intersection improvements (on NHS roads);
- Investments in transit, bicycle, or pedestrian systems that promote mode shift;
- Freight improvements (Interstate) that increase reliability (could include improved weigh stations, addressing identified truck bottlenecks on the Interstate, etc.); and
- ITS projects or programs.

Transit Asset Management (TAM). The Transit Projects identified in the Florida-Alabama TIP will assist in keeping the transit vehicles and facilities in State of Good Repair. The LRTP also contained a multimodal Cost Feasible Plan scenario that contained several transit projects. Escambia Area Transit received CARES (Coronavirus Aid, Relief, and Economic Security) Act funds and monies from the Local Option Gas Tax. The Long Range Transportation Plan also references that Federal Transit funds that flow through the designated transit provider (Escambia County Area Transit) that also have monies that go to Baldwin Regional Area Transit in Baldwin County Alabama. These dollars help maintain the vehicles and facilities in the State of Good Repair.

The TIP includes specific investment priorities that support the TPO's goals including safety, efficiency, connectivity, economic vitality, security, quality of life, and the planning process which guide the Evaluation Criteria. The Evaluation Criteria in the LRTP filters down to Project Priorities, and the TIP.

As identified in CFR 450.326(d), a description of the anticipated effect of the TIP toward achieving the performance targets in the metropolitan transportation plan was included in the 2050 Long Range Transportation Plan which was adopted on August 13, 2025. The 2050 Long Range Transportation Plan also included a Systems Performance Report for Performance Measures.

Livability Indicators:

Federal and State agencies are using performance measures as a way of ensuring greater accountability for expenditure of public funds. ALDOT has adopted the Livability Principles and Indicators as a sustainability measurement against future actions.

The following Livability Indicators will also be incorporated into the TPO's planning process as appropriate:

1. Percent of jobs and housing located within one-half (1/2) mile of transit service (Also percentage of non-regional principal 1 projects within a Justice 40 Area);
2. Percent of household income spent on housing and transportation (Also percentage of non-regional principal 2 projects within a Justice 40 Area);
3. Percent of workforce living within a thirty (30) minute or less commute from primary job centers;
4. Percent of non-transit (5310, etc.) transportation projects dedicated to enhancing accessibility of existing transportation systems;
5. Percent of non-transit (5310, etc.) transportation projects where more than one federal funding source is utilized; and
6. Percent of housing located in walkable neighborhoods with mixed use destinations located nearby.

How do I get to full project costs and other project details?

Transportation projects for Baldwin, Escambia, and Santa Rosa counties are either within the Florida-Alabama TPO planning area boundary or in the non TPO area.

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects on the SIS will have historical costs, five years of the current TIP and five years beyond the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

For costs beyond the ten year window, access to the Long Range Transportation Plan (LRTP) is provided. The link to the LRTP is: https://www.ecrc.org/programs/transportation_planning/plans_and_documents/long_range_transportation_plan/index.php. The LRTP reference on the TIP page provides the information necessary to locate the full project costs and/or additional details, regarding the project in the LRTP. When the LRTP reference in the TIP states modification and \ or amendment report, the most recent report is used. Appendix C is a status report for on-going projects.

Full Project Costs in TPO Planning Area Boundary

Projects on the Strategic Intermodal System (SIS) - The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects on the SIS will have historical costs, five years of the current TIP, and five years beyond the current TIP, which may or may not be the total project cost. If there is no CST phase, then the entry will probably not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational project, there may not be a total cost provided but rather additional details on that program.

The SIS is a network of high priority transportation facilities which includes the state's largest and most significant commercial service airports, spaceport, deep water seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways and highways. All projects on the SIS will have a SIS identifier on the TIP page.

For costs beyond the ten year window, access to the Long Range Transportation Plan (LRTP) is provided. The link to the LRTP is https://www.ecrc.org/programs/transportation_planning/plans_and_documents/lon

[g_range_transportation_plan/index.php](https://www.ecrc.org/programs/transportation_planning/plans_and_documents/long_range_transportation_plan/index.php). The LRTP reference on the TIP page provides the information necessary to locate the full project costs and/or additional details regarding the project in the LRTP (See example TIP page below). If there is no LRTP reference in the TIP, full project cost for that project is provided in the TIP.

Non SIS projects - The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects not on the SIS will have historical costs and five years of the current TIP, which may or may not be the total project cost. If there is no CST phase, then the entry will probably not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

Total project costs and other project details will be accessible in the TIP for all non SIS projects in the TIP. All non SIS projects will have a Non-SIS identifier on the TIP page.

For costs beyond the five year window, access to the Long Range Transportation Plan (LRTP) is provided. The link to LRTP https://www.ecrc.org/programs/transportation_planning/plans_and_documents/long_range_transportation_plan/index.php. The LRTP reference on the TIP page provides the information necessary to locate the full project costs and/or additional details regarding the project in the LRTP. If there is no LRTP reference in the TIP, full project cost for that project is provided in the TIP. When the LRTP reference in the TIP states modification and \ or amendment report, the most recent report is used,

Full Projects Costs in the Non TPO area

Projects on the Strategic Intermodal System (SIS) - The SIS is a network of high priority transportation facilities which includes the state's largest and most significant commercial service airports, spaceport, deep water seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways and highways. Total project costs and other project details will be accessible through the Statewide Transportation Improvement Program (STIP) for highways on the SIS. The STIP page will have a SIS and a County identifier to aid you in finding the total project cost (See example below) The STIP is accessible at <https://www.fdot.gov/workprogram/federal/stip-projectdetailisting.shtm>.

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the STIP pages for projects on the SIS will have historical costs and ten years worth of project costs, which may or may not be the total project cost. If there is no CST phase, then the entry will probably not be reflective of the total project cost. The total project cost will be reflected in the SIS Strategic Intermodal System Plan available at: <https://www.fdot.gov/planning/systems/sis/plans.shtm>. For some projects, such as resurfacing, safety or operational project, and other short term projects, the STIP page will reflect the total project cost available for projects on the SIS.

Non SIS projects in non TPO areas - All costs for non SIS projects in the non TPO areas will have a non SIS identifier. These costs will be provided by the Florida Department of Transportation (FDOT) District Office. Please contact the FDOT District Office at 1-888-638-0250 (Chipley) for additional information on these projects.

Indirect Costs - The indirect costs are calculated at a set rate that FHWA approves. These are FDOT expenses, like salaries, that support each transportation project and are included in total project costs. The state funded indirect costs are utilized to satisfy the federal matching requirements necessary to obtain the federal funds for the projects.

DISCLAIMER: The “Total Project Cost” amount displayed for each of the federal and state funded projects in the TIP represents 10 years of programming in the Florida Department of Transportation’s (FDOT’s) Work Program database for projects on the Strategic Intermodal System (SIS) (FYs 2027 through 2036, and 5 years of programming in the FDOT Work Program for non-SIS projects (FYs 2027 through 2031), plus historical cost information for all projects having expenditures paid by FDOT prior to FY 2027.

For a more comprehensive view of a particular project's anticipated total project cost for all phases of the project, please refer to the Long Range Transportation Plan (LRTP). It should be noted, however, that some projects in the FDOT Work Program such as resurfacing, safety, or operational products may not be specifically referenced within the LRTP due to their short term nature. LRTP references to such projects in the TIP are referenced by LRTP Final Report Page Number. These LRTP references are intended to increase transparency and demonstrate consistency between the LRTP and TIP. The link to the LRTP is

https://www.ecrc.org/programs/transportation_planning/plans_and_documents/long_range_transportation_plan/index.php.

The Alabama Department of Transportation has directed that accident, incident, crash, injury, or fatality locations are not be shown or presented in association with descriptions of transportation projects, facilities, or locations within the State of Alabama. This prohibition extends to all formal planning documents (UPWP, Long Range Plan, TIP, Congestion Management Plan, and Air Quality Conformity documentation) that include narrative or tabular project listings or descriptions. In addition, Alabama project costs are estimated using a 1% inflation factor, instead of the previous 4% for projecting out-year costs.

In summary, the adopted FY 2027-2031 TIP Resolution is included on the next page. The list of projects by categories listed in the Table of Contents are included in the preceding pages as well. Lastly, the Appendices referenced in this narrative and Table of Contents follows the list projects with the final Appendix being the process on how the FY 2027-2031 TIP was developed and the comments that were received and well as the TPO Staff's responses to the comments.

RESOLUTION FL-AL 26-08

A RESOLUTION OF THE FLORIDA-ALABAMA TRANSPORTATION PLANNING ORGANIZATION ADOPTING THE FY 2027-2031 TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, the Florida-Alabama Transportation Planning Organization (TPO) is the organization designated by the governors of Florida and Alabama as being responsible, together with the states of Florida and Alabama, for carrying out the continuing, cooperative and comprehensive transportation planning process for the Florida-Alabama TPO Planning Area; and

WHEREAS, the Transportation Improvement Program (TIP) shall be endorsed annually upon a roll call vote by the TPO and submitted to the governors of the State of Florida and the State of Alabama, to the Federal Transit Administration, and through the states of Florida and Alabama to the Federal Highway Administration; and

WHEREAS, the Transportation Improvement Program (TIP) is developed in accordance with 23 Code of Federal Regulations 450 Section 134(j) and Section 339.175(8) Florida Statutes; and

WHEREAS, the TIP is periodically amended to maintain consistency with the Florida and Alabama Department of Transportation's Work Programs; and

WHEREAS, authorization for federal funding of projects within an urbanized area cannot be obtained unless the projects are included in the TPO's TIP; and

WHEREAS, the Florida-Alabama Transportation Planning Organization (TPO) believes that the TIP will support the performance targets established by the states and supported by the TPO;

NOW, THEREFORE, BE IT RESOLVED BY THE FLORIDA-ALABAMA TRANSPORTATION PLANNING ORGANIZATION THAT:

The TPO adopts the FY 2027-2031 Transportation Improvement Program, with any changes that may have been presented.

Passed and duly adopted by the Florida- Alabama Transportation Planning Organization on this 13th day of May 2026.

**FLORIDA- ALABAMA TRANSPORTATION
PLANNING ORGANIZATION**

Appendix A

Acronyms/Definitions

ALDOT Alabama Department of Transportation: State agency responsible for transportation issues and planning in Alabama.

BIL/IIJA Bipartisan Infrastructure Law/Infrastructure Investment and Jobs Act.

BPAC Bicycle/Pedestrian Advisory Committee: Advisory committee utilized by metropolitan planning organizations (MPOs) for specialized citizen input into the transportation planning process.

BRATS Baldwin Regional Area Transportation System: Public Transit System.

CAC Citizens' Advisory Committee: Advisory committee utilized by most metropolitan planning organizations (MPOs) for citizen input into the transportation planning process.

CFR Code of Federal Regulations: Compilation of the rules of the executive department and agencies of the federal government.

CMAQ Congestion Mitigation and Air Quality Improvement Program: A new categorical funding program created under ISTEA which directs funding to projects that contribute to meeting national air quality standards in non-attainment areas for ozone and carbon monoxide.

CMPP Congestion Management Process Plan: This plan assists decision-makers in selecting cost effective, short term strategies to enhance the mobility of people and goods by rating the performance of existing transportation facilities.

CTC Community Transportation Coordinators: People contracted by the Transportation Disadvantaged Commission to provide complete, cost-effective and efficient transportation services to transportation disadvantaged (TD) persons.

CTST Community Traffic Safety Team: Florida's Community Traffic Safety Teams (CTSTs) are locally based groups of highway safety advocates who are committed to solving traffic safety problems through a comprehensive, multi-jurisdictional, multi-disciplinary approach. Members include local city, county, state, and occasionally federal agencies, as well as private industry representatives and local citizens.

DEO Department of Economic Opportunity: State land planning and community development agency responsible for a number of programs, including Chapters 163 and 380 of the Florida Statutes (F.S.).

DEP Florida Department of Environmental Protection: State agency responsible for the implementation of most of Florida's environmental regulations, including air monitoring and assessment; formerly the Departments of Natural Resources and Environmental Regulation.

ECAT Escambia County Area Transit: Public transportation system.

EMO Environmental Management Office: The office at the Florida Department of Transportation responsible for protecting and enhancing a sustainable human and natural environment while developing safe, cost effective, and efficient transportation systems.

EPA Environmental Protection Agency: A federal agency responsible for dealing with national environmental issues.

FAA Federal Aviation Administration: Federal entity responsible for overseeing air commerce, air traffic control, noise abatement and other related issues.

FAST Fixing America's Surface Transportation Act. Federal legislation that was signed into law on December 4 2015 that funds surface transportation programs at over \$300 billion for fiscal years 2016 through 2020.

FDOT Florida Department of Transportation: State agency responsible for transportation issues and planning in Florida.

FHWA Federal Highway Administration: Division of the U.S. Department of Transportation responsible for administering federal highway transportation programs.

F.S. Florida Statutes: Documents in which Florida's laws are found.

FTA Federal Transit Administration: A statewide, comprehensive transportation plan which establishes long-range goals to be accomplished over a 20-25 year time frame; developed by Florida Department of Transportation (FDOT); updated on an annual basis.

FTP Florida Transportation Plan: A statewide, comprehensive transportation plan which establishes long-range goals to be accomplished over a 20-25 year time frame; developed by Florida Department of Transportation (FDOT); updated on an annual basis.

FY Fiscal Year: A budget year; runs from July 1 through June 30 for the state of Florida, and from October 1 through September 30 for the federal government.

ICE Intergovernmental Coordination Element: Required element of a local government comprehensive plan addressing coordination between adjacent local governments, and regional and state agencies; requirements for content are found in Rule 9J-5.015, F.A.C. and 163.3177(6)(h), F.S.

ITS Intelligent Transportation System: The use of computer and communications technology to facilitate the flow of information between traveler and system operators to improve mobility and transportation productivity.

JPA Joint Participation Agreement: Legal instrument describing intergovernmental tasks to be accomplished and/or funds to be paid between government agencies. **K** Design Hour Factor: Used to convert daily traffic counts to hourly traffic counts, and annual average traffic counts to peak season traffic counts; most road are designed for peak hour, peak season traffic counts. **LDR** Land Development Regulations: Local development regulations used to implement comprehensive plans; required by 9J-5.006, F.A.C. and Chapter 163.3177(6)(a), F.S.

LAP Local Agency Program: Agreement negotiated between a Local Agency and FDOT allocating Federal funds to a transportation project.

LRC Long Range Component: The part of the Florida Transportation Plan (FTP) that addresses a time span of about 20 years; updated at least every five years to reflect changes in the issues, goals and long range objectives.

LRTP Long Range Transportation Plan: A 20 year forecast plan required of state planning agencies and TPO/MPOs; it must consider a wide range of social, environmental, energy and economic factors in determining overall regional goals and consider how transportation can best meet these goals.

MAP 21 Moving Ahead for Progress in the 21st Century Act. Federal legislation that was signed into law on July 6, 2012 that funds surface transportation programs at over \$105 billion for fiscal years 2013 and 2014.

MPO See TPO

MPOAC Metropolitan Planning Organization Advisory Council: An advisory council, consisting of one member from each TPO, which serves the principal forum for collaborative policy discussion in urban areas; it was created by law to assist the TPO/MPOs in carrying out the urbanized area transportation planning process.

NHS National Highway System: Specific major roads to be designated by September 30, 1995; the NHS will consist of 155,000 (plus or minus 15%) miles of road and represents one category of roads eligible for federal funds under ISTEA.

RTPO Regional Transportation Planning Organization.

ROW Right-of-Way: Real property that is used for transportation purposes; defines the extent of the corridor that can be used for the road and associated drainage.

RPC Regional Planning Council: A multipurpose organization composed of representatives of local governments and appointed representatives from the geographic area covered by the council, and designated as the primary organization to address problems and plan solutions that are of greater than local concern or scope; currently 11 regional planning councils exist in Florida.

SAFETEA-LU Safe, Accountable, Flexible, and Efficient Transportation Equity Act, a Legacy for Users: Federal legislation that was signed into law on August 10th 2005. This legislation built upon the ISTEA and TEA-21 premises but advocated a new direction in transportation planning, as evidenced by its name.

SIS Strategic Intermodal System: The SIS is a transportation system that is made up of Florida statewide and regionally significant facilities and services (strategic), that contains all forms of transportation for moving both people and goods, including linkages that provide for smooth and efficient transfers between modes and major facilities (intermodal), and that integrates individual facilities, services, forms of transportation (modes) and linkages into a single, integrated transportation network (system).

SRTS Safe Routes to School: The Safe Routes to School Program (SRTS) was authorized in August 2005 by Section 1404 of the federal transportation act, SAFETEA-LU (the *Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users*). SRTS funds are administered through the seven FDOT Districts and overseen by the State Safe Routes to School Coordinator Program guidelines and other program documents have been developed to create a competitive application process for infrastructure projects and non-infrastructure programs.

STIP State Transportation Improvement Program: A staged, multiyear, statewide, intermodal program that is consistent with the state and metropolitan transportation plans; identifies the priority transportation projects to be done over the next three years; is developed by the Florida Department of Transportation (FDOT) and the Alabama Department of Transportation (ALDOT) and must be approved by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) at least every two years.

TAP Transportation Alternatives Program. Provides funding for programs and projects defined as transportation alternatives, including on and off road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility, community improvement activities, and environmental mitigation, recreational trail program projects, safe routes to school projects, and projects for the planning design or construction of boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divided highways.

TCC Technical Coordinating Committee: A standing committee of most metropolitan planning organizations (MPOs); function is to provide advice on plans or actions of the MPO from planners, engineers and other staff members (not general citizens.)

TD Transportation Disadvantaged: People who are unable to transport themselves or to purchase transportation due to disability, income status or age.

TDP Transit Development Program: A plan developed by the transit operator and endorsed by the TPO; it addresses public transportation needs, operations, services, and contains a financial plan. The plan has a 10-year horizon, with a major update every five years, and it also requires annual updates.

TDSP Transportation Disadvantage Service Plan: A five year plan which reviews the need for Transportation Disadvantaged services, goals, objectives, and performance measures; it is updated annually.

TIP Transportation Improvement Program: A priority list of transportation projects developed by a metropolitan planning organization that is to be carried out within the five year period following its adoption; must include documentation of federal and state funding sources for each project and be consistent with adopted local comprehensive plans.

TPO (MPO) Transportation or Metropolitan Planning Organization: The forum for cooperative transportation decision-making; required for urbanized areas with populations over 50,000.

TSM Transportation Systems Management: Strategies to improve the efficiency of the transportation system through operational improvements such as the use of bus priority or reserved lanes, signalization, access management, turn restrictions, etc.

UPWP Unified Planning Work Program: Developed by Metropolitan Planning Organizations (MPOs); identifies all transportation and transportation air quality activities anticipated within the next one to two years, including schedule for completing, who is doing it, and products to be produced.

AL YOЕ

Net Costs by Year of Expenditure and Funding Source (AL Only)

Funding Source	YoE 31-35	YoE 36-40	YoE 41-50
Federal	\$ -	\$ -	\$ -
State	\$ 3,300,498	\$ -	\$ 14,756,852
Transit	\$ -	\$ -	\$ -
Local	\$ -	\$ -	\$ -
Total Costs	\$ 3,300,498	\$ -	\$ 14,756,852
Total Revenue	\$ 4,241,893	\$ 4,458,272	\$ 9,610,395
Total Rollover	\$ 941,395	\$ 5,399,667	\$ 253,209

For more information on the projects shown in the Cost Feasible Plan, please refer to Section 7.5 of the 2050 Long Range Transportation Plan and utilize either the Needs Plan ID, or the CFP Map ID values below.

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

**Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.

For more information on the projects shown in the Cost Feasible Plan, please refer to Section 7.5 of the 2050 Long Range Transportation Plan and utilize either the Needs Plan ID, or the CFP Map ID values below.

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

**Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.

Net Costs by Year of Expenditure and Funding Source (FL Only)			
Funding Source	YoE 31-35	YoE 36-40	YoE 41-50
Federal	\$ 10,000,000	\$ 142,721,928	\$ 306,051,195
State	\$ -	\$ 49,088,932	\$ 66,708,902
Transit	\$ -	\$ -	\$ -
Local	\$ 350,000	\$ -	\$ -
Total Costs	\$ 10,350,000	\$ 191,810,860	\$ 372,760,096
Total Revenue	\$ 116,763,100	\$ 133,034,300	\$ 325,225,000
Total Rollover	\$ 106,413,100	\$ 47,636,540	\$ 101,444

For more information on the projects shown in the Cost Feasible Plan, please refer to Section 7.5 of the 2050 Long Range Transportation Plan and utilize either the Needs Plan ID, or the CFP Map ID values below.

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

**Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.

Net Costs by Year of Expenditure and Funding Source (FL Only)			
Funding Source	YoE 31-35	YoE 36-40	YoE 41-50
Federal	\$ 10,000,000	\$ 142,721,928	\$ 306,051,195
State	\$ -	\$ 49,088,932	\$ 66,708,902
Transit	\$ -	\$ -	\$ -
Local	\$ 350,000	\$ -	\$ -
Total Costs	\$ 10,350,000	\$ 191,810,860	\$ 372,760,096
Total Revenue	\$ 116,763,100	\$ 133,034,300	\$ 325,225,000
Total Rollover	\$ 106,413,100	\$ 47,636,540	\$ 101,444

For more information on the projects shown in the Cost Feasible Plan, please refer to Section 7.5 of the 2050 Long Range Transportation Plan and utilize either the Needs Plan ID, or the CFP Map ID values below.

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

**Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.

Net Costs by Year of Expenditure and Funding Source (FL Only)			
Funding Source	YoE 31-35	YoE 36-40	YoE 41-50
Federal	\$ 10,000,000	\$ 142,721,928	\$ 306,051,195

For more information on the projects shown in the Cost Feasible Plan, please refer to Section 7.5 of the 2050 Long Range Transportation Plan and utilize either the Needs Plan ID, or the CFP Map ID values below.

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

**Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.

For more information on the projects shown in the Cost Feasible Plan, please refer to Section 7.5 of the 2050 Long Range Transportation Plan and utilize either the Needs Plan ID, or the CFP Map ID values below.

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

**Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.

Net Costs by Year of Expenditure and Funding Source (FL Only)			
Funding Source	YoE 31-35	YoE 36-40	YoE 41-50
Federal	\$ 10,000,000	\$ 142,721,928	\$ 306,051,195

For more information on the projects shown in the Cost Feasible Plan, please refer to Section 7.5 of the 2050 Long Range Transportation Plan and utilize either the Needs Plan ID, or the CFP Map ID values below.

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

**Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.

For more information on the projects shown in the Cost Feasible Plan, please refer to Section 7.5 of the 2050 Long Range Transportation Plan and utilize either the Needs Plan ID, or the CFP Map ID values below.

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

**Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.

Net Costs by Year of Expenditure and Funding Source (FL Only)			
Funding Source	YoE 31-35	YoE 36-40	YoE 41-50
Federal	\$ 10,000,000	\$ 142,721,928	\$ 306,051,195

For more information on the projects shown in the Cost Feasible Plan, please refer to Section 7.5 of the 2050 Long Range Transportation Plan and utilize either the Needs Plan ID, or the CFP Map ID values below.

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

**Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.

Net Costs by Year of Expenditure and Funding Source (FL Only)			
Funding Source	YoE 31-35	YoE 36-40	YoE 41-50
Federal	\$ 10,000,000	\$ 142,721,928	\$ 306,051,195
State	\$ -	\$ 49,088,932	\$ 66,708,902
Transit	\$ -	\$ -	\$ -
Local	\$ 350,000	\$ -	\$ -
Total Costs	\$ 10,350,000	\$ 191,810,860	\$ 372,760,096
Total Revenue	\$ 116,763,100	\$ 133,034,300	\$ 325,225,000
Total Rollover	\$ 106,413,100	\$ 47,636,540	\$ 101,444

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

****Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.**

For more information on the projects shown in the Cost Feasible Plan, please refer to Section 7.5 of the 2050 Long Range Transportation Plan and utilize either the Needs Plan ID, or the CFP Map ID values below.

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

**Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.

Net Costs by Year of Expenditure and Funding Source (FL Only)			
Funding Source	YoE 31-35	YoE 36-40	YoE 41-50
Federal	\$ 10,000,000	\$ 142,721,928	\$ 306,051,195
State	\$ -	\$ 49,088,932	\$ 66,708,902
Transit	\$ -	\$ -	\$ -
Local	\$ 350,000	\$ -	\$ -
Total Costs	\$ 10,350,000	\$ 191,810,860	\$ 372,760,096
Total Revenue	\$ 116,763,100	\$ 133,034,300	\$ 325,225,000
Total Rollover	\$ 106,413,100	\$ 47,636,540	\$ 101,444

For more information on the projects shown in the Cost Feasible Plan, please refer to Section 7.5 of the 2050 Long Range Transportation Plan and utilize either the Needs Plan ID, or the CFP Map ID values below.

*Project funded by 22 percent of estimated revenues available from the statewide Product Support estimates for PD&E and roadway and structures design pertaining to SHS (non-SIS) and Other Roads (non-SIS, non-SHS). These funds are in addition to the estimates for SHS (non-SIS) and Other Roads (non-SIS, non-SHS) funds provided to MPOs. They are not included in the Revenue or Cost estimates for the State portion.

**Phases of projects with no costs associated, but funding years attributed, have had their costs combined with other projects located within the Cost Feasible Plan. For example, Needs Plan ID 600 is \$14M, but the costs for Needs Plan ID 654 have also been included in that total.

Appendix D

Federally Obligated Projects for Fiscal Year 2025

Florida-Alabama Transportation Planning Organization Federally Obligated Projects List for Fiscal Year 2025

Prepared for

Prepared by and staff to the Florida-Alabama TPO

**Originally completed October 17, 2025
Updated March 19, 2026**

Staff Contact

Gary Kramer, Transportation Planner IV

gary.kramer@ecrc.org

Purpose of this Report:

The Infrastructure Investment and Jobs Act (IIJ Act) transportation legislation enacted by Congress in November 2021 requires an annual listing of obligated projects{23CFR 450.334} (a) In metropolitan planning areas, on an annual basis, not later than 90 calendar days following the end of the program year, the State, public transportation operator(s), and the MPO shall cooperatively develop a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C. Chapter 53 were Obligated in the preceding program year. (b) The listing shall be prepared in accordance with 450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under 450.326(g)(1) and (4) and identify for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year and the Federal funding remaining and available for subsequent years. (c) The listing shall be published or otherwise made available in accordance with the MPO's public participation criteria.

The purpose of this report is to report Federal funding obligations in the Florida-Alabama Transportation Planning Organization (TPO) that took place within the planning area during Fiscal Year (FY) 2024-2025, which covers October 1, 2024 to September 30, 2025. The Federal Highway Administration (FHWA) defines "obligation" as "the federal government's promise to pay a State for the Federal share of a project's eligible cost." Obligated projects were not necessarily initiated or completed during this year. The obligated amounts reflected in this report also may not be equal to the final project cost.

Background

Federal Law requires states and local governments to conduct cooperative, comprehensive, and continuing ("3-C") transportation planning to receive federal funds for highway and transit improvements. The Florida-Alabama TPO was established by designation of the governor through an interlocal agreement in 1977. An amendment in 1998 expanded membership to include all five (5) county commissioners from Santa Rosa County, providing equitable population and geographic representation on the TPO. Apportionment of membership was reviewed in 2013

following the 2010 Census. Representation from Orange Beach, Alabama was added. This membership apportionment was approved by the Florida governor on June 12, 2013 and accepted by the Alabama governor on December 11, 2013. The interlocal agreement was updated in 2015. An updated apportionment of membership was approved by the TPO on August 9, 2023, submitted to and approved by the Florida governor on August 8, 2024 and accepted by the Alabama Department of Transportation on August 26, 2024. However, the board membership and composition did not change.

According to Section 339.175, Florida Statutes, TPO board members shall be local elected officials. The current membership of the Florida-Alabama TPO is made up of:

- Five (5) members from Escambia County Commission
- Five (5) members from Pensacola City Council
- Five (5) members from Santa Rosa County Commission
- One (1) member from Gulf Breeze City Council
- One (1) member from Milton City Council
- One (1) member from Baldwin County Commission
- One (1) member from Orange Beach City Council

The Emerald Coast Regional Council (ECRC) provides the designated professional staff to the Florida-Alabama TPO and performs the work required to maintain the continuing, cooperative and comprehensive (3-C) planning process. The ECRC serves seven (7) counties and is unique in its role in staffing three (3) separate TPOs (MPOs) in Northwest Florida. A staff services agreement between the Florida-Alabama TPO and the ECRC, effective on January 12, 2015, establishes this staffing arrangement.

This report contains the following information: Florida Department of Transportation's Annual Obligations Report, Alabama Department of Transportation's Annual Obligations Report, and Public Transportation's Annual Obligations Report.

Florida DOT federally authorized projects in FY 2025

INTRODUCTION

The Florida-Alabama Transportation Planning Organization (TPO), staffed by the Emerald Coast Regional Council, is tasked with developing Project Priorities. Project Priorities, which are essentially the Cost Feasible Plan element of the Long Range Transportation Plan (LRTP), are usually approved in May each year and are due to the State Departments of Transportation by August 1st. The adopted Project Priorities are used by the State Departments of Transportation to develop a five-year Work Program. This five-year Work Program is then used by the TPO to develop its five-year Transportation Improvement Program (TIP). The TIP is also adopted by the TPO at its May meeting each year. The chart below explains the process identified above.

The projects listed in this Project Priorities document are identified by the following tables:

- Capacity Projects (Tables 1-3).
- Transportation System Management Projects (Table 4).
- Transportation Alternatives Program Projects (Table 5).
- Alabama Alternative Mode Projects (Table 6).
- Public Transportation Related Projects (Tables 7-8).
- Aviation Projects (Tables 9-10).
- Port Projects (Table 11).
- SUN Trail Projects (Table 12).

METHODOLOGY

- Capacity projects are based on the 2045 LRTP. Completed projects are removed from the list, projects that are scheduled for construction in the first three years are moved to the committed list, and new projects are placed at the end of the priorities list and ranked by cost of the funding set asides and construction projects. The capacity priority project in Alabama is fully funded.
- Transportation System Management Projects are ranked based on TPO approved criteria. Projects were provided by the Florida Department of Transportation.
- Transportation Alternatives Program Projects are ranked based on TPO approved criteria.
- The Alternative Modes Projects are for the Alabama portion of the TPO.
- Public Transportation Related Projects are listed by potential grants and are furnished by the TPO's Public Transportation Staff in consultation with the region's public transportation providers
- Aviation Project Priorities are furnished by the Pensacola International Airport and Peter Prince Field/Santa Rosa County staff.
- Port Project Priorities are provided by the Port of Pensacola.
- SUN Trail Project Priorities were submitted by the City of Pensacola and the City of Gulf Breeze and are ranked based upon TPO approved criteria.

The Capacity, Transportation System Management, Transportation Alternatives Program, and SUN Trail Projects have separate Evaluation Criteria to rank projects. The Evaluation Criteria for these four categories are listed in Appendix B. However, **the TPO has the final decision on how the Project Priorities are ranked.**

PUBLIC INVOLVEMENT

Public Outreach for the FY 2027-2031 Project Priorities took place from March 10, 2025 — April 25, 2025 and a Public Outreach Report is included in Appendix C. In addition, two TPO and Advisory Committee workshops (March 12 and April 9, 2025) and one public workshop (April 9, 2025) were in person as well as virtual as part of the development of the FY 2027-2031 Project Priorities. Each of the workshops and the public outreach were advertised in the Florida-Administrative Register. An e-mail notice was also sent to the TPO and Advisory Committee Members. News releases were distributed to media outlets and meeting information was promoted through social media sites. Flyers were created and emailed to members of the TPO and advisory committees.

Comments from the public involvement opportunities were identified in the TPO and Advisory Committee Members May agenda enclosure. A Public Forum was also held at the TPO meeting in May. No comments on the Project Priorities were made during the Public Forum. However, the TPO voted to adopt the priorities with two changes listed below based on their discussion of the priorities. The comments from the public involvement opportunities are included in Appendix C. The Project Priorities Tables from drafts through adoption were posted on the web site for review and comment. The Project Priorities schedule was reviewed at the February TPO Meeting and the Project Priorities were approved at the May TPO Meeting (see Resolution FL-AL 25-04 in Appendix D) with the following changes:

TABLE 4 TSM:

- Table 4 TSM Priority #7 “SR 281 Avalon Boulevard at Del Monte Street”. Added the project at the bottom of the list with the priority being a traffic signal that has been warranted by FDOT.

TABLE 11 PORT OF PENSACOLA:

- Table 11 Port of Pensacola Seaport Project Priorities. Updated the previous priorities based on a new set of priorities provided by the Port of Pensacola.

Escambia County Area Transit was awarded 2020 FTA 5307 CARES Act Funding in the amount of \$10,137,924. The funds were allocated for Fiscal Years 19/20-21/22. Grant funds will be used to support operations due to the loss of revenue caused from loss of ridership and fare suspension throughout the COVID pandemic. Escambia County was awarded 2020 FDOT 5311 CARES ACT Funds for \$541,960 for Rural Assistance for FY 20/21 - FY 22/23. Escambia County Area Transit was awarded 2022 FTA 5307 ARP Act Funding in the amount of \$6,594,653. The funds were allocated for Fiscal Years 22/23-23/24. Grant funds will be used to support operations due to the loss of revenue caused from loss of ridership throughout the COVID pandemic.

Table 12: FY 27-31 Shared Use Non-Motorized (SUN) Trail Project Priorities

Priority	FDOT WP#	Project	Limits	Description	Phases
1	NA	Downtown Pensacola Waterfront Connector Trail - Phase 2	Cypress St. and South Pace Blvd to East Main St. and S. Tarragona St.	The City of Pensacola respectfully submits a project to design and construct various segments of the downtown waterfront connector trail phase 1 that will fill in a major gap in the SUN Trail network, for a total of 1.36 miles. This project carries out a key component envisioned in the Urban Core Community Redevelopment Plan and the City Active Transportation Plan. The City has invested funding to complete public involvement and design for the facilities adjacent to Main St and Cedar St. This design is known as the Hashtag Connector. A trail facility on Cypress St needs design and construction funding. This project will create a connected system separate from motor vehicles along Main Street, which has an AADT of 20,000 vehicles. It would also alleviate historical safety concerns with nine (9) bicycle and pedestrian crashes along Main St since August of 2018. The planned trail will connect people to the waterfront and support economic development within the downtown.	PE and CST
2	4554132	Soundview Trail Pathway	Shoreline Drive / US Highway 98 to Bob Sikes Bridge / Gulf Island National Seashore	The project encompasses a comprehensive scope, commencing at the future landing of the multi-use pathway and Highway 98 overpass. The pathway will follow Highway 98, skirting around Harbortown, and then proceed onto State Road 399, serving as a direct route to Pensacola Beach and the Florida National Scenic Trail. Continuing eastward towards the Gulf Islands National Seashore and the Great NW Coastal Trail, the path will include an enhanced crosswalk across State Road 399 for heightened safety. The pathway itself will be constructed with 12 feet of asphalt, ensuring a dedicated and secure space separate from the roadways. This concept prioritizes the safety and convenience of pedestrians and cyclists, facilitating a more accessible and enjoyable travel experience.	PE Funded 2028 CST

Appendix A – Regional Intelligent Transportation System (ITS) Plan Projects

Escambia/Santa Rosa Regional ATMS/ITS Background: The FL-AL TPO and its five Florida local agencies have identified the need to implement Arterial Traffic Management System (ATMS) improvements throughout the two-county region. The purpose of this document is to provide a brief overview of the background and status of the ATMS and describe initiatives undertaken by the local agencies and TPO in support of future regional ATMS improvements.

Recent History:

- ✓ **2015 - ATMS PHASE I** - FDOT completed an initial ATMS improvement in late 2015 referred to as ATMS Phase I, which included 18 intersections, fiber optic communications and the installation of Traffic Signal Operations Centers (TSOCs) with central operating software within both the City of Pensacola and Escambia County public works facilities.
- ✓ **2016 - ATMS FEASIBILITY AND IMPLEMENTATION STUDY** - FDOT and FL-AL TPO funded an ATMS Feasibility and Implementation Study. Atkins was selected to complete the study through a City of Pensacola contract.
- ✓ **2016 - DRMP SELECTED** - to serve under a contract with Escambia County funded by the FL- AL TPO. In coordination with FDOT the services for his contract included managing the progress of the ATMS master planning study, improving on-going signal operations, and developing and implementing interim ATMS improvements.
- ✓ **2017 - ATMS WORKING GROUP CREATED** - Consisting of technical and planning staff from all five (Florida) local agencies as well as TPO and FDOT. This working group continues to meet monthly via teleconference to cover ATMS improvements as well as ongoing operations.
- ✓ **2018 - ATMS FEASIBILITY STUDY COMPLETED** - The ATMS masterplan proposes to upgrade all existing signal controller assemblies in the two-county area, implement ITS technology throughout, and provide active communication from all devices, primarily via fiber optic cabling, to a jointly operated Regional Traffic Management Center (RTMC). In total, 362 signalized intersections are proposed to be retrofitted with new controller assemblies, electrical service components, and network communication components. Cameras, dynamic message signs, and vehicle detection systems will be provided in strategic locations throughout the region for corridor monitoring and incident management, all at a cost of approximately \$60M.
- ✓ **2018 - LEAD AGENCY IDENTIFIED** - Mr. Jared Perdue requested that a lead agency be identified to provide administrative oversight for the development, deployment, and future operations for the ATMS and a new RTMC. The FL-AL TPO agreed to take on the responsibility. Under this scenario, ECRC staff serve as administrative leadership with material technical support for all on-going and future operations coming from local agency staff and consultants and with FDOT input/coordination.
- ✓ **2019 - LOCAL AGENCY COMMITMENTS** - Mr. Perdue, understanding that the FDOT could not guarantee annual legislative funding sufficient to support continued operational costs for the proposed ATMS, requested that the five local agencies pass and sign resolutions to cover, on a pro-rata basis, the full operational costs for future ATMS/RTMC functions. Resolutions from all five agencies were passed and signed in 2019.
- ✓ **2018/2019 - INTERIM IMPROVEMENTS** - FDOT and local agencies funded the installation of several cellular based Miovision units for “interim” communications providing broader ATMS capabilities on several major corridors.
- ✓ **2019 - TPO DESIGNATES FUNDING** - The FL-AL TPO approved Work Program committing SU funding to begin in FY 2023 for ATMS improvements.

- ✓ **April 14, 2021 - TPO ALLOCATES CRRSA FUNDS FOR RTMC DESIGN**
TPO approved resolution FL-AL 21-14 allocating \$1,621,143 for the design of the RTMC.
- ✓ **2021 - INTERIM CELLULAR BUILDOUT** - FDOT provided funding for many more Miovision installations, enough to provide for nearly full basic ATMS capabilities on all of the two-county transportation network. The installation of the new units is now complete providing extensive ATMS capabilities.
- ✓ **2022** - With extensive arterial traffic management capabilities established by the interim cellular communications network, the ATMS Working Group identified the Regional Traffic Management Center (RTMC) as the next prioritized phase of development for the master planned system. The following is a narrative of the on-going activities associated with developing and delivering the RTMC project:
 - ✓ The Working Group, along with FDOT and ECRC, agreed to site the future Regional TMC on the north end of the Escambia County Public Safety Complex.
 - ✓ **2022** - Escambia County deeded a portion of the Public Safety Complex to the FL-AL TPO.
 - ✓ **2022** - ECRC was certified under the Local Agency Program to oversee a consultant contract to deliver design and construction documents for the RTMC.
 - ✓ **2022** - On August 18, 2022, the Escambia County Board of County Commissioners adopted the Resolution R2022-96 and instructed its staff to coordinate in partnership with the FDOT and the ECRC in developing a construction LAP agreement between the FDOT and Escambia County for the construction phase of the Escambia-Santa Rosa RTMC in accordance with the Final RTMC Construction Plans which will be provided by the ECRC, and Upon completion of the Final RTMC Construction Plans by the ECRC and appropriation of construction funds by the FDOT, return to the Board for approval of the RTMC Construction LAP Agreement.
 - ✓ **2022** - On December 19, 2022, a request for Letter of Interest (LOI) and Request for Proposal (RFP) for design of the RTMC was advertised by the ECRC.
 - ✓ **2023** - Responses to LOI were received on January 16, 2023, and the shortlisted firms submitted their response to the RFP on February 1, 2023.
 - ✓ The Selection Committee completed ranking of the RFPs on February 6, 2023, and the ranking was approved by the FDOT and FL-AL TPO on February 8, 2023, and authorized ECRC to begin staff hours negotiation with the top ranked firm (WGI).
 - ✓ **2023** - Staff hours negotiation was completed with WGI and a Notice to Proceed for design phase of the RTMC was issued on April 14, 2023. Total of 360 calendar days was estimated for the substantial completion of RTMC design.

Current Actions:

- ✓ **2024** - The RTMC design was substantially completed in May 2024 and permitting phase of the project is in progress. The projected final completion of design is Fall 2024.
- ✓ **2024** - A draft Bid Documents for construction of RTMC has been prepared and will be finalized for advertisement when the construction funds are available.
- ✓ **2024 - INTERIM CELLULAR BUILDOUT** - Installation of additional Miovision devices continued in 2024, and more signals were connected to the Escambia County and Pensacola TSOCs which expanded the basic ATMS capabilities in the two-county transportation network.

Funding:

The current 5-year work program includes the following based on the SU funding commitments from FL-AL TPO.

Project Summary						
Transportation System: INTERSTATE STATE HIGHWAY District 03 - Escambia County						
Description: ESCAMBIA/SANTA ROSA REGIONAL ITS PLAN PROJECTS						
Type of Work: ATMS - ARTERIAL TRAFFIC MGMT						
Item Number: 451524-1						
Project Detail						
Fiscal Year:	2025	2026	2027	2028	2029	2030
Highway Operations						
Amount:	\$16,732,541	\$5,767,459	\$872,124	\$5,000,000	\$5,000,000	\$5,000,000

Escambia County will bid, award and manage the construction phase (LAP) and will advance funds for the construction with pay-back from FDOT/TPO work program.

What is requested:

FDOT commitment to:

- ✓ Program funding for construction of RTMC in FY 25.
- ✓ Enter into a LAP agreement with Escambia County for the County to manage construction of the RTMC. Payback to Escambia County in FY 26.
- ✓ Fiber Optic Technology in FY 27, FY 29, and FY 30.
- ✓ Fiber Optic Technology on US 98 with Carbon Funds in FY 28.

A separate initiative, related to the ATMS, also being pursued by ECRC is for a transportation-based Smart-Region Masterplan. Following the lead of FDOT D-2's Pete Vega and the NFITPO's Executive Director, Jeff Sheffield, the FL-AL TPO has passed resolution FL-AL 21-14 approving the allocation of CRSSA funding for developing a Smart Region Master Plan and associated data-management capabilities. ECRC is requesting:

- ✓ FDOT revise the funding source from SU to SA so that the funds obligated for the task may be utilized for a larger study to include all three of the TPOs or a larger regional area plan. Currently the CRRSA funding is coded phase 52 and not in the work program.

Appendix B – Evaluation Criteria

2045 LONG RANGE TRANSPORTATION PLAN EVALUATION CRITERIA

Category and Criteria (Description)	Criteria Rating Scale (Lesser Benefit <----> Higher Benefit)		
Safety and Security - 25% [Goal A; Objectives A.1, A.2, A.4]			
Hurricane Evacuation [Project is on or develops Hurricane Evacuation Route] <i>To what extent will the project support movement of people, goods, or services to facilitate evacuation?</i>	0 No		1 Yes
Safety Improvement Strategies [Accident rates based on Signal Four Analytics] <i>Projects ranked from highest to lowest and awarded a graduated point value based on ranking past five years.</i>	0 Lowest	0.5 Mid Range	1 Highest
Intermodal Access [Project on SIS, STRAHNET, military, otherwise regionally significant] <i>Is the project on one of these facilities?</i>	0 No		1 Yes
User's Needs - 15% [Goals B, D, & E; Objectives B.2, B.3, B.4, D.3, D.6, E.1]			
Existing Level of Service (LOS) [Project existing LOS based on Congestion Management System] <i>What is the existing LOS on the project route?</i>	0 A or B	0.5 C or D	1 E or F
Future LOS [Project future LOS 2045 in Needs Assessment] <i>What is the future LOS on the project route?</i>	0 E or F	0.5 C or D	1 E or F
Connectivity [Project improves continuity or connectivity over the network] <i>Is the project on a Principal Arterial, Arterial, or Collector / Other?</i>	0 Collector / Other	0.5 Arterial	1 Principal Arterial
Operational and Integrated - 15% [Goals B, C, & D; Objectives B.5, C.1, C.2, C.4, D.2, D.3, D.6]			
Intelligent Transportation System (ITS) / Advanced Transportation Management System (ATMS) [Project supports ITS / ATMS implementation] <i>Does the project advance ITS / ATMS implementation?</i>	0 No		1 Yes
Adopted Plans [Project addresses user needs in adopted master, regional, local plans, including Freight or Corridor Management Plans] <i>Is the project listed in an adopted plan?</i>	0 No		1 Yes
Freight Plan [Is the project in an adopted Freight Plan?] <i>To what extent does the project advance an adopted Freight Plan?</i>	0 No		1 Yes
Existing Volume-to-Capacity (V/C) [What is existing Volume-to-Capacity ratio based on Regional Transportation Model?] <i>Is the V/C Ratio less than 1.3?</i>	0 less than 1.3		1 greater than 1.3
Future V/C [What is future Volume-to-Capacity ratio based on Regional Transportation Model?] <i>Is the V/C Ratio less than 1.3?</i>	0 less than 1.3		1 greater than 1.3
Structurally Deficient Upgrades [Project replaces / improves structurally deficient infrastructure] <i>Is the project identified on the TIP for resurfacing or replacement?</i>	0 No		1 Yes

Multi-Modal - 15% [Goal D & F; Objectives D.2, D.3, D.4, D.5, F.3, F.4]		
Pedestrian, Bicycle, Public [Project included as a Pedestrian project in the Bicycle/Pedestrian Plan] <i>Does the project provide for multi-modal connections for bicycle, pedestrian, or public transit, or park-and-ride / ride-share?</i>	0 greater than 2 miles	1 Same facility
Complete Streets [Project is included in Complete Streets implementation plan] <i>Does the project provide for Complete Streets implementation?</i>	0 No	1 Yes
Economic Vitality - 10% [Goals E & F; Objectives E.1, E.3, E.4, E.5, F.5]		
Economic Development [Project provides connection to activity center] <i>Does the project provide direction connection to ports, industrial or tourist centers, military bases, shopping, medical, or education?</i>	0 No	1 Yes
Rural Connectivity [Project provides additional connection / enhancement to rural areas] <i>Does the project provide connection to rural areas?</i>	0 No	1 Yes
Tourism and Recreation [Project provides for tourism, recreation, linkages to water, trails, parks] <i>What is the project proximity to tourist / recreation destination?</i>	0 greater than 2 miles	1 0 to 2 miles
Quality of Life - 10% [Goal F & G; Objectives F.1, F.2, F.5, F.6, G.6]		
Environmental [Project Development & Environment (PD&E) Study and/or Efficient Transportation Decision Making (ETDM) Review] <i>Does the project have impacts or no impacts?</i>	0 Substantial	1 Low
Community Impact [Project community impacts assessed] <i>To what extent does the project have community support based on PD&E or ETDM input?</i>	0 Low	1 High
Planning Consistency - 10% [Goal G; Objective G.2]		
Status [Project Evaluation and Work Plan] <i>Are one or more phases of the project scheduled in the 5-Year Work Plan?</i>	0 No	1 Right-of-Way or Construction
Local Government Contribution [Project funding includes local government contribution] <i>To what extent does the project include local government funding or other contribution?</i>	0 No	1 Yes

Safety and Security	3*25	75
User Needs	3*15	45
Operational and Integrated	6*15	90
Multi-Modal	2*15	30
Economic Vitality	3*10	30
Quality of Life	2*10	20
Planning Consistency	2*10	20
Maximum points one project can have		310

TPO has final authority to select the projects for inclusion in the Cost Feasible Plan and to rank them in the Project Priorities.

TRANSPORTATION SYSTEMS MANAGEMENT (TSM) CRITERIA

A. Level of Service (LOS) Issue Addressed	
Current Deficiency	5 Points
Five Year Deficiency	3 Points
LRTP Year Deficiency	1 Point
Not deficient	0 Points
B. Regional Significant Roadway (defined as a roadway that is included in the model for the metropolitan area's transportation network)	
Yes	2 Points
No	1 Point
C. Crash Rate	
Safety Ratio Greater than 2.00	3 Points
Safety Ratio from 1.00 to 2.00	2 Points
Safety Ratio less than 1.00	1 Point
D. Has an existing TPO priority	
Yes	2 Points
No	1 Point
E. Significant Freight Corridor	
Designated NHS Intermodal Connector or Truck	
Traffic more than 10% Annual Average Daily Traffic (AADT)	3 Points
Truck Traffic 8-10% AADT	2 Points
Truck Traffic 5-7.99% AADT	1 Point
F. Local Project Support	
High	5 Points
Medium	4 Points
Low	3 Points

This criteria was not used because there was no definition of what met the levels of "high," "medium," and "low."

TRANSPORTATION ALTERNATIVES (TA) PROJECT CRITERIA

	Evaluation Category	Scoring (Maximum Points Possible)	Project Score
Criterion 1	Safety	25	
Criterion 2	Connectivity	15	
Criterion 3	Location Efficiency	15	
Criterion 4	Proximity to School	15	
Criterion 5	Design Quality	15	
Criterion 6	Environmental/Archeological Projects/ Historic Preservation	15	
	Total	100	
Bonus Points	Local Contribution and Public Support	5	
	Total Points Possible	105	

SHARED USE NON-MOTORIZED (SUN) TRAIL PROJECT CRITERIA

Criteria	Source Data	Criteria Rating Scale Lesser Benefit <----> Higher Benefit			
1. Is additional financial contribution committed to the project?	Local Government	0 No	- -	- -	10 Yes
2. Which phases are complete?	Local Government	2.5 No Phases	5 Feasibility Study Only	7.5 Feasibility Study and PD&E/Design	10 Feasibility Study and PD&E/Design and ROW
3. Does the project have a high level of documented public support?	Local Government	0 No	- -	- -	10 Yes
4. Does the project facilitate a system of interconnected trails by closing a gap in the SUN Trail Network?	FDOT SUN Trail Network	0 No	- -	- -	10 Yes

Tie Breakers	
1. Is the project included in the TPO's Long Range Transportation Plan, the ECRC Pedestrian Bicycle Committee's regional priorities, or ECRC's Regional Rural Transportation Plan? Yes or No. <i>(Yes takes priority)</i>	Florida-Alabama TPO LRTP Okaloosa-Walton TPO LRTP Bay County TPO LRTP ECRC Bicycle Pedestrian Plan ECRC Regional Rural Transportation Plan
2. What is the total project cost per mile? <i>(Lower cost takes priority)</i>	Local Government

Appendix C – Public Outreach Report and Public Comments

Survey Snapshot

Survey open: March 10 – April 25

Total surveys: 128

Top outreach channels:

Email (51%)

Social Media (31%)

Friend or Colleague (11%)

Respondents represented a range of cities and zip codes - **from Orange Beach, AL to Navarre, FL** – highlighting broad geographic participation

Daily Experience

Most respondents (~70%) commute 15 –45 minutes, and ~77% experience congestion daily or frequently

Commute Duration

■ Under 15 min ■ 15-45 min ■ Over 45 min

Congestion Impact

■ Daily ■ Frequent ■ Occasionally or rarely

FL-AL TPO Causes of Traffic Congestion

(Based on 128 responses)

FL-AL TPO Transportation Priorities

(Based on 128 responses)

Survey Comments

Received **103 open comments** via the survey
(Themes reflect an initial review; full analysis is still in progress)

Early themes mentioned by participants include d:

Gulf Beach Highway, Blue Angel Parkway, and Sorrento Road – frequently cited for congestion, safety issues, and lack of turn lanes or sidewalks.

Highway 98 (Navarre to Pensacola) – feedback noted signal timing challenges, traffic delays, and limited multimodal options.

Highway 90 and 87 (Milton, Pace, and Navarre) – several comments highlighted congestion and intersection bottlenecks.

Pensacola Beach and surrounding areas – some participants raised concerns about seasonal congestion and pedestrian access.

March 12, 2025, TPO, TCC, and CAC Workshop Comments and Responses

1. **Table 1A – Regional ITS Projects. Will the Fiber Optic Technology link to the Traffic Management Center and when will the Traffic Management Center be opened?**

The Fiber Optic Technology will link to the Traffic Management Center. The Traffic Management Center Design Plans are in the final stages and the Traffic Management Center is anticipated to be construction complete in approximately two years.

2. **Table 1 – Non-SIS Priority 5. Sorrento Road from Innerarity Point to Blue Angel Parkway. Can this priority be moved up?**

Yes, this priority can be moved up if it is approved by the TPO. It was mentioned that there are different phases for a roadway capacity project until it is construction complete with each phase having a different funding source. It was mentioned that this project is the highest priority for the Design or Preliminary Engineering (PE) phase. The widening project still needs Design, Right-of-Way, and Construction phases funded.

3. **Table 1 – US 29 Connector from Nine Mile Road to Muscogee Road. Is the extension to Quintette Road still a possibility for this project?**

The extension to Quintette Road is included in the 2045 Needs Plan but is not in the 2045 Cost Feasible Plan for the TPO.

4. **Table 1 – Non-SIS Priorities 15 and 16. Gulf Beach Highway/Sorrento Road from Blue Angel Parkway to Navy Boulevard. It was mentioned that a portion of Gulf Beach Highway is missing from this segment.**

After a one-on-one discussion after the workshop, it was determined a portion of Gulf Beach Highway was not missing from this segment.

5. **Table 1 – Non-SIS Priority 20. Navarre Community Access Road from Edgewood Drive to Whispering Pines Road. The priority for this segment should be PE since the PD&E Study is underway.**

Change will be made.

6. **Table 5 – Transportation Alternative Priorities – East Maxwell Street from North Palafox Street to North Hayne Street. This priority should be priority #2 instead of two number 1 priorities.**

Change will be made.

7. **Table 7 – Escambia County Area Transit Priorities. Are Electric Vehicles still a priority for Escambia County Area Transit?**

After the meeting, Escambia County Area Transit concurred that the Electric Vehicles are still being considered for their fleet of transit buses.

8. Table 9 – Pensacola International Airport Priorities.

The Pensacola International Airport representative, who attended the meeting, provided a few answers the members had regarding the airport's priorities such as parking garages and ramp repairs.

9. Table 12 – SUN Trail Priorities. A question was asked about the ownership of Bob Sikes Bridge and re-paving of the multi-use path on Pensacola Beach.

The Escambia County representative, who attended the meeting, indicated that the Bob Sikes Bridge is maintained by Escambia County and will discuss potential funding sources for re-paving the multiuse path on Pensacola Beach with Escambia County staff.

April 9, 2025 Public Workshop Comments

1. **Pensacola Beach.**
 - *Funding for projects.*
 - *Multi-Use Paths.*
 - *Congestion (Signal timing)*
 - *Time of Trolleys,*
 - *Public Transportation from Pensacola to Pensacola Beach.*
2. **Public Transportation in Santa Rosa County.**
 - *Examples of capital purchases are bus purchases.*
3. **Pine Forest Road**
 - *Widening.*
 - *Signal Timing.*
 - *Development.*
 - *Rerouting traffic.*
4. **Bayfront Parkway SUN Trail Project**
 - *Non-Motorized.*
 - *Safety concerns.*
5. **Gulf Beach Highway Resurfacing Project**
 - *Potential additional safety improvements.*

April 9, 2025 TPO, TCC, CAC Workshop Comments and Responses

1. **Table 1 – Non-SIS Priority 2 Other Transportation Needs. Are any studies currently identified for this priority?**

No studies are currently identified for this priority. It is a placeholder and if needed further studies could be identified for this priority.

2. **Table 1 – Non-SIS Priority 3. Pine Forest Road from CR 297A to I-10. When will Right-of-Way be funded for this project?**

The Right-of-Way phase is not currently funded in the five-year work program. Once the Project Priorities are adopted by the TPO in May, the priorities will be sent to FDOT to use a guide to build their FY 2027-2031 Tentative Work Program. FDOT will present the FY 2027-2031 to the TPO in November. The Right-of-Way phase for this roadway segment may or may not be funded in the FY 2027-2031 Work Program. If not, it will remain a priority to see if it can be funded in the next Work Program cycle.

3. **Table 1 – Non-SIS Priority 5. Sorrento Road from Innerarity Point Road to Blue Angel Parkway. It was mentioned that flooding is a concern on this segment.**

It was requested that a specific location be provided, and this information will be furnished to FDOT to investigate any possible remedies.

4. **Table 1 Non-SIS Priority 7. US 90 from SR87 (North Stewart Street) to Ward Basin Road. It was mentioned that the City of Milton is in favor of this project. It needs to proceed accordingly so the Design Phase can be completed so the Right-of-Way Phase can be funded in the future.**

Comment noted.

5. **Table 1 – Non-SIS Priority 8. US 90 from Glover Lane to SR 87 (North Stewart Street). It was mentioned that the City of Milton is in favor of this project because of the congestion relief in downtown Milton.**

Comment noted.

6. **Table 1 – Non-SIS Priority 9. US 90 from Ward Basin Road to SR 87 South. It was mentioned that the City of Milton is in favor of this project because of the congestion relief in downtown Milton.**

Comment noted.

7. **Table 1 – Non-SIS Priority 15. Gulf Beach Highway from Fairfield Drive to Navy Boulevard. It was mentioned that there is a Right-of Way issue on this segment.**

It was mentioned the Right-of-Way phase is not funded in the Long Range Transportation Plan Cost Feasible Plan. If the Right-of-Way phase is eventually funded in the Long Range Transportation Plan, it will be included in the Project Priorities. If the Right-of-Way phase is eventually included in the five year work program, the Right-of-Way issues can be addressed at that time..

8. **Table 1 – Non-SIS Priority 17. Burgess Road from US 90 to Hilburn Road. Will sidewalks be included in this project?**
Yes, sidewalks are scheduled to be included in this project.
9. **Table 1 – Non-SIS Priority 18. Fairfield Drive from Mobile Highway to Lillian Highway. Will sidewalks be included in this project?**
Once the Project Development and Environment and Design phases are funded, it will be determined if sidewalks are included in this segment. In the interim, other opportunities such as grants and the Transportation Alternatives Program can be pursued for the implementation of sidewalks on this segment since construction of the 4-laning of this segment is several years away.
10. **Table 2 – SIS Priority 3. Blue Angel Parkway from Sorrento Road to US 98. Setbacks were mentioned as concern along this segment.**
It was requested that a more specific location on Blue Angel Parkway be provided because much of this segment does not appear to be an issue for setbacks.
11. **Table 2 – SIS Priority 11. Pine Forest Road from I-10 to Pine Forest Drive. Will pedestrian issues be addressed in this segment.**
Since the priority for this segment is for Right-of-Way, pedestrian accommodations have been included in the Design phase for this segment.
12. **Table 4 – TSM Priority 2. US 98 (Chase Street) at Tarragona Street. It was mentioned that the City of Pensacola is in favor of this project because of safety issues at this intersection.**
Comment noted.

Appendix D – Resolution FL-AL 25 – 04

RESOLUTION FL-AL 25-04

A RESOLUTION OF THE FLORIDA-ALABAMA TRANSPORTATION PLANNING ORGANIZATION ADOPTING THE FY 2027-2031 PROJECT PRIORITIES

WHEREAS, the Florida-Alabama Transportation Planning Organization (TPO) is the organization designated by the governors of Florida and Alabama as being responsible, together with the states of Florida and Alabama, for carrying out the continuing, cooperative and comprehensive transportation planning process for the Florida-Alabama TPO Planning Area; and

WHEREAS, the Transportation Improvement Program (TIP) is adopted annually by the TPO and submitted to the governor of the state of Florida and the governor of the state of Alabama, to the Federal Transit Administration (FTA), and through the state of Alabama and state of Florida to the Federal Highway Administration (FHWA); and

WHEREAS, public outreach occurred from March 10 — April 25, 2025 TPO, advisory committee workshops were held on March 12 and April 9, 2025, and a hybrid public workshop was held on April 9, 2025; and

WHEREAS, the initial step in the development of the TIP is for the TPO to submit its transportation project priorities for all modes of travel to the Florida Department of Transportation (FDOT) prior to July 1st; and

WHEREAS, the project priorities document is also submitted annually to the Alabama Department of Transportation (ALDOT) even though it is considered part of the Transportation Improvement Program which ALDOT only requires every four years;

NOW, THEREFORE, BE IT RESOLVED BY THE FLORIDA-ALABAMA TRANSPORTATION PLANNING ORGANIZATION THAT:

The TPO adopts the FY 2027 - FY 2031 Project Priorities, with any changes approved by the TPO board.

Passed and duly adopted by the Florida- Alabama Transportation Planning Organization on this 14th day of May 2025.

**FLORIDA- ALABAMA TRANSPORTATION
PLANNING ORGANIZATION**

Re: Approval of FFY 2026-27 through FFY 2030-31 Transportation Improvement Programs

Dear Mr. Christian:

The Department has completed the review of the Transportation Improvement Programs for Florida's 27 Metropolitan Planning Organizations and has concluded that all are consistent with federal and state law. Although federal law requires a four-year Transportation Improvement Program, Metropolitan Planning Organizations in Florida, per 339.175(8)(c)(1), Florida Statute, are required to develop and approve a five-year Transportation Improvement Program.

Through the authority delegated by the Governor, I hereby approve the Transportation Improvement Programs for the Metropolitan Planning Organizations in Florida. These Transportation Improvement Programs will be effective upon the joint approval of the 2026-2027 State Transportation Improvement Program by the Federal Highway Administration and Federal Transit Administration. Per Title 23 450.218(b), Code of Federal Regulations, all locally funded projects contained in the Transportation Improvement Programs are incorporated by reference into the State Transportation Improvement Program.

The required Florida Department of Transportation District Secretary certifications are included as attachments, as well as the additional required certification documents. If the Department can be of further assistance in providing additional information, please contact Ms. Donna M. Green, Statewide MPO Administrator, Office of Policy Planning at 850-414-4610.

DocuSigned by:

A handwritten signature in black ink, appearing to read "J. Perdue", is written over a blue rectangular stamp that contains the word "SIGNED" in capital letters.

Jared W. Perdue, P.E., Secretary
Florida Department of Transportation

Mr. Jamie Christian, P.E.

Transportation Improvement Program (TIP) Review Checklist

MPO Name: TIP Submittal Date: Review #: Date of Review: Reviewed By:

Federal and State Requirements

TIP Development and Approval

See: 23 USC 134 (c)(1), 23 USC 134(g)(2), 23 USC 134(j)(1)(A), 23 USC 134(j)(D), 23 CFR 450.326(a), s.339.175(8) FS, s.339.175(8)(c)1 FS, s.339.175(8)(c)7-8 FS, s.339.175(14) FS

	Response	Page Number(s)	Comment Type	Comments
Does the TIP include projects and project phases recommended for advancement in the next fiscal year and the 4 subsequent fiscal years (for a total of 5 fiscal years)?	Yes	Section 1-10		
Was the TIP approved by the MPO? (This could be an MPO resolution or signed signature block on the TIP cover page.)	N/A		Editorial	Draft TIP
Was the TIP developed:				
	Response	Page Number(s)	Comment Type	Comments
By the MPO in cooperation with the state and any affected public transportation operator(s)?	Yes	ES-1		
Using estimates of available federal and state funds provided to the MPO by the state?	Yes	ES-1		
In coordination with other MPO(s) (If there are multiple MPOs located within a U.S. Census Bureau designated urban area or if there is a project within the boundaries of multiple MPOs)?	N/A			

Plan Consistency

See: 23 USC 134(g)(3)(B), 23 USC 134(j)(1)(A)(i), 23 USC 134(j)(3)(C), 23 CFR 450.326(i), 23 CFR 450.326(n)(1), s.339.175(8)(a), s.339.175(8)(c)1-2 FS, s.339.175(8)(c)5-7 FS

Does the TIP:	Response	Page Number(s)	Comment Type	Comments
Describe how it was developed with due consideration of other types of planning activities within the MPO's area, including how projects are consistent, to the maximum extent feasible, with affected seaport, airport, and spaceport master plans and with public transit development plans?	Yes	ES-10		
Demonstrate how the projects align with the goals, policies, and investment priorities of the MPO's current Long Range Transportation Plan (LRTP)? This can be accomplished by providing the page number or identification number where each project can be found in the MPO's LRTP.	Yes	Sections 1-10		
Describe the criteria and process for prioritizing LRTP projects for inclusion, including any changes from previous TIPs? This may be addressed through a brief description of, or a reference to, the MPO's LOPP.	Yes	Appendix E		
Describe how projects are consistent, to the maximum extent feasible, with approved local government comprehensive plans within the MPO's area?	Yes	ES-10		
Provide justification for any project or project phase that is inconsistent with an approved local government comprehensive plan in the MPO's area (if applicable)?	N/A			

Public Participation

See: 23 USC 134(j)(1)(B), 23 USC 134(j)(4), 23 USC 134(j)(7), 23 CFR 450.326(b), s.339.175(8)(e) FS, s.339.175(8)(h)

	Response	Page Number(s)	Comment Type	Comments
Were all interested parties provided with a reasonable opportunity to comment on the proposed TIP?	Yes	ES-10		
Was the TIP published or otherwise made readily available for public review (including electronically accessible formats, to the maximum extent practicable)?	Yes	ES-10		
Did the MPO make the Annual List of Obligated Projects for the previous year available for public review?	Yes	Appendix D		

Project Information Requirements

See: Title 23 USC, Title 49 USC, 23 USC 134(j)(2)(C), 23 CFR 450.326(f), 23 CFR 450.326(g)(1)-(4), 23 CFR 667, s.339.175(8)(c)(1) FS

Does the TIP include:	Response	Page Number(s)	Comment Type	Comments
All projects and project phases to be funded with federal, state, and local funds within the time period of the TIP?	Yes	Sections 1-10		
All regionally significant projects requiring FHWA/FTA action, regardless of funding source?	Yes	Sections 1-10		
All regionally significant projects proposed to be funded with other Federal funds and with non Federal funds (as required)?	Yes	Sections 1-10		
Projects listed in FDOT's 23 CFR PART 667 Report ?	Yes	ES-17		
All Federal discretionary grants that fund capital projects under Title 23 or Title 49, USC, per the Infrastructure Investment and Jobs Act (IIJA)? (Federal discretionary grants that fund capital projects must be in the TIP before executing a grant agreement with USDOT.)	Yes	Sections 1-10		
Does each project in the TIP include:	Response	Page Number(s)	Comment Type	Comments
Sufficient descriptive information to identify the project (type of work, termini, length, etc.)?	Yes	Sections 1-10		
Estimated total project cost?	Yes	Sections 1-10		
Amount and source of federal and nonfederal funds by year?	Yes	Sections 1-10		
Responsible agency?	Yes	Sections 1-10		
Financial Project Number (FPN)?	Yes	Sections 1-10		

Performance Requirements

See: 23 USC 134(j)(1)(A)(iii), 23 USC 134(j)(2)(D), 23 CFR 450.326(c)-(d), s.339.175(10)(b)

Does the TIP:	Response	Page Number(s)	Comment Type	Comments
Incorporate the Transportation Performance Measures (TPM) template provided by FDOT's Systems Forecasting and Trends Office? If yes, the response to the following TPM questions should also be yes.	Yes	ES 27-45		
Describe, to the maximum extent practicable, the anticipated effect of achieving the performance targets listed below, linking investment priorities to those targets? i. Highway Safety Performance Measures (PM 1) ii. Pavement & Bridge Condition Measures (PM 2) iii. System Performance and Freight Measures (PM 3) iv. Transit Asset Management Measures v. Transit Safety Performance Measures	Yes	ES 27-45		
Report on progress toward establishing performance targets for performance measures established in 339.175(10)(b), FS? These are the same as the federal performance measures.	Yes	ES 27-45		

Financial Plan/Financial Constraint

See: 23 USC 134(j)(2)(B), 23 USC 134(j)(3)(D), 23 CFR 450.326(j)-(k), s.339.175(8)(c)(3) FS, s.427.015(1) FS

NOTE: Florida's TIPs are developed consistent with the FDOT Five-Year Work Program, demonstrating fiscal constraint and including only those projects and phases for which full funding can reasonably be anticipated within the planned timeframe for completion. (Select "Yes" unless the MPO is doing something outside normal procedures.)

Does the TIP:	Response	Page Number(s)	Comment Type	Comments
Demonstrate that there are sufficient funds (federal, state, local, and private) to implement proposed transportation system improvements?	Yes	Appendix F		
Compare funding sources and amounts, by year, to total project costs? (It is recommended to include a table(s) to demonstrate this.)	Yes	Appendix F		
Use year-of-expenditure dollars (inflation applied based on reasonable principles and information) for revenue and cost estimates?	Yes	ES-1		
Discuss the development of Transportation Disadvantaged (TD) services, a description of costs and revenues from TD services, and a list of improvements funded with TD funds?	Yes	Appendix F		

Recommended Content Framework

	Response	Page Number(s)	Comment Type	Comments
Was the TIP developed using the Official TIP Snapshot? Include the date the MPO downloaded the Snapshot in the Comments box.	Yes			4/2/2026
<i>Does the TIP's cover page include:</i>	Response	Page Number(s)	Comment Type	Comments
MPO name	Yes	Cover Page		
MPO address	Yes	Cover Page		
Correct fiscal years	Yes	Cover Page		
Date of adoption	N/A			Draft Review
<i>Does the TIP include:</i>	Response	Page Number(s)	Comment Type	Comments
A table of contents that shows the title of each section with the correct page number?	Yes	Table of Contents		
A list of definitions, abbreviations, codes, and acronyms?	Yes	Appendix A		
Discussion of the MPO's current FDOT/MPO Annual Joint Certification and past FHWA/FTA quadrennial certification (for TMA MPOs)?	Yes	ES-11		
The anticipated date of the next FHWA/FTA quadrennial certification (for TMA MPOs)?	Yes	ES-11		
Discussion of the congestion management process?	Yes	ES-12

SELF-CERTIFICATION OF THE METROPOLITAN TRANSPORTATION PLANNING PROCESS

TABLE OF CONTENTS

Section	Page
1.1 PURPOSE.....	1-2
1.2 AUTHORITY.....	1-2
1.3 SCOPE.....	1-2
1.4 REFERENCES.....	1-2
1.5 FEDERAL CERTIFICATION REQUIREMENTS.....	1-3
1.6 CERTIFICATION PROCESS & QUESTIONS.....	1-3

1.1 PURPOSE

This chapter provides guidance to the Alabama Department of Transportation for the certification of the metropolitan transportation planning process conducted by ALDOT.

1.2 AUTHORITY

Infrastructure Investment and Jobs Act <https://www.fhwa.dot.gov/bipartisan-infrastructure-law/>

23 U.S.C. (United States Code) 134 (k)(5)

49 U.S.C. 5303 (k)(5)

23 C.F.R. (Code of Federal Regulations) 450.334

1.3 SCOPE

Federal law and regulation require ALDOT and the MPOs to jointly certify the transportation planning process for the metropolitan area concurrent with the submittal of the entire TIP to the FHWA and the FTA as part of the STIP approval at least every four years. This chapter is intended for use by ALDOT and MPO staff to assist them in carrying out the self-certification requirements.

1.4 REFERENCES

49 C.F.R. 38	-----	(Americans with Disabilities Act (ADA) Accessibility Specifications for Transportation Vehicles)

1.5 SELF-CERTIFICATION REQUIREMENTS

23 C.F.R. 450.334 requires that concurrent with the submittal of the entire proposed TIP to FHWA and FTA as part of the STIP approval, the State and MPO shall certify at least every four years that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

- (1) The metropolitan planning requirements identified in *23 U.S.C. 134* and *49 U.S.C. 5303*;
- (2) In non-attainment and maintenance areas, Sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 C.F.R. Part 93;
- (3) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 C.F.R. Part 21;
- (4) 49 U.S.C. 5332 prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (5) Section 11101(e) of the IIJA (Public Law 117-58) and 49 C.F.R. Part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- (6) 23 C.F.R. Part 230 regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (7) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and *49 C.F.R. Parts 27, 37, and 38*;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101) prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of 23 U.S.C. regarding the prohibition of discrimination on the basis of gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 C.F.R. Part 27 regarding discrimination against individuals with disabilities.

1.6 CERTIFICATION PROCESS & QUESTIONS

When the new STIP and TIPs are developed, ALDOT should contact each of the MPOs to schedule the certification review. The meeting should be scheduled so that ALDOT can provide **preliminary results of the certification**. At the meeting, ALDOT and the MPO will

review all the planning requirements mandated by the 10 areas of law referenced in Section 1.5 and the questions outlined in this section.

The list of questions provided below identifies those minimum tasks that an MPO shall do in order to be fully certified. If the answer to one of the questions below is negative and if the problem cannot be corrected prior to the signing of the joint certification statement, ALDOT has the option of granting conditional certification and including corrective action in the joint certification statement. The corrective action should include a date by which the problem must be corrected. This list is intended to be as comprehensive as possible; however, it is possible that some requirements may have been overlooked and will need to be added at a later date.

Section (1): The metropolitan planning requirements of 23 U.S.C. 134 and 49 U.S.C. 5303;

1. Is the MPO properly designated by agreement between the Governor and 75% of the urbanized area, including the largest incorporated city, and in accordance with procedures set forth in state and local law? [23 U.S.C. 134 (d)(1)(A) and (B); 49 U.S.C. 5303 (d); 23 C.F.R. 450.310 (b)]

TPO Staff Response: Yes, the Interlocal Agreement was updated to include new members from the City of Orange Beach and Escambia County Area Transit (ECAT) and the agreement was filed in December 2015. In April 2016 Escambia County Board of County Commissioners passed a resolution recommending removal of ECAT as a representation on the Florida-Alabama TPO. Subsequently, the Florida-Alabama TPO approved Resolution FL-AL 16-15 removing ECAT. Resolution FL-AL 16-15 was filed with Baldwin County, Alabama, and Escambia and Santa Rosa Counties in Florida.

2. For Transportation Management Areas (TMAs) only, does the MPO policy board include local elected officials, officials that administer or operate major modes of transportation, and appropriate state officials? [23 U.S.C. 134 (d)(2)(A), (B), & (C); 49 U.S.C. 5303 (d); 23 C.F.R. 450.310 (d)]

TPO Staff Response: Yes, the TPO consists of 5 Escambia County Commissioners, 5 City of Pensacola Council members, 5 Santa Rosa County Commissioners, 1 City of Gulf Breeze Council member, 1 City of Milton Council member, 1 Baldwin County Commissioner, and 1 City of Orange Beach Council member.

3. Does the MPO have up to date agreements such as the transportation planning agreement that creates the MPO, the financial agreement, and, if applicable, a transportation planning agreement between the MPOs, State, and public transportation operators where more than one MPO has been designated to serve an urbanized area? [23 C.F.R. 450.314]

TPO Staff Response: The Interlocal Agreement for Creation of the Florida-Alabama TPO was updated and approved by the TPO on October 7, 2015. Escambia County Board of County Commissioners approved a resolution at their April 7, 2016 meeting recommending removal of Escambia County Area Transit as a representative on the TPO. Subsequently, the TPO approved Resolution FL-AL 16-15 accepting Escambia County's recommendation. Resolution FL-AL 16-15 has been filed with Baldwin County, Alabama, and Escambia and Santa Rosa Counties in Florida.

The Intergovernmental Coordination and Review (ICAR) Agreement underwent an update in 2025. It is currently awaiting final signature from FDOT District 3.

The Agreement for Professional Staff Services by and between the West Florida Regional Planning Council and the Florida-Alabama Transportation Planning Organization for the Pensacola, FL-AL Urbanized Area was updated and approved on December 10, 2014.

4. Does the MPO boundary encompass the existing urbanized area and contiguous area expected to become urbanized within 20-year forecast period? [23 U.S.C. 134 (e)(2); 49 U.S.C. 5303 (e); 23 C.F.R. 450.312 (a)]

TPO Staff Response: The Metropolitan Planning Area Boundary encompasses the existing Urban Boundary and the area expected to become urban in the next 20 years. There was a change in the Orange Beach area where the area next the State Park was expanded from the 2010 Census. The GIS files for the Smoothed Urban Boundary and the Metropolitan Planning Area Boundary were uploaded to the Microsoft Teams Site by the December 15, 2023 due date. ALDOT indicated on November 2, 2023 that the Smoothed Urban Boundary files met their requirements. The Metropolitan Planning Area Boundary was accepted by ALDOT through the Membership Apportionment Plan on August 26, 2024.

5. Did ALDOT send a copy of the boundary map to FHWA and FTA? [23 C.F.R. 450.312 (j)]

TPO Staff Response: Both FHWA and FTA have access to the ALDOT Teams Site which contains the Metropolitan Planning Area Boundary and Membership Apportionment Report which includes the Metropolitan Planning Area Boundary Map and the GIS Files for the Metropolitan Planning Area Boundary.

6. For projects located within the boundaries of more than one MPO, does the MPO coordinate the planning of these projects with the other MPO(s)? [23 U.S.C. 134 (g)(2)]

TPO Staff Response: Yes, the Emerald Coast Regional Council is staff to the Florida-Alabama TPO, Okaloosa-Walton TPO, and Northwest Florida Regional TPO. No projects for the Florida-Alabama TPO crossed into Eastern Shore MPO and Mobile MPO, but the Florida-Alabama TPO coordinates with these two MPOs regularly. In addition, Baldwin County staffs the Eastern Shore MPO and Baldwin County has

membership on the Florida-Alabama TPO and TCC. Lastly, ALDOT in Mobile attends the Mobile MPO, Eastern Shore MPO, and the Florida-Alabama TPO meetings.

7. Does the MPO planning process provide for consideration of the 10 planning factors? [23 U.S.C. 134 (h); 23 C.F.R. 450.306 (b)]

TPO Staff Response: Yes, the 10 planning factors in the IIJA (Infrastructure Investment and Jobs Act) are considered in the TPO's planning process. The 10 planning factors are specifically outlined for consideration in the TPO's Unified Planning Work Program and Long Range Transportation Plan documents.

The ten planning factors are:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
2. Increase the safety of the transportation system for motorized and nonmotorized users.
3. Increase the security of the transportation system for motorized and nonmotorized users.
4. Increase the accessibility and mobility of people and for freight.
5. Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight.
7. Promote efficient system management and operation.
8. Emphasize the preservation of the existing transportation system.
9. Improve resiliency of the system and reduce storm water impact of surface transportation.
10. Enhance travel and tourism.

The ten planning factors were considered in the development of the 2050 Long Range Transportation Plan Goals and Objectives which were reviewed and developed by a steering committee of the TCC and CAC with assistance from the TPO staff and the General Planning Consultant. A matrix showing how the 10 planning factors is included the 2050 LRTP can be found in the Goals and Objectives Final Report on Table 47 beginning on page 62 at

https://www.ecrc.org/document_center/Programs/Florida%20Alabama%20TPO/2050%20LRTP/2050%20FL-AL%20LRTP%20Goals%20and%20Obj%20Tech%20Report%2004%2016%2024.pdf.

The 10 Planning Factors were also considered in the FY 2025-FY 2026 Unified Planning Work Program as shown in Table 1 on page 8 at

https://www.ecrc.org/document_center/Programs/Florida%20Alabama%20TPO/Plans%20and%20Documents/FL-AL%20UPWP%20FY25-FY26%20July%202025.pdf?t=202509081518540.

8. Did the Long-Range Transportation Plan (LRTP) have at least a 20-year horizon at the time of adoption of the last major update? [23 U.S.C. 134 (i)(2)(A); 23 C.F.R. 450.324 (a)]

TPO Staff Response: Yes, the 2050 Long Range Transportation Plan was adopted on August 13, 2025. The 2045 Long Range Transportation Plan was adopted on October 14, 2020. Therefore, the last two Long Range Transportation Plan updates had at least a 20-year horizon at the time of adoption.

9. Did the LRTP address the following areas in accordance with 23 U.S.C. 134 (i)(2), 49 U.S.C. 5303 (f)?

- Identify projected transportation demand of persons and goods in the metropolitan planning area over the period of the transportation plan.

TPO Staff Response: The projected demand of persons and goods is included in the Transportation Model. The northwest Florida Regional Transportation Model does not include Alabama. However, FDOT, Baldwin County, and the TPO Staff started to communicate regarding the 2050 Long Range Transportation Plan with FDOT maintaining the Northwest Florida Regional Transportation Model and Baldwin County is developing a transportation model for Baldwin County and attended some of the 2050 Florida-Alabama Long Range Transportation Plan meetings.

- Identify major transportation facilities (including major roadways, public transportation facilities, intercity bus facilities, multimodal and intermodal facilities, nonmotorized transportation facilities) that function as an integrated metropolitan transportation system, giving emphasis to facilities that serve national and regional transportation functions.

TPO Staff Response: A comprehensive review and analysis of all regional multimodal needs was completed as part of the plan update process. As documented throughout the 2050 LRTP, an inventory of major roadway, transit, multimodal and intermodal facilities, bicycle and pedestrian facilities, and intermodal connectors was completed, and the needs were identified.

- Include a description of the performance measures and performance targets used in assessing the performance of the transportation system in accordance with 23 USC 134(h)(2).

TPO Staff Response: The 2050 LRTP includes performance measures and performance targets and outlines them in the System Performance Report. https://www.ecrc.org/programs/transportation_planning/plans_and_documents/long_range_transportation_plan/2050_lrtp_documents.php

- Include a system performance report and subsequent updates evaluating the condition and performance of the transportation system with respect to the performance targets described in 23 USC 134(h)(2).

TPO Staff Response: The 2050 LRTP included a System Performance Report which included a description of the performance measures and performance targets used in accessing the performance of the transportation system.

https://www.ecrc.org/programs/transportation_planning/plans_and_documents/long_range_transportation_plan/2050_lrtp_documents.php

- Include discussion of types of potential environmental mitigation activities and potential areas to carry out these activities, including activities that may have the greatest potential to restore and maintain the environmental functions affected by the plan.

TPO Staff Response: The Northwest Florida Water Management District (NFWFMD) Umbrella Plan and In-Lieu Fee Program provide mitigation options for FDOT when use of a mitigation bank is not available. These programs do not compete with private mitigation banks. The intent of the NFWFMD In-Lieu Fee Program is to provide compensatory mitigation options to the FDOT for areas not presently served by private mitigation banks or where appropriate bank credits, as determined by the USACE, are not available. Mitigation to non-FDOT entities, if deemed acceptable under Florida statutes, may be provided on a case-by-case basis only with concurrence from FDOT. In Baldwin County, AL, specifically the City of Orange Beach, alternative mitigation techniques are identified such as living shorelines and sea grass bed conservation initiatives in the city's Growth Management Plan. Other initiatives include the city's involvement with the Perdido Foundation for waterbody protection, dune nourishment, and habitat protection. There are other environmental impacts and mitigation options associated with transportation projects such as noise, light, surface water runoff, and right-of-way acquisition which could affect a variety of resources from wildlife habitat to cultural and historical resources to recreational resources and conservation or scenic easements. Mitigation options for these impacts are defined through the NEPA process (PD&E process for FDOT projects) and include noise barriers and impacts to outdoor advertising, directional and/or environmentally sensitive lighting, swales and stormwater pond design, wildlife crossings, construction provisions defined by the resource agencies, and in some cases, species relocation (such as for gopher tortoise and associated commensal species). Mitigation options for cultural and historical resources are defined in coordination with the appropriate State Historic Preservation Officer. Mitigation options for recreational resources are defined in coordination with the implementing agency pursuant to Section 4(f) of the U.S. Department of Transportation Act (for federally funded transportation projects). An interactive map showing many of these environmental resources was included during the development of the Long Range Transportation Plan.

- Include a financial plan that showed the public and private revenue sources that could reasonably be expected.

TPO Staff Response: A financial plan was prepared and is documented in the 2050

LRTP. Federal and state funding program estimates were provided through the FDOT and a separate table was provided by ALDOT. These revenues are summarized in the 2050 LRTP.

- Include discussion of operational and management strategies to improve the performance of existing transportation facilities to relieve vehicular congestion and maximize the safety and mobility of people and goods.

TPO Staff Response: Several studies have been developed to address operation and maintenance issues to relieve vehicle congestion and improve safety and mobility of people and goods in the Florida-Alabama TPO area such as the Congestion Management Process Plan, Smart Regions Master Plan, Data Analytics Plan, Congestion Elimination Plan, and a Safety Action Plan. Ultimately a future Transportation Management Center will be constructed so all the previous references will be able to be monitored from this facility in Pensacola. In the Alabama region of the TPO, traffic signal coordination and timing, bicycle/pedestrian facilities, and intersection improvements are the techniques utilized to relieve vehicle congestion and improve safety and mobility of people and goods.

- Include discussion of capital investment and other strategies to preserve the existing and projected future metropolitan transportation infrastructure, provide for multimodal capacity increases based on regional priorities and needs, and reduce the vulnerability of the existing transportation infrastructure to national disasters.

TPO Staff Response: The 2050 LRTP involved extensive analysis of the preservation of existing and forecasted infrastructure through Goals and Objectives, Evaluation Criteria, and Federal Transportation Performance Measures.

- Indicate as appropriate proposed transportation and transit enhancement activities.

TPO Staff Response: Transit and transit mobility projects are referenced in the Transit Development. Also, the Federal Transit Administration funding is included in the 2050 Long Range Transportation Plan revenue forecasts. Transit mobility routes are referenced in the 2050 Long Range Transportation Plan Needs Plan.

10. Did the LRTP address the following minimum required areas in accordance with 23 C.F.R. 450.324 (f)?

- Identify projected transportation demand of persons and goods in the metropolitan planning area over the period of the transportation plan;

TPO Staff Response: The projected demand of persons and goods is included in the Transportation Model. The northwest Florida Regional Transportation Model does not include Alabama. However, FDOT, Baldwin County, the TPO Staff started to

communicate regarding the 2050 Long Range Transportation Plan with FDOT maintaining the Northwest Florida Regional Transportation Model and Baldwin County is developing a transportation model for Baldwin County and attended some of the 2050 Florida-Alabama Long Range Transportation Plan meetings.

- Identify existing and proposed transportation facilities (including major roadways, transit, multimodal and intermodal facilities, pedestrian walkways and bicycle facilities, and intermodal connectors);

TPO Staff Response: A comprehensive review and analysis of all regional multimodal needs was completed as part of the plan update process. As documented throughout the 2050 LRTP, an inventory of major roadway, transit, multimodal and intermodal facilities, bicycle and pedestrian facilities, and intermodal connectors was completed, and the needs were identified.

- Include a description of the performance measures and performance targets used in assessing the performance of the transportation system in accordance with 23 C.F.R. 450.306(d).

TPO Staff Response: The 2050 LRTP includes performance measures and performance targets and outlines them in the System Performance Report.

https://www.ecrc.org/programs/transportation_planning/plans_and_documents/long_range_transportation_plan/2050_lrtp_documents.php

- Include a system performance report and subsequent updates evaluating the condition and performance of the transportation system with respect to the performance targets described in 23 C.F.R. 450.306(d)

TPO Staff Response: The 2050 LRTP included a System Performance Report which included a description of the performance measures and performance targets used in accessing the performance of the transportation system.

https://www.ecrc.org/programs/transportation_planning/plans_and_documents/long_range_transportation_plan/2050_lrtp_documents.php

- Include operational and management strategies to improve the performance of existing transportation facilities;

TPO Staff Response: Several studies have been developed to address operation and maintenance issues to relieve vehicle congestion and improve safety and mobility of people and goods in the Florida-Alabama TPO area such as the Congestion Management Process Plan, Smart Regions Master Plan, Data Analytics Plan, Congestion Elimination Plan, and a Safety Action Plan. Ultimately a future Transportation Management Center will be constructed so all the previous references will be able to be monitored from this facility in Pensacola. In the Alabama region of the TPO, traffic signal coordination and timing, bicycle/pedestrian facilities, and intersection improvements are the techniques utilized to relieve vehicle congestion

and improve safety and mobility of people and goods.

- In TMA areas, consider the results of the congestion management process;

TPO Staff Response: The Congestion Management Process (CMP) was updated as part of the 2050 LRTP update. Congestion management strategies included in the CMP have been included in the 2050.

- Include an assessment of capital investment and other strategies to preserve the existing and projected future metropolitan transportation infrastructure and provide for multimodal capacity increases based on regional priorities and needs;

TPO Staff Response: Development of the 2050 LRTP involved extensive analysis of the preservation of existing and forecasted infrastructure through Goals and Objectives, Evaluation Criteria, and Federal Transportation Performance Measures.

- Describe the proposed improvements in sufficient detail to develop cost estimates;

TPO Staff Response: The purpose and need for each project was developed as part of the 2050 LRTP. Cost estimates were developed and have been included. These costs are based on FDOT and ALDOT planning level cost estimates.

- Discuss types of potential environmental mitigation activities and potential areas to carry out these activities;

TPO Staff Response: The Northwest Florida Water Management District (NFWFMD) Umbrella Plan and In-Lieu Fee Program provide mitigation options for FDOT when use of a mitigation bank is not available. These programs do not compete with private mitigation banks. The intent of the NFWFMD In-Lieu Fee Program is to provide compensatory mitigation options to the FDOT for areas not presently served by private mitigation banks or where appropriate bank credits, as determined by the USACE, are not available. Mitigation to non-FDOT entities, if deemed acceptable under Florida statutes, may be provided on a case-by-case basis only with concurrence from FDOT. In Baldwin County, AL, specifically the City of Orange Beach, alternative mitigation techniques are identified such as living shorelines and sea grass bed conservation initiatives in the city's Growth Management Plan. Other initiatives include the city's involvement with the Perdido Foundation for waterbody protection, dune nourishment, and habitat protection. There are other environmental impacts and mitigation options associated with transportation projects such as noise, light, surface water runoff, and right-of-way acquisition which could affect a variety of resources from wildlife habitat to cultural and historical resources to recreational resources and conservation or scenic easements. Mitigation options for these impacts are defined through the NEPA process (PD&E process for FDOT projects) and include noise barriers and impacts to outdoor advertising, directional and/or environmentally sensitive lighting, swales and stormwater pond

design, wildlife crossings, construction provisions defined by the resource agencies, and in some cases, species relocation (such as for gopher tortoise and associated commensal species). Mitigation options for cultural and historical resources are defined in coordination with the appropriate State Historic Preservation Officer. Mitigation options for recreational resources are defined in coordination with the implementing agency pursuant to Section 4(f) of the U.S. Department of Transportation Act (for federally funded transportation projects). An interactive map showing many of these environmental resources was included during the development of the Long Range Transportation Plan.

- Include pedestrian walkway and bicycle transportation facilities;

TPO Staff Response: A comprehensive review and analysis of all regional multimodal needs was completed as part of the plan update process. As documented throughout the 2050 LRTP, an inventory of major roadway, transit, multimodal and intermodal facilities, bicycle and pedestrian facilities, and intermodal connectors was completed, and the needs were identified.

- Include transportation and transit enhancement activities;

TPO Staff Response: Transit and transit mobility projects are referenced in the Transit Development. Also, the Federal Transit Administration funding is included in the 2050 Long Range Transportation Plan revenue forecasts. Transit mobility routes are referenced in the 2050 Long Range Transportation Plan Needs Plan.

- Include a financial plan that demonstrates how the adopted transportation plan can be implemented

TPO Staff Response: A financial plan was prepared and is documented in the 2050 LRTP and it illustrates how projects will be implemented in the Cost Feasible Plan section.

- Include design concept and design scope descriptions of all existing and proposed transportation facilities in sufficient detail, regardless of funding sources, in nonattainment and maintenance areas for conformity determinations under the EPA's transportation conformity regulations (40 C.F.R. part 93, subpart A).

TPO Staff Response: Questions do not apply to the FL-AL TPO since the TPO area has maintained attainment and has never been designated a maintenance area.

11. Has the LRTP been reviewed and updated at least 5 years since the date of the last MPO Board action? If the MPO planning area is in nonattainment and maintenance areas, has the LRTP been reviewed and updated at least 4 years since the last board action? [23 U.S.C. 134 (i)(1); 23 C.F.R. 450.324 (c)]

TPO Staff Response: The Florida-Alabama 2050 Long Range Transportation Plan was adopted by Resolution FL-AL 25-21 on August 13, 2025. The 2045 Long Range Transportation Plan was adopted by Resolution FL-AL 20-24 on October 14, 2020. Therefore, the maximum 5 year deadline between Long Range Transportation Plan adoptions was met.

12. Has the MPO sent all updates/amendments of the LRTP to FHWA and FTA via the ALDOT's Local Transportation Bureau? [23 C.F.R. 450.324 (c)]

TPO Staff Response: Yes, the 2050 Florida-Alabama Long Range Transportation Plan was adopted by Resolution FL-AL 25-21 on August 13, 2025. All 2050 Technical Reports were reviewed by ALDOT and Final Copies are posted on the web site. Amendments will be sent to ALDOT and will be posted on the TPO web site.

13. Was the TIP developed in cooperation with the State and local transit operators? [23 U.S.C. 134 (j)(1)(A); 49 U.S.C. 5303 (a); 23 C.F.R. 450.326 (a)]

TPO Staff Response: ALDOT includes state and federal transportation projects in their Portal for the TPOs to include in their Transportation Improvement Programs (TIPs). For the current TIP, no transit projects were identified by ALDOT for the Florida-Alabama TPO. Based upon the last FHWA certification for the Florida-Alabama TPO, the Baldwin Rural Area Transportation System (BRATS) was a member of the 2050 Long Range Transportation Plan Steering Committee to represent Public Transportation interests in the Alabama region of the TPO. BRATS is also a member of the TCC. Baldwin County and the City of Orange Beach have representatives on the TCC and TPO. The CAC has a citizen from Orange Beach. The TIP is sent to the TPO, TCC, and CAC members prior to their May meeting every year. The TIP is approved by the TPO at their May meeting every year.

14. Was the TIP updated at least every 4 years and approved by the MPO and the Governor? [23 U.S.C. 134 (j)(1)(D); 23 C.F.R. 450.326 (a)]

TPO Staff Response: Yes, the Florida-Alabama TIP is approved annually by the TPO Board and is sent to ALDOT for approval by the Governor of Alabama. ALDOT's approval of the TIP is included as an Appendix in the LRTP.

15. Was the TIP financially constrained and did it include only revenues that could be reasonably expected? [23 U.S.C. 134 (j)(2)(B); 49 U.S.C. 5303 (j); 23 C.F.R. 450.326 (h)]

TPO Staff Response: Yes, the TIP is financially constrained based on the TPO's allocation and projects with Federal, State, and Local funds. These funds are the only funds that are reasonably expected. The allocation from ALDOT is included as an Appendix in the TIP.

16. Did the TIP contain a priority list of federally supported projects to be supported

over the next four years? [23 U.S.C. 134 (j)(2)(A); 49 U.S.C. 5303 (j); 23 C.F.R. 450.326 (a)]

TPO Staff Response: Yes, the TIP contains a 5-year summary of projects by funding category as requested by Florida DOT. Florida-Alabama TPO adopts a project priority document annually. A federally supported spreadsheet with our allocation is agreed upon with ALDOT. ALDOT provides an update to the spreadsheet to the TPO Staff every month to review for accuracy.

17. Did the TIP contain all regionally significant projects, as defined by 23 C.F.R. 450.104? [23 U.S.C. 134 (j)(3)(B); 49 U.S.C. 5303 (j)(2); 23 C.F.R. 450.326 (d)]

TPO Staff Response: Yes, the definition of Regionally Significant as defined in 23 C.F.R. 450.104 is a transportation project that is on a facility which serves regional transportation needs and would normally be included in the modeling of the metropolitan area's transportation network. The current transportation network consists of principal arterials, minor arterials, urban collectors, and minor collectors. The 2050 Long Range Transportation Plan Update updated the Congestion Management Process Plan to reflect the 2020 Functional Classification System in Escambia, Santa Rosa, and Baldwin Counties for these categories. FDOT, TPO, and local governments have worked cooperatively to include such projects in the TIP.

18. Was the TIP consistent with the LRTP? [23 U.S.C. 134 (j)(3)(C); 49 U.S.C. 5303 (j)(1); and 23 C.F.R. 450.326 (i)]

TPO Staff Response: Yes, LRTP Cost Feasible Plan projects which have phases funded in the next five years are included in the Transportation Improvement Program. The TIP projects also reference where the projects are located in the LRTP.

19. Does the TIP identify the criteria and process for prioritizing implementation of transportation plan elements (including inter-modal trade-offs) for inclusion in the TIP and any changes in priorities from previous TIPs? [23 C.F.R. 450.326 (n) (1)]

TPO Staff Response: Yes, criteria for the Long Range Transportation Plan, Transportation System Management, and Transportation Alternatives Program Projects are included in the TPO's Project Priorities. The Project Priorities are an Appendix in the Transportation Improvement Program. Project Priorities are updated annually and change from year to year just like Transportation Improvement Program.

20. Did the TIP include a listing of projects for which Federal funds have been obligated in the preceding year, or was this list otherwise made available for public review? [23 U.S.C. 134 (j)(7)(B); 49 U.S.C. 5304 (j)(7); 23 C.F.R. 450.326 (b) and (n)]

TPO Staff Response: Yes, Appendix D of the Transportation Improvement Program contains the listing of Federal Obligated Projects.

21. When developing the LRTP and TIP, did the MPO provide citizens, affected public agencies, representatives of transportation agency employees, freight shippers, providers of freight transportation services, private providers of transportation, representatives of users of public transit, and other interested parties with a reasonable opportunity to comment on the proposed plan and program? [23 U.S.C. 134 (i)(6)(A) and (j)(4)]

TPO Staff Response: Escambia County Area Transit, Baldwin Regional Area Transportation System, Port of Pensacola, Pensacola International Airport, Pensacola Naval Air Station, Whiting Field, and Hurlburt Field were included on the 2050 Long Range Transportation Plan Steering Committee that reviewed and commented on the various products of the 2050 Long Range Transportation Plan prior to presenting these items to the TPO and Advisory Committees. Virtual public workshops and surveys were also sent to various organizations and citizens during the development of the 2050 Long Range Transportation Plan Needs and Cost Feasible Plans.

22. Is the LRTP and TIP of the MPO published or otherwise readily available for public review? [23 U.S.C. 134 (i)(6) and (j)(7)(A)]

TPO Staff Response: The adopted plans and technical reports are included on the Emerald Coast Regional Council website as PDF files. A summary report of the 2050 Long Range Transportation Plan is also being prepared to handout to various groups and organizations throughout the year. The Final TIP was sent to ALDOT contacts, Legislative Delegation (Local and Federal), local libraries, Federal Recognized Tribes and State and Federal Environmental Organizations.

23. Did the UPWP identify work proposed for the next one- or two-year period by major activity and task in sufficient detail to indicate who will perform the work, the schedule for completing the work, the resulting products, the proposed funding by activity/task, and a summary of the total amounts and sources of Federal and matching funds? [23 C.F.R. 450.308 (c)]

TPO Staff Response: Yes, the FY 2025-FY 2026 Unified Planning Work Program has 7 tasks that are identified per Fiscal Year with projects with target dates of completion. Each task is also broken down by funding source and summarized by table.

UPWP Link:

https://www.ecrc.org/document_center/Programs/Florida%20Alabama%20TPO/Plans%20and%20Documents/FL-AL%20UPWP%20FY25-FY26%20July%202025.pdf?t=202509081518540.

24. Did the UPWP document planning activities to be funded with through Title 23 U.S.C. and the Federal Transit Act? [23 C.F.R. 450.308 (b)]

TPO Staff Response: Yes, the FL-AL FY 2025-FY 2026 UPWP includes the following

planning activities under Public Transportation in Task 5 Plans and Studies:

- Technical Assistance to Transit Agency
- Local Coordinating Board Activities

25. Were the transportation plans and programs of the MPO based on a continuing, comprehensive, and cooperative process? [23 U.S.C. 134 (c)(3), 49 U.S.C. 5303 (c)(3)]

TPO Staff Response: Yes, the TPO process is based on a continuing, comprehensive, and cooperative process which is standard language in each resolution that is approved by the TPO Board. Standard language in adopted TPO Resolutions for Transportation Plans and Programs is "The Florida-Alabama Transportation Planning Organization (TPO) is the organization designated by the governors of Florida and Alabama as being responsible, together with states of Florida and Alabama, for carrying out the continuing, cooperative and comprehensive transportation planning process for the Florida-Alabama TPO planning area."

26. If located in a Transportation Management Area, does the MPO have an up to date congestion management process? [23 U.S.C. 134 (k)(3)]

TPO Staff Response: Yes, the Florida-Alabama TPO Congestion Management Process was adopted by Resolution FL-AL 24-25 on December 11, 2024, and a minor update was approved on November 12, 2025.

27. Does the MPO have a documented Public Participation Plan that defines a process for members of the public to have reasonable opportunity to participate in the planning process? [23 C.F.R. 450.316 (a)]

TPO Staff Response:

To ensure that the TPO's plans reflect community values and equitable benefits to all planning area stakeholders, the TPO has developed a Public Participation Plan (PPP), which has been approved by the board. The PPP has been designed to:

- o Inform the public of transportation meetings and events in a timely manner and held at convenient locations.
- o Educate the public about the role in the transportation planning and decision-making process.
- o Involve the public by providing opportunities for participation early and often.
- o Engage all communities, with a particular focus on underserved demographics and populations.
- o Adapt and evolve the public participation process to align with emerging trends and technologies.

The Public Participation Plan is available at www.ecrc.org/FLALTPO. To access the document, navigate to "Plans and Documents" drop down menu located at the bottom of the webpage.

28. Has the MPO recently reviewed its Public Participation Plan? [23 C.F.R. 450.316

(a)(1)(x)]

TPO Staff Response:

- TPO Staff continually reviews the PPP to ensure it remains aligned with evolving trends and technologies. The PPP was updated in January 2021 following an annual review. Updates incorporated feedback from the Federal Highway Administration (FHWA) and insight gained during the evaluation of outreach efforts.

29. When the Public Participation Plan was adopted, was it made available for public review for at least 45 days? [23 C.F.R. 450.316(a)(3)]

TPO Staff Response:

- Yes, the PPP was made available for public review for at least 45 days prior to its adoption. The PPP is accessible online at www.ecrc.org/FLALTPO. To view the document in the “Core Documents” dropdown menu located at the bottom of the webpage.

Section (2): The requirements of Sections 174 and 176 (c) and (d) of the Clean Air Act (for air quality nonattainment and maintenance areas only)

TPO Staff Response: Questions do not apply to the FL-AL TPO since the TPO area has maintained attainment and has never been designated a maintenance area.

1. How does the MPO coordinate the development of the Transportation Plan with SIP development?
2. How does the MPO’s UPWP incorporate all of the metropolitan transportation-related air quality planning activities addressing air quality goals, including those not funded by FHWA/FTA?
3. Does the metropolitan planning process include a Congestion Management Process that meets the requirements of 23 C.F.R. Part 450.322? What assurances are there that the Transportation Plan incorporates travel demand and operational management strategies, and that necessary demand reduction and operational management commitments are made for new SOV projects?
4. How does the MPO ensure that the TIP includes all proposed federally and non-federally funded regionally significant transportation projects, including intermodal facilities?

Sections (3), (4), and (7) through (10): The prohibitions against discrimination on the basis of race, color, creed, national origin, age,

gender, or disability as dictated by Title VI of the Civil Rights Act of 1964, as amended; 49 U.S.C. 5332; 23 U.S.C. 324; the Americans with Disabilities Act; the Older Americans Act; and Section 504 of the Rehabilitation Act of 1973

1. Does the MPO have a signed Title VI policy statement expressing commitment to non-discrimination? [23 C.F.R. 200.9 (a)(1)]

TPO Staff Response:

- Yes, the signed Nondiscrimination Agreement, including Title VI Assurances, is included in Appendix D of the Unified Planning Work Program (UPWP).

2. Does the MPO take action to correct any deficiencies found by ALDOT within a reasonable time period, not to exceed 90 days, in order to implement Title VI compliance? [23 C.F.R. 200.9 (a)(3)]

TPO Staff Response:

- No deficiencies have been identified to date. However, if deficiencies are found, the MPO is committed to taking corrective action within a reasonable time period, not to exceed 90 days, to ensure Title VI compliance.

3. Does the MPO have a staff person assigned to handle Title VI and ADA related issues? This does not need to be a full-time equivalent position, but there should be at least someone at the MPO for whom Title VI and ADA is an extra duty area. [23 C.F.R. 200.9 (b)(1); 49 C.F.R. 27.13]

TPO Staff Response:

- Yes, the Marketing and Coordinator, Leandra Meredith, is designated as the staff member responsible for handling Title VI and ADA-related issues.

4. Does the MPO have a procedure in place for the prompt processing and disposition of Title VI and Title VIII complaints, and does this procedure comply with ALDOT's procedure? [23 C.F.R. 200.9 (b)(3)]

TPO Staff Response:

- The Marketing and Outreach team evaluates the effectiveness of the MPO's compliance with the Title VI requirements outlined in the Florida-Alabama Title VI Program. Quarterly Assessments are conducted to review the procedures' effectiveness, including the processing and resolution of complaints, and to ensure compliance with ALDOT's procedures.

- The program was recently updated and adopted on August 12, 2023, by the Florida-Alabama TPO. The Title VI Program can be accessed online at www.ecrc.org/FLALPublicInvolvement. To view the document, navigate to the “Title VI” dropdown menu located at the bottom of the webpage.

5. Does the MPO collect statistical data (race, color, national origin, sex, age, disability) of participants in, and beneficiaries of the programs and activities of the MPO? [23 C.F.R. 200.9 (b)(4)]

TPO Staff Response: The TPO collects demographic data from the US Census Bureau and analyzes it at the County, TPO, and Community (Census-Designated Place) levels.

6. Does the MPO conduct an annual review of their program areas (for example: public involvement) to determine their level of effectiveness in satisfying the requirements of Title VI? [23 C.F.R. 200.9 (b)(6)]

TPO Staff Response:

- Yes, the TPO conducts an annual review of its program areas, including public involvement, to evaluate their effectiveness. Both the Public Participation Plan (PPP) and the Title VI Program outline the processes used to involve all individuals in the community, regardless of race, income, or status, are positively or negatively considered in any TPO program area. The Marketing and Outreach team performs quarterly assessments to review the effectiveness of outreach efforts and compliance with Title VI requirements.
- The Title VI Program is accessible online at www.ecrc.org/FLALPublicInvolvement. TO view the document navigate to the “Title VI” dropdown menu located at the bottom of the webpage.
- The Public Participation Plan is accessible online at www.ecrc.org/FLALTPO. To view the document navigate to the “Core Documents” dropdown menu located at the bottom of the webpage.

7. Has the MPO participated in any recent Title VI training, either offered by the state, organized by the MPO, or some other form of training, in the past year?

TPO Staff Response:

- In 2024, Title VI staff participated in the LAP Title VI Sub-Recipient Compliance Assessment Tool and LAP Americans with Disabilities Act (ADA) trainings provided by the Florida LTAP Center. In 2025, members of the marketing team, including the Title VI Coordinator, completed Crisis Communication for Transit Managers and Public Involvement in Transportation Decision-Making trainings.

8. Does the MPO have a signed Non Discrimination Agreement, including Title VI Assurances, with the State?

TPO Staff Response:

- Yes, the signed Non-Discrimination Agreement, including the Title VI Assurances, is included in the United Planning Work Program (UPWP).
- The TPO's Title VI Policy Statement and Plan was reviewed and updated on August 12, 2023. The plan is accessible online at www.ecrc.org/FLALPublicInvolvement. To view the document navigate to “Title VI” dropdown menu located at the bottom of the webpage.

9. Do the MPO's contracts and bids include the appropriate language as shown in the appendices of the Non Discrimination Agreement with the State?

TPO Staff Response: All advertisements for consultants and sub-consultants includes the following DBE Policy Statement:

EQUAL OPPORTUNITY AND DISADVANTAGED BUSINESS ENTERPRISE PROGRAM STATEMENT: The TPOs do not discriminate on any basis, as required by 49 USC 5332 (which prohibits discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity), Title VI of the Civil Rights Act of 1964 as amended, 42 USC 2000d to 2000d-4, and Title 49 CFR, Part 21. The TPOs ensure, in accordance with 49 CFR Part 26, that certified FDOT Disadvantaged Business Enterprise Program (DBE) participants have an equal opportunity to receive and participate in FDOT assisted contracts.

10. Does the MPO hold its meetings in locations that are ADA accessible? [49 C.F.R. 27.7 (5)]

TPO Staff Response:

- Yes, all TPO meetings are held in ADA-accessible locations. TPO staff monitors this process through the “Equity” Performance Measure in the Public Participation Plan (PPP).
- The PPP is accessible online at www.ecrc.org/FLALTPO. To view the document, navigate to the “Core Documents” dropdown menu, located at the bottom of the webpage.

11. Does the MPO take appropriate steps to ensure its communications are available to persons with impaired vision and hearing? [49 C.F.R. 27.7 (6)(c)]

TPO Staff Response:

- Yes, all public notices and news releases advertising TPO meetings include information on how to request special accommodations for individuals who are

deaf/hard of hearing, visually impaired, have mobility issues, or require language interpretations.

- Meetings are held in ADA-compatible locations and with advance notice (as stated in our notices), staff can provide interpreters or other accommodations for specific needs.
- Updates to the TPO Website conform to Level AA of the Web Content Accessibility Guidelines (WCAG) 2.1, making web content more accessible for people with disabilities. Features include a Disability Icon on the top right corner of the webpage, enabling adjustments such as increased font size, high contrast, changes to redirect links and more.
- The complete process is outlined in the Public Participation Plan (PPP), which can be accessed online at www.ecrc.org/FLALTPO. To view the document, navigate to the “Core Products” dropdown menu located at the bottom of the webpage.

12. Does the MPO keep on file for 1 year all complaints of ADA non-compliance received and for 5 years a record of all complaints in summary form? [49 C.F.R. 27.121]

TPO Staff Response:

- Yes, the TPO retains all documentation of all ADA non-compliance complaints in accordance with legal requirements. The TPO also tracks in a summary form, all related dates and details in an easy to access spreadsheet for a minimum of 5 years or as the law requires. The TPO has received no complaints in the past year.

13. Have all the local governments included within the MPO’s study area boundary completed an ADA Transition Plan? Please provide a table indicating the status of the transition plans and copy of the completed transition plans.

TPO Staff Response:

Municipality	Status of ADA Transition Plan	ADA Coordinator	Location of ADA Transition Plan
Baldwin County	Adopted July 19, 2016 via Resolution No. 2016-094 Amended September 18, 2018 February 27, 2023: All barriers identified in the Plan have been addressed.	Roger Rendleman, County Administrator	312 Courthouse Square Bay Minette, AL 36507 baldwincountyal.gov
City of Orange Beach	Adopted September 20, 2016 via Resolution	Adam Roberson, Community Development Director/Building Official/Floodplain Administrator	4101 Orange Beach Blvd Orange Beach, AL 36561

Section (5): Section 11101(e) of the IIJA regarding the involvement of disadvantaged business enterprises in FHWA and FTA planning projects (49 C.F.R. Part 26) Note: MPOs that are part of municipal or county governments may have some of these processes handled by the host agency.

1. Does the MPO have an ALDOT approved DBE plan?

TPO Staff Response: FHWA funds are provided to the TPO through FDOT and ALDOT and are subject to FDOT's DBE Program Plan, as described in Chapter 8 of the MPO Program Management Handbook. For FTA funds, the TPO adopted a Public Transportation DBE program plan in October of 2015 via Resolution FL-AL 15-33.

2. Does the MPO track DBE participation?

TPO Staff Response: DBE participation as well as Bidder Opportunity List information is collected and tracked by FDOT. The TPOs also track DBE participation via a form submitted to FDOT. For FTA funds, DBE participation is tracked using the appropriate Federal form.

3. Does the MPO report actual payments to DBEs?

TPO Staff Response: DBE participation as well as Bidder Opportunity List information is collected and tracked by FDOT. The TPOs also track DBE participation via a form submitted to FDOT. For FTA funds, DBE participation is tracked using the appropriate Federal form.

4. Does the MPO include the DBE policy statement in its boilerplate contract language for consultants and sub-consultants?

TPO Staff Response: All advertisements for consultants and sub-consultants includes the following DBE Policy Statement:

EQUAL OPPORTUNITY AND DISADVANTAGED BUSINESS ENTERPRISE PROGRAM STATEMENT: The TPOs do not discriminate on any basis, as required by 49 USC 5332 (which prohibits discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity), Title VI of the Civil Rights Act of 1964 as amended, 42 USC 2000d to 2000d-4, and Title 49 CFR, Part 21. The TPOs ensure, in accordance with 49 CFR Part 26, that certified FDOT Disadvantaged Business Enterprise Program (DBE) participants have an equal opportunity to receive and participate in FDOT assisted contracts.

Section (6): 23 C.F.R. Part 230 regarding implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts.

1. Has the MPO implemented an equal employment opportunity program?

TPO Staff Response: The TPO does not currently have any construction contracts.

450.334 Self-certifications and Federal certifications.

Each MPO is required to include the new certification form in the TIP when updating the TIP every four (4) years and send a copy of the certification form to ALDOT's Local Transportation Bureau. After the Transportation Director at ALDOT signs the certification form, the Local Transportation Bureau will return a signed copy of the certification form to each MPO to be placed in the MPO's project folder.

METROPOLITAN TRANSPORTATION PLANNING SELF-CERTIFICATION

The Alabama Department of Transportation and the Florida-Alabama Transportation Planning Organization for the Pensacola, FL-AL Urbanized Area hereby certify that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

- (1) 23 U.S.C. 134, 49 U.S.C. 5303, and 23 C.F.R. part 450, subpart C;
- (2) In nonattainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 C.F.R. part 93;
- (3) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 C.F.R. part 21;
- (4) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (5) Section 11011(e) of the Infrastructure Investments and Jobs Act (IIJA) (Pub. L. 117-58) and 49 C.F.R. part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- (6) 23 C.F.R. part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (7) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 C.F.R. parts 27, 37, and 38;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 C.F.R. part 27 regarding discrimination against individuals with disabilities.

MEMORANDUM OF UNDERSTANDING

Alabama Department of Transportation

Statewide Procedures for FY 2024 - 2027 STIP/TIP

I. PURPOSE

This Memorandum of Understanding establishes a set of procedures for processing revisions to the Metropolitan Planning Organizations' Transportation Improvement Programs (TIPs) within the State of Alabama and the Alabama Department of Transportation's Statewide Transportation Improvement Program (STIP) for the Fiscal Year 2024 to 2027. This document has been developed in cooperation with the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA), and other planning partners.

The STIP is the aggregation of the MPO TIPs and ALDOT's statewide managed programs, including federal-aid transportation programs.

II. DEFINITIONS¹

- A. **Administrative Modification**¹ means a minor revision to a long-range statewide or metropolitan transportation plan, Transportation Improvement Program (TIP), or Statewide Transportation Improvement Program (STIP) that includes minor changes to project/project phase costs, minor changes to funding sources of previously included projects, and minor changes to project/project phase initiation dates. An administrative modification is a revision that does not require public review and comment, redemonstration of fiscal constraint, or a conformity determination (in nonattainment and maintenance areas).
- B. **Amendment**¹ means a revision to a long-range statewide or metropolitan transportation plan, TIP, or STIP that involves a major change to a project included in a metropolitan transportation plan, TIP, or STIP, including the addition or deletion of a project or a major change in project cost, project/project phase initiation dates, or a major change in design concept or design scope (e.g., changing project termini or the number of through traffic lanes). Changes to projects that are included only for illustrative purposes do not require an amendment. An amendment is a revision that requires public review and comment, redemonstration of fiscal constraint, or a conformity determination (for metropolitan transportation plans and TIPs involving "non-exempt" projects in nonattainment and maintenance areas). In the context of a long-range statewide transportation plan, an amendment is a revision approved by the State in accordance with its public involvement process.
- C. **Betterment** consists of surface treatments/corrections to existing roadway [preferably within Alabama Department of Transportation (ALDOT) right-of-way], to maintain and bring the infrastructure to current design standards for that classification of highway. This may involve providing full depth base repair, widening shoulders, increasing lane-widths, correcting super-elevation, as well as providing drainage improvements and guide rail upgrades.

¹Terms in this document also incorporate any definitions provided in 23 CFR 450.104 .

- D. **Change in Scope** is a substantial alteration to the original intent or function of a programmed project (e.g., change project termini or the number of through-traffic lanes).
- E. **Cooperation**¹ means that the parties involved in carrying out the transportation planning and programming processes work together to achieve a common goal or objective. **Cooperating Agencies** include ALDOT, Metropolitan Planning Organizations (MPOs), Rural Planning Organizations (RPOs), Federal Highway Administration (FHWA), Federal Transit Administration (FTA), Transit agencies, and any agencies and/or jurisdictions involved in carrying out the transportation planning and programming processes.
- F. **Financially Constrained (Fiscal Constraint)**¹ means that the metropolitan transportation plan, TIP, and STIP include sufficient financial information for demonstrating that projects in the metropolitan transportation plan, TIP, and STIP can be implemented using committed, available, or reasonably available revenue sources, with reasonable assurance that the federally supported transportation system is being adequately operated and maintained. For the TIP and the STIP, financial constraint/fiscal constraint applies to each program year. Additionally, projects in air quality nonattainment and maintenance areas can be included in the first two years of the TIP and STIP only if funds are "available" or "committed."
- G. **Long-Range Transportation Plan**¹ means the official, multimodal, transportation plan covering a period of no less than 20 years developed through the statewide transportation planning process.
- H. **Level of Effort (LVOE)** is the term used to describe certain grouped projects in the TIPs and STIP that are not considered of appropriate scale to be identified individually. Projects may be grouped by function, work type, or geographical area, using the applicable descriptions provided in under 23 CFR 771.117(c) and (d), and/or 40 CFR part 93. In air quality nonattainment and maintenance areas, project descriptions must be consistent with the descriptions of exempt projects, contained in the transportation conformity regulations (40 CFR part 93). These projects are placed in the TIPs and STIP according to selected funding programs, with their anticipated fiscal year apportionments within the plan.
- I. **New Project** is a project that is not programmed in the current TIP/STIP, and does not have previous obligations from a prior TIP/STIP.
- J. **Obligated projects**¹ mean strategies and projects funded under Title 23 U.S.C. and Title 49 U.S.C. Chapter 53 for which the supporting federal funds were authorized and committed by the State or designated recipient in the preceding program year and authorized by the FHWA or awarded as a grant by the FTA.
- K. **Planning Partner** may refer to one of the following: ALDOT, FHWA, MPOs, RPOs, or other federal or state agencies.
- L. **Project Selection** means the procedures followed by MPOs, States, and public transportation operators to advance projects from the first four years of an approved TIP and/or STIP to implementation, in accordance with agreed upon procedures.
- M. **Public Participation Plan (PPP)** is a documented, broad-based public involvement process that describes how the Planning Partner will involve and engage the public, under-served communities, and interested parties in the

transportation planning process, and ensure that the concerns of stakeholders are identified and addressed in the development of transportation plans and programs.

- o Note: The Alabama MPO Public Participation Plans may be found on the individual MPO websites.

- N. **Revision¹** means a change to a long-range statewide or metropolitan transportation plan, TIP, or STIP that occurs between scheduled periodic updates. A major revision is an "amendment" while a minor revision is an "administrative modification."
- O. **Statewide-managed Program (Statewide Program)** includes those transportation improvements or projects that are managed in the STIP, including project selection, at the ALDOT Central Office level, with possible regional Planning Partner solicitation and input. Examples include, but are not limited to, Highway Safety Improvement Program (HSIP) and Transportation Alternative Program (TAP) projects.
- P. **Statewide Transportation Improvement Program (STIP)¹** means a statewide prioritized listing/program of transportation projects covering a period of four years that is consistent with the long-range statewide transportation plan, metropolitan transportation plans, and TIPs, and required for projects to be eligible for funding under Title 23 U.S.C. and Title 49 U.S.C. Chapter 53.
- Q. **Transportation Improvement Program (TIP)¹** means a prioritized listing/program of transportation projects covering a period of four years that is developed and formally adopted by an MPO as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under Title 23 U.S.C. and Title 49 U.S.C.

III. THE TRANSPORTATION IMPROVEMENT PROGRAM (TIP), THE STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM (STIP), AND THE STATE'S FIVE-YEAR PROGRAM

The TIP consists of projects approved by the MPO, local programs and projects developed by the MPO, and statewide programs and projects developed by ALDOT within the urban areas of the MPO.

The STIP is the official transportation improvement program document, mandated by federal statute and recognized by FHWA and FTA. The STIP is a statewide program, or prioritized listing, of transportation projects to be implemented over a four-year period, consistent with MPO Long Range, Regional, or Metropolitan Plans, Statewide Transportation Plans, and MPO Transportation Improvement Programs (TIPs).

The State's Five-Year Program, which incorporates the TIPs and STIP, is required by Alabama state law.

IV. TIP/STIP ADMINISTRATION

The Federal Planning Regulations, contained in 23 CFR 450 et al, govern the provisions of the Statewide and Nonmetropolitan Transportation Planning and Programming (subpart B) and Metropolitan Transportation Planning and Programming (subpart C). These CFR sections are the regulations for governing the TIPs and STIP, including revisions and other actions related to the TIPs and STIP. The intent of this federal regulation is to acknowledge the relative significance, importance, and/or complexity, of individual programming actions.

FHWA and FTA will only authorize projects, and approve grants for projects, that are programmed in the currently approved STIP. Highway and road projects will be approved by FHWA, and Transit projects will be approved by FTA.

If a Planning Partner, Transit Agency, or ALDOT, wishes to proceed with a project not programmed in the STIP, a revision must be made to the STIP.

All revisions must maintain year-to-year fiscal constraint [23 CFR 450.328] for each of the four years of the TIPs and STIP. All revisions shall account for year of expenditure (YOE), and maintain the estimated total cost of the project, which may extend beyond the four years of the TIP/STIP. The arbitrary reduction of the overall cost of a project, or project phase(s), shall not be utilized for the advancement of another project.

A. TIP support documentation

In addition, TIP revisions must be consistent with the Long-Range Transportation Plan of the individual MPO and must correspond to the adopted provisions of the MPO Public Participation Plans. A reasonable opportunity for public review and comment shall be provided for significant revisions to the TIPs and STIP.

B. Air Quality Conformity

If a revision adds a project, deletes a project, or impacts the schedule or scope of work of an air quality significant project in a nonattainment or maintenance area, a new air quality conformity determination will be required, if deemed appropriate by the Interagency Air Quality Consultation Group (IAC). If a new conformity determination is necessary, an amendment to the Long Range or Regional Transportation Plan (project listings only), shall be developed and approved by the MPO. The modified conformity determination would then be based on the amended LRTP conformity analysis, and public involvement procedures, consistent with the existing PPP, would be required.

C. Revisions: Amendments and Administrative Modification²

An **Amendment** is a major STIP/TIP planned project revision that:

- Affects air quality conformity, regardless of the cost of the project or the funding source.

² Note: This MOU does NOT change the Codes of Federal Regulations. This MOU clarifies the understanding of the language within those regulations between the agreeing parties. For full application of the CFRs, visit definitions for Amendment, Administrative Modification, and Revision on p. 1. Revisions are not applicable to authorized project scopes.

- Adds a new project, or deletes a project, that utilizes federal funds from a statewide line item, exceeds the thresholds listed below, and excludes those federally-funded statewide program projects.
- Adds a new project phase(s), or increases a current project phase, or deletes a project phase(s), or decreases a current project phase that utilizes federal funds, where the revision exceeds the following thresholds:
 - \$ 5.0 million for ALDOT federally-funded projects and Transportation Management Area (TMA) attributable projects.
 - \$1.0 million for ALDOT federally-funded projects and for non-TMA MPOs attributable Projects.
 - \$ 750,000 for the county highway and bridge program.
- Involves a change in the **Scope of Work** to a project(s) that would:
 - Result in an air quality conformity reevaluation.
 - Result in a revised total project estimate that exceeds the thresholds established between ALDOT and the Planning Partner (not to exceed any federally-funded threshold contained in this MOU).
 - Results in a change in the Scope of Work on any federally-funded project that is significant enough to essentially constitute a New Project.
 - Level of Effort (LVOE) planned budget changes, exceeding 20% of the original budgeted amount.

MPOs use the MPO Portal to initiate projects, make project edits, and other project information. The MPO Portal is managed by Local Transportation Bureau. The system generates email notification to the MPOs, and specific ALDOT Personnel of projects that may need to be added by amendment or administrative modifications. Approval by the MPO (or cooperative effort with an RPO) is required for Amendments.

All items requiring amendments to the STIP should be submitted to the ALDOT's Office Engineer Bureau. ALDOT's Central Office will review, approve, and forward to the appropriate federal agency for review and approval, with copies to other partner federal agencies.

Amendments to the STIP will be conducted on a Bimonthly cycle. Non-routine amendments requested by the State Transportation Director, or the Joint Highway committee can be performed at any time.

An **Administrative Modification** is a minor STIP/TIP revision that:

- Adds or deletes a project from a LVOE category or line item
- Adds or deletes a project utilizing 100 percent State or Non-Federal Funding that has not been designated as a regionally significant project by Local Planning partners or an MPO TIP placement of the federally-funded Statewide Program, or federal funds from a statewide line item that do not exceed the thresholds established by the Planning Partner
- Draw downs or return funding from an existing STIP/TIP Reserve Line Item and does not exceed the amendment cost thresholds established between ALDOT and the Planning Partners.
- Adds federal or state capital funds from low-bid savings, de-obligations, release of encumbrances, from savings on programmed phases, and any other project-cost

modification sent to and approved by FHWA or FTA, to another programmed project phase or line item.

The initial submission and approval process of the STIP will establish federal funding for LVOE project groups. Subsequent placement of individual projects in the STIP that are referred to as LVOE projects will be considered Administrative Modifications.

Administrative Modifications (1) do not affect air quality conformity or involve a significant change in a project scope of work that would trigger an air quality conformity reevaluation; (2) do not exceed the threshold (a) established in the MOU between ALDOT and the Planning Partners or (b) established by this MOU (as detailed in the Revisions: Amendments and Administrative Modifications section); and (3) do not result in a change in scope on any federally-funded project that is significant enough to essentially constitute a new project.

Administrative Modifications do not require federal approval. ALDOT and the Planning Partner will work cooperatively to address and respond to any FHWA or FTA comments. FHWA and FTA reserve the right to question any administrative action that is not consistent with federal regulations or with this MOU where federal funds are being utilized.

V. LEVEL OF EFFORT FUNDING CATEGORIES

Projects in the STIP/TIP, referred to as Level of Effort (LVOE) projects, represent grouped projects not considered of appropriate scale to be identified individually. Projects may be grouped by function, work type, and/or geographical area, using the applicable descriptions under 23 CFR 771.117 (c) and (d), and/or 40 CFR part 93 (Environmental Categorical Exclusions). In nonattainment and maintenance areas, project descriptions must be consistent with the exempt project descriptions contained in the EPA transportation conformity regulations (40 CFR part 93).

LVOE projects are placed in the STIP/TIP according to selected funding programs, along with the planned funding amounts for each year.

ALDOT, and the affected MPOs, will be required to make a formal amendment to the STIP/TIPs for any adjustment of funding to any **LVOE group** that exceeds 20% of its originally-planned funding. The selected statewide funding programs include:

- Interstate Resurfacing Program (IM) (includes lighting, sign and pavement rehabilitation)
- Non-Interstate Resurfacing Program (FM)
- Transportation Alternative Program (TAP)
- Safety Projects (Highway Safety Improvement Program (HSIP), roadway, signal and rail-crossing, etc.)
- Recreational Trails (Funds are transferred to Alabama Department of Economic and Community Affairs (ADECA))
- Electric Vehicles (Funds are transferred to ADECA)
- County Allocation Funds (Off-system bridges and STP non-urban) (Only until prior year carryover is fully obligated)
- Federal Transit Programs: 5311 (Non-Urban), 5310 (Elderly and Disabilities), and 5339 (Buses and Bus Facilities)

Addition or deletion of individual LVOE projects are considered an administrative modification, and do not require any further MPO action prior to authorization, subject to the dollar thresholds established in the sections above. ALDOT will include all individual LVOE projects on the STIP project detail listing and will also maintain a matrix listing, on the STIP website, of LVOE projects. The MPOs will be notified as soon as any specific projects within their urban areas, are identified and selected, and will have ten (10) days to decline the project. Additionally, the MPOs will be notified as soon as any specific projects are modified or deleted within their urban areas and will have ten (10) days to decline the project deletion or change.

LVOE group may hold funds that are not dedicated to specific projects, and the funds may be used to cover cost increases or add new projects or project phases. LVOE shall not exceed the thresholds or the requirements of any other items that require an amendment.

LVOE resurfacing group shall be programmed annually. Projects or project lists will be added as soon as available, and MPOs will be notified of all changes that occur in the list.

VI. FINANCIAL CONSTRAINTS³

Demonstration of STIP/TIP financial constraint to FHWA and FTA, takes place through a summary of recent Administrative Modifications and proposed Amendments. Real-time versions of the STIP/TIP are available to FHWA and FTA through ALDOT's Comprehensive Project Management System (CPMS/MPO Portal).⁴

VII. FINANCIAL REPORTING

A. STIP Reporting

STIP is available online and electronic submittals to FHWA for amendments and administrative modifications. End of the Fiscal Year financial summaries are sent with the first amendment for the new fiscal year.

B. MPO TIP REPORTING

As each MPO TIP is adopted, this MOU will be included with the TIP documentation. The MPO or Planning Partner may choose to adopt an MOU that will clarify how the MPO or Planning Partner will address TIP revisions. In all cases, individual MPO revision procedures will be developed under the guidance umbrella of this document. If an MPO elects to set more stringent procedures, then ALDOT, FHWA, and/or FTA, as applicable, will adhere to the more restrictive procedures.

³ Note: While there is no stipulated timeframe established in this MOU for securing federal approval for formal Amendments or Administrative Modification, the agencies are expected to act responsibly and with all due diligence in order to complete these processes in a timely manner.

⁴ Refer to ALDOT's Local Transportation Bureau's Memo #2022-15 (November 22, 2022) for details of the MPOs' Transportation Improvement Programs (TIPs).

VIII. PERFORMANCE MEASURES SECTION

To comply with performance-based planning requirements, a description of how the selected projects will help to accomplish its performance targets/goals will be included. This SITP Performance Measure section will be included at the time of adoption of the new STIP/TIPs but it may be updated at any time.

In general, STIP Performance Measure Section should include (1) the applicable transportation measure, (2) a brief discussion of anticipated effect of how projects selected will help ALDOT accomplish the goals, and (3) a summary of the amount of federal funding programmed to support the applicable target will be included in the STIP.

The procedures set forth in this document will serve as the basis for which ALDOT addresses federally funded Statewide Transportation Improvement Program (STIP) revisions. This Memorandum of Understanding (MOU) will begin October 1, 2023, and remain in effect until September 30, 2027, unless revised or terminated.

We, the undersigned, hereby agree to the above procedures and principles.

JOINT AGREEMENT

BETWEEN

THE FLORIDA-ALABAMA TPO,

THE BALDWIN REGIONAL AREA TRANSIT SYSTEM,

AND THE

STATE OF ALABAMA

RELATIVE TO

ALABAMA PERFORMANCE MANAGEMENT

23 CFR 450.314(h)

FOR

TRANSPORTATION PERFORMANCE DATA SHARING AND

COORDINATION

ALABAMA PERFORMANCE MANAGEMENT AGREEMENT 23 CFR 450.314(h)

THIS AGREEMENT is made and entered into by and between the State of Alabama, acting by and through the Alabama Department of Transportation, hereinafter referred to as STATE; and the FLORIDA-ALABAMA TPO, hereinafter referred to as MPO, and the BALDWIN REGIONAL AREA TRANSIT SYSTEM, hereinafter referred to as TRANSIT AGENCY;

WHEREAS, the United States Department of Transportation promulgated transportation planning regulations in 23 CFR 450.314, and

WHEREAS, the MPO, the STATE, and the TRANSIT AGENCY are required by 23 CFR 450.314 to cooperatively determine their mutual responsibilities in carrying out the performance-based planning and programming requirements established by federal law, and

WHEREAS, 23 CFR 450.314(h) requires that MPO, the STATE, and the TRANSIT AGENCY shall jointly agree upon and develop specific written procedures for cooperatively developing and sharing information related to transportation performance data, the selection of performance targets, the reporting of performance targets, the reporting of performance to be used in tracking progress toward attainment of critical outcomes for the region of the MPO, and the collection of data for the State asset management plan for the National Highway System (NHS).

NOW, THEREFORE, BE IT RESOLVED, that the parties do hereby agree to adhere to the following coordination mechanisms to meet performance-based planning and programming requirements for highways in accordance with 23 CFR 450.314(h) and established federal guidance.

1. Development of transportation performance data:
 - a. The STATE will collect data used in developing statewide targets to meet the federal performance management requirements for highways¹ to include the following:
 - i. Targets for assessing the **Highway Safety Improvement Program (PM1)** for the following measures²:
 1. Number of fatalities
 2. Rate of fatalities per 100 million Vehicle Miles Traveled (VMT)
 3. Number of serious injuries
 4. Rate of serious injuries per 100 million VMT
 5. Number of combined non-motorized fatalities and non-motorized serious injuries
 - ii. Targets for assessing **Pavement and Bridge Condition for the National Highway Performance Program (PM2)** for the following measures:
 1. Percentage of pavements on the Interstate System in Good condition
 2. Percentage of pavements on the Interstate System in Poor condition
 3. Percentage of pavements on the NHS (excluding the Interstate System) in Good condition
 4. Percentage of pavements on the NHS (excluding the Interstate System) in Poor condition
 5. Percentage of NHS bridge deck area classified in Good condition
 6. Percentage of NHS bridge deck area classified in Poor condition

¹ 23 CFR Part 490, National Performance Management Measures

² PM1/Safety performance measures and targets are applicable to all public roads regardless of ownership or functional classification; 23 CFR Part 924

- iii. Targets for assessing performance of the **National Highway System, Freight Movement on the Interstate System and Congestion Mitigation and Air Quality Improvement Program (PM3)** for the following performance measures:
 1. Percent of Person-Miles traveled on the Interstate System that are Reliable
 2. Percent of Person-Miles traveled in the Non-Interstate System that are Reliable
 3. Percentage of the Interstate System Mileage providing Reliable Truck Travel Times
 4. Annual hours of Peak-Hour Excessive Delay Per Capita
 5. Percent of Non-Single-Occupant-Vehicle (SOV) Travel
 6. Total Emissions Reduction
- iv. Targets for assessing performance of the **Transit Asset Management (TAM) Plan** for the following performance measures³:
 1. Asset Category: Rolling Stock (All revenue vehicles)
 - a. Age- % of revenue vehicles within an asset class that have met or exceed their Useful Life Benchmark
 2. Asset Category: Equipment (Non-revenue vehicles)
 - a. Age- % of revenue vehicles within an asset class that have met or exceed their Useful Life Benchmark
 3. Asset Category: Facilities (the STATE will only rate FTA funded facilities)
 - a. Condition- % of facilities with a condition rating below 3.0 on a FTA Transit Economic Requirement Modal (TERM) Scale
 4. The TAM final rule requires that all TRANSIT AGENCIES that are recipients and sub recipients of 49 USC Charter 53 funds to develop a TAM Plan.
 5. TRANSIT AGENCIES that are a part of the Group (Statewide) TAM Plan will provide transit data by asset class (both revenue and non-revenue) and facilities conditions on an annual basis to the STATE.
 6. TRANSIT AGENCIES and MPOs developing their own TAM plan will provide their targets and the final report to the STATE.
 7. The STATE and the MPO are required to integrate the TRANSIT AGENCY performance targets into the planning documents including Statewide Transportation Improvement Plan (STIP) and Transportation Improvement Plan (TIP), respectively, and the Statewide Long Range Plan (LRP) and Metropolitan Transportation Plan (MTP).
- v. Targets for assessing performance of the **Public Transportation Agency Safety Plan (PTASP)** for the following performance measures (applicable to demand response/fixed route services)⁴:
 1. Fatality by Mode
 - a. Fatality Total
 - b. Rate of Fatalities (per vehicle revenue mile)
 2. Injuries by Mode
 - a. Injuries Total
 - b. Rate of Injuries (per vehicle revenue mile)
 3. Safety Events by Mode
 - a. Safety Event Total
 - b. Rate of Safety Events (per vehicle revenue mile)
 4. System Reliability by Mode
 - a. Miles between major mechanical failures
 5. The PTASP final rule requires that TRANSIT AGENCIES that are recipients and sub recipients of Urbanized Area Formula Grant Program under 49 USC 5307 develop safety performance targets within their Agency Safety Plan (ASP). Each TRANSIT AGENCY must provide the STATE and its respective MPOs its safety performance targets to assist the STATE and MPOs with capital program planning process.

³ 49 CFR 625 and 630

⁴ 49 CFR Part 673

6. STATE and MPOs are required to integrate the TRANSIT AGENCY performance targets into the planning documents including Statewide Transportation Improvement Plan (STIP) and Transportation Improvement Plan (TIP), respectively, and the Statewide Long Range Plan (LRP) and Metropolitan Transportation Plan (MTP).
- b. Those MPOs that are currently designated as being in non-attainment or maintenance for air quality⁵ will coordinate with the STATE on the collection and provision of data used in developing targets for the Congestion Mitigation and Air Quality (CMAQ) traffic congestion measures (Annual Hours of Peak-Hour Excessive Delay per capita and Percent Non-SOV Travel) and the Total Emission Reduction Measures.
- c. The STATE will make available, by request, the transportation performance data used in developing statewide highway and transit targets to the MPO and the TRANSIT AGENCY.
 - i. The STATE will make available the transportation performance data to the MPO and the TRANSIT AGENCY, by request only, when a statewide target is established or revised, per Section 2 of this agreement.
 - ii. Where possible and practicable, the STATE will make available performance data for each MPO planning area for purposes of tracking progress towards attainment of performance outcomes for each MPO Region's required System Performance Reports, per Section 4 of this agreement.
 - iii. Notwithstanding any provision of this Agreement to the contrary, the parties agree that any safety data or information protected by 23 U.S.C. §§ 148 (h)(4) and 409 and State law shall be confidential. The parties agree that all crash and traffic data used by the parties for or in transportation improvement plans, highway safety improvement programs and strategic highway safety plans will not be disclosed to third parties without the express written permission of the STATE. The parties agree that the data shall not be referenced, disclosed, discussed or otherwise made public. The provision of the above data by the STATE shall not be considered a waiver of 23 U.S.C. §§ 148 (h)(4) and 409 or State precedent. Upon execution of this Agreement, the parties and their agents, servants, officers, officials and employees in both their official and individual capacities, agree that the data provided pursuant to the above referenced request shall not be discussed, disclosed, used, published or released without prior written consent of the STATE. If the data in any form should be disclosed, released or published in any manner without the consent of the STATE or should an attempt be made to use the data in an action for damages against the parties, their officials or employees, then access to the data shall terminate immediately. The STATE expressly reserves its right under 23 U.S.C. §§ 148 (h)(4) and 409 and State precedent to object to the use of the data and any opinions drawn from the data and to recover damages caused by the improper and unauthorized release of the data.
 - iv. The MPO and the TRANSIT AGENCY shall defend, indemnify and hold harmless the STATE of Alabama, the Alabama Department of Transportation, its officials and employees, both in their official and individual capacities, and their agents and servants from and against all claims, damages, losses or expenses thereof, including but not limited to reasonable attorneys' fees, arising out of or resulting from faults, errors, mistakes, omissions, misconduct or negligent acts or omissions of the MPO or the TRANSIT AGENCY, its subconsultants, agents, or employees caused as a result of or related to the service or work provided under this AGREEMENT. The MPO and the TRANSIT AGENCY shall ensure that its subconsultants, agents, or employees possess the experience, knowledge and character necessary to qualify them to perform the particular duties assigned by The MPO and the TRANSIT AGENCY. This indemnity is not limited by any insurance coverage required by this AGREEMENT.

⁵ As determined through annual Applicability Determination: CMAQ Traffic Congestion and CMAP On-Road Mobile Source Emissions Measures, 23 CFR Part 490

- v. By entering into this agreement, the MPO and the TRANSIT AGENCY are not an agent of the STATE, its officers, employees, agents or assigns. The MPO and TRANSIT AGENCY are independent entities from the STATE and nothing in this agreement creates an agency relationship between the parties.
 - d. If the MPO and/or the TRANSIT AGENCY chooses to develop its own target for any highway and/or transit measure, it will collect and provide the STATE with the performance target(s) and any supplemental data used in association with the MPO or TRANSIT AGENCY target setting process.
2. Selection of transportation performance targets
- a. The STATE, the MPO and the TRANSIT AGENCY will establish or revise performance targets in coordination with each other.
 - i. Coordination may include the following opportunities, as deemed appropriate, for each performance measure and target: in-person, meeting, webinars, conference calls, and email/written communication. All parties agree that email communications shall be considered written notice for all portions of this agreement.
 - ii. The MPO and the TRANSIT AGENCY will be given an opportunity to provide comment on the STATE targets no less than 30-days prior to the STATE's establishment or revision of highway and/or transit targets.
 - iii. If an MPO and/or the TRANSIT AGENCY chooses to set its own target, the MPO and/or the TRANSIT AGENCY will develop the target(s) in coordination with the STATE. The MPO and/or the TRANSIT AGENCY will provide the STATE with the opportunity to comment on performance targets no less than 30-days prior to adoption of targets.
 - b. The STATE will select statewide performance targets to meet the federal performance management requirements for highways and transit.
 - i. The STATE will provide written notice to the MPO and TRANSIT AGENCY when the STATE selects a target. This notice will provide the target and the date the STATE set the target, which will begin the 180-day time-period in which the MPO and /or the TRANSIT AGENCY (as applicable) must set a corresponding performance target.
 - ii. If the MPO and/or the TRANSIT AGENCY (as applicable) chooses to support the statewide target, the MPO and the TRANSIT AGENCY will provide written documentation to STATE that the MPO and the TRANSIT AGENCY agrees to plan and program projects that will contribute toward the achievement of the statewide highway performance target.
 - iii. If the MPO or the TRANSIT AGENCY chooses to set its own target, the MPO or TRANSIT AGENCY will provide the STATE written documentation that includes the target and the date the MPO or the TRANSIT AGENCY plans to adopt. Documentation will be provided no less than 30-days prior to the MPO or the TRANSIT AGENCY adoption of target (consistent with Section 2a).
 - c. Those MPOs currently in non-attainment or maintenance for air quality⁴ and the STATE will coordinate to select single, unified targets for the CMAQ traffic congestion measures (Annual Hours of Peak-Hour Excessive Delay Per Capita and Percent of Non-SOV Travel) and to select mobile source emission reduction targets for their respective non- attainment areas of ozone.
3. Reporting of performance targets
- a. The STATE will report all performance targets to the Federal Highway Administration (FHWA) as applicable and in accordance with 23 CFR Part 490 and Federal Transit Administration

(FTA) as applicable and in accordance with 49 CFR Part 625. Where possible and practicable, the STATE will provide information to the MPOs and TRANSIT AGENCY on the performance of targets.

- i. Through the Highway Safety Improvement Program Annual Report for PM1 measures.
 - ii. Through the required Baseline, Mid and Full Performance Reports and the Transportation Asset Management Plan (TAMP) for PM2 measures.
 - iii. Through the required Baseline, Mid and Full Performance Period Reports for PM3 measures, to include CMAQ Performance Plans where applicable.
 - iv. Through TRANSIT AGENCY's self-certification process, National Transit Database (NTD) annual submissions, and FTA's Review Process for the TAM and PTASP.
 - b. The STATE will include a description of performance measures and performance targets, along with a System Performance Report, in accordance with 23 CFR 450.216(f) in any statewide transportation plan amended or adopted after May 27, 2018, and in accordance with 23 CFR 450.218(q) in any State Transportation Improvement Program adopted or amended after May 27, 2018.
4. Reporting of performance to be used in tracking progress toward attainment of critical outcomes for the region of the MPO.
- a. The MPO will include a description of performance measures and performance targets, along with a System Performance Report, in accordance with 23 CFR 450.324(f) (3-4) in any Metropolitan Transportation Plan amended or adopted after May 27, 2018, and in accordance with 23 CFR 450.326(d) in any Transportation Improvement Program amended or adopted after May 27, 2018, for PM1 measures.
 - b. The MPO will include a description of performance measures and performance targets, along with a System Performance Report, in accordance with 23 CFR 450.324(f)(3-4) in any Metropolitan Transportation Plan amended or adopted after May 20, 2019, and in accordance with 23 CFR 450.326(d) in any Transportation Improvement Program amended or adopted after May 20, 2019, for PM2 and PM3 measures.
 - c. The MPO will include a description of performance measures and performance targets, along with a System Performance Report, in accordance with 23 CFR 450.324(f)(3-4) in any Metropolitan Transportation Plan amended or adopted after , and in accordance with 23 CFR 450.326(d) in any Transportation Improvement Program amended or adopted after October 1, 2018, for TAM.
 - d. The MPO will include a description of performance measures and performance targets, along with a System Performance Report, in accordance with 23 CFR 450.324(f)(3-4) in any Metropolitan Transportation Plan amended or adopted after July 20, 2021, for PTASP.
5. A collection of data for the State Asset Management plans for the NHS:
- a. The STATE will be responsible for collecting pavement condition data for the NHS. This includes NHS roads that are not on the State Highway System, but instead are under the ownership of local jurisdictions, if such roads exist.
6. This agreement will be periodically review and will be updated and/or terminate as to the applicable federal law.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement by those officers and officials duly authorized to execute same, and to be effective on the date hereinafter stated as the date of its approval by the Governor of Alabama.

STATE OF ALABAMA, ACTING BY
AND THROUGH THE ALABAMA
DEPARTMENT OF TRANSPORTATION

John R. Cooper
Transportation Director

The foregoing Agreement is hereby
executed in the name of the
State of Alabama and signed
By the Governor on the 27th day of
December, 20 21.

Kay Ivey
Governor, State of Alabama

RESOLUTION FL-AL 21-25

A RESOLUTION OF THE FLORIDA-ALABAMA TRANSPORTATION PLANNING ORGANIZATION AUTHORIZING THE CHAIRMAN TO SIGN ALABAMA DEPARTMENT OF TRANSPORTATION'S PERFORMANCE MEASURES AGREEMENT

WHEREAS, the Florida-Alabama Transportation Planning Organization (TPO) is the organization designated by the governors of Florida and Alabama as being responsible, together with the states of Florida and Alabama, for carrying out the continuing, cooperative and comprehensive transportation planning process for the Florida-Alabama TPO Planning Area; and

WHEREAS, Federal Highway Administration (FHWA) issued a final rule based on section 1203 of the Moving Ahead for Progress in the 21st Century (MAP-21) and with considerations to provisions in the Fixing America's Surface Transportation (FAST) Act, which established five safety performance measures; and

WHEREAS, the Florida Department of Transportation (FDOT) has a Consensus Planning Document Agreement which was approved by the TPO on July 8, 2020; and

WHEREAS, the Alabama Department of Transportation (ALDOT) has developed an updated Performance Measures Agreement for each TPO to sign indicating they understand what is required for TPO compliance with performance measures for the Transportation Improvement Program and the Long Range Transportation Plan; and

WHEREAS, ALDOT's original performance measures agreement was approved by the TPO on June 13, 2018;

NOW, THEREFORE, BE IT RESOLVED BY THE FLORIDA-ALABAMA TRANSPORTATION PLANNING ORGANIZATION THAT:

The Florida-Alabama TPO authorizes the TPO chairman to sign the Alabama Department of Transportation's updated Performance Measures Agreement for Transportation Planning Organizations.

Passed and duly adopted by the Florida-Alabama Transportation Planning Organization on this 13th day of October 2021.

EXHIBIT A

PARTICIPATION BY DISADVANTAGED BUSINESS ENTERPRISES IN FEDERAL-AID PROGRAM

Policy. It is the policy of the U.S. Department of Transportation that Disadvantaged Business Enterprises (DBE) as defined in 49 CFR Part 26 shall have the opportunity to participate in the performance of contracts financed in whole or in part with Federal funds under this AGREEMENT. Consequently, the DBE requirements of 49 CFR Part 26 apply to this AGREEMENT.

DBE Obligation. The recipient of funds under the terms of this AGREEMENT agrees to ensure that Disadvantaged Business Enterprises as defined in 49 CFR Part 26 have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with Federal funds provided under this agreement. The recipient shall take all necessary and reasonable steps in accordance with 49 CFR Part 26 to see that Disadvantaged Business Enterprises have the opportunity to compete for and perform contracts and shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of U.S. Department of Transportation assisted contracts.

Failure of the recipient of funds under the terms of this AGREEMENT, or failure of its subcontractor (if a subcontractor is authorized) to carry out the DBE requirements of this AGREEMENT shall constitute a breach of contract, and may result in termination of the contract by the STATE, or such other remedy may be undertaken by the STATE as it deems appropriate.

EXHIBIT E

TERMINATION OR ABANDONMENT

- a. The STATE has the right to abandon the work or to amend its project at any time, and such action on its part shall in no event be deemed a breach of contract.
- b. The STATE has the right to terminate this AGREEMENT at its sole discretion without cause and make settlement with the CITY upon an equitable basis. The value of the work performed by the CITY prior to the termination of this AGREEMENT shall be determined. In determining the value of the work performed, the STATE shall consider the following:
 1. The ratio of the amount of work performed by the CITY prior to the termination of the AGREEMENT to the total amount of work contemplated by this AGREEMENT less any payments previously made.
 2. The amount of the expense to which the CITY is put in performing the work to be terminated in proportion to the amount of expense to which the CITY would have been put had he been allowed to complete the total work contemplated by the AGREEMENT, less any payments previously made. In determining the value of the work performed by the CITY prior to the termination, no consideration will be given to profit, which the CITY might have made on the uncompleted portion of the work. If the termination is brought about as a result of unsatisfactory performance on the part of the CITY, the value of the work performed by the CITY prior to termination shall be fixed solely on the ratio of the amount of such work to the total amount of work contemplated by this AGREEMENT.

CONTROVERSY

In any controversy concerning contract terms, or on a question of fact in connection with the work covered by this project, including compensation for such work, the decision of the Transportation Director regarding the matter in issue or dispute shall be final and conclusive of all parties.

CONTRACT BINDING ON SUCCESSORS AND ASSIGNS

- a. This contract shall be binding upon the successors and assigns of the respective parties hereto.
- b. Should the AGREEMENT be terminated due to default by CITY, such termination shall be in accordance with applicable Federal Acquisition Regulations.

EXHIBIT H

Page 1

EQUAL RIGHTS PROVISIONS

During the performance of this contract, the CITY for itself, its assignees and successors in interest agrees as follows:

a. **Compliance with Regulations**

The CITY will comply with the Regulations of the Department of Transportation relative to nondiscrimination in federally-assigned programs of the Department of Transportation (Title 49, Code of Federal Regulations, Part 21, as amended by 23 CFR 710-405(b), hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this contract.

During the performance of this contract, the contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

Pertinent Non-Discrimination Authorities:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d *et seq.*, 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21.
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 *et seq.*), (prohibits discrimination on the basis of sex);
- Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 *et seq.*), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27;
- The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 *et seq.*), (prohibits discrimination on the basis of age);
- Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);
- The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131-12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38;

EXHIBIT H

Page 2

- The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);
- Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
- Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

b. **Nondiscrimination**

In accordance with Title VI of the Civil Rights Act, as amended, 42 U.S.C. § 2000d, Section 303 of the Age Discrimination Act of 1975, as amended, 42 U.S.C. § 6102, Section 202 of the Americans with Disabilities Act of 1990, 42 U.S.C. § 12132, and Federal transit law at 49 U.S.C. § 5332, the CITY agrees that it will not discriminate against any employee or applicant for employment because of race, color, creed, national origin, sex, age, or disability. The CITY will not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices where the contract covers a program set forth in Appendix B of the Regulations.

The CITY will comply with all provisions of Executive Order 11246 of September 24, 1965 as amended by Executive Order 11375, and of the rules, regulations (41 CFR, Part 60) and relevant orders of the Secretary of Labor.

c. **Solicitations**

In all solicitations either by competitive bidding or negotiation made by the CITY for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor, supplier or lessor shall be notified by the CITY of the CITY'S obligation under this contract and the Regulations relative to nondiscrimination on the ground of race, color, religion, sex or national origin.

d. **Information and Reports**

The CITY will provide all information and reports required by the Regulations, or orders and instructions issued pursuant thereto, and will permit access to its books,

EXHIBIT H

Page 3

records, accounts, other sources of information and its facilities as may be determined by the STATE or the Federal Highway Administration to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of a CITY is in the exclusive possession of another who fails or refuses to furnish this information, the CITY shall so certify to the STATE, or the Federal Highway Administration as appropriate, and shall set forth what efforts it has made to obtain the information.

e. **Sanctions for Noncompliance**

In the event of the CITY'S noncompliance with the nondiscrimination provisions provided for herein, the STATE shall impose such contract sanctions as it may determine to be appropriate, including but not limited to,

1. withholding of payments to the CITY under contract until the CITY complies, and/or
2. cancellation, termination or suspension of the contract, in whole or in part.

f. **Incorporation of Provisions**

The CITY will include the foregoing provisions a. through f. in every subcontract, including procurements of materials and leases of equipment, unless excepted by the Regulations, orders or instructions issued pursuant thereto. The CITY will take such action with respect to any subcontract, procurement, or lease as the STATE may direct as a means of enforcing such provisions, including sanctions for noncompliance; provided, however, that in the event a CITY becomes involved in, or is threatened with, litigation with subcontractors, suppliers, or lessor as a result of such direction, the CITY may request the STATE to enter into such litigation to protect the interest of the STATE.

g. **Equal Employment Opportunity** – The following equal employment opportunity requirements apply to the underlying contract:

1. **Race, Color, Creed, National Origin, Sex** – In accordance with Title VII of the Civil Rights Act, as amended, 42 U.S.C. § 2000e, and Federal Transit laws at 49 U.S.C. § 5332, the CITY agrees to comply with all applicable equal employment requirements of U.S. Department of Labor (U.S. DOL) regulations, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," 41 C.F.R. Parts 60 et seq., (which implement Executive Order No. 11246, "Equal Employment Opportunity," as amended by Executive Order No. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," 42 U.S.C. § 2000e note), and with any applicable Federal statutes, executive orders, regulations, and Federal policies that may in the future affect construction activities undertaken in the course of the Project.

EXHIBIT H
Page 4

The CITY agrees to take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, creed, national origin, sex, or age. Such action shall include, but not limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. In addition, the CITY agrees to comply with any implementing requirements FTA may issue.

2. Age – In accordance with Section 4 of the Age Discrimination in Employment Act of 1967, as amended, 29 U.S.C. § 623 and Federal transit law at 49 U.S.C. § 5332, the CITY agrees to refrain from discrimination against present and prospective employees for reason of age. In addition, the CITY agrees to comply with any implementing requirements FTA may issue.
3. Disabilities – In accordance with Section 102 of the Americans with Disabilities Act, as amended, 42 U.S.C. § 12112, the CITY agrees that it will comply with the requirements of U.S. Equal Employment Opportunity Commission, “Regulations to Implement the Equal Employment Provisions of the Americans with Disabilities Act,” 29 C.F.R. Part 1630, pertaining to employment of persons with disabilities. In addition, the Contractor agrees to comply with any implementing requirements FTA may issue.

COST PRINCIPLES

The STATE'S cost principles for use in determining the allowability of any item of cost, both direct and indirect, in this AGREEMENT, shall be the applicable provisions of Volume I, Federal Acquisition Regulations, Parts 30 and 31. The CITY shall maintain costs and supporting documentation in accordance with the Federal Acquisition Regulations, Parts 30 and 31 and other Regulations referenced with these Parts where applicable. The CITY shall gain an understanding of these documents and regulations. The applicable provisions of the above referenced regulations documents are hereby incorporated by reference herein as if fully set forth.

EXECUTORY CLAUSE AND NON-MERIT SYSTEM STATUS

- a. The CITY specifically agrees that this AGREEMENT shall be deemed executory only to the extent of moneys available, and no liability shall be incurred by the STATE beyond the moneys available for this purpose.

EXHIBIT H**Page 5**

- b. The CITY, in accordance with the status of CITY as an independent contractor, covenants and agrees that the conduct of CITY will be consistent with such status, that CITY will neither hold CITY out as, or claim to be, an officer or employee of the STATE by reason hereof, and that CITY will not, by reason hereof, make any claim, demand or application to or for any right or privilege applicable to an officer or employee of the STATE under the merit system or any other law of Alabama, including but not limited to workmen's compensation coverage, or retirement membership or credit or any Federal employment law. This paragraph also applies in like manner to the employees of CITY.

CITYS' CERTIFICATIONS

The CITY by acceptance of this contract certifies that the rates or composition of cost noted in Article IV - PAYMENTS are based on the current actual hourly rates paid to employees, estimated non- salary direct cost based on historical prices, the latest available audited indirect cost rate, and estimated cost of reimbursements to employees for travel (mileage, per diem, and meal allowance) based on the current policy of the CITY. The CITY agrees that mileage reimbursements for use of company vehicles is based on the lesser of the approved rate allowed by the General Services Administration of the United States Government or the reimbursement policies of the CITY at the time of execution of the AGREEMENT. The CITY agrees that no mileage reimbursement will be allowed for the purpose of commuting to and from work or for personal use of a vehicle. The CITY agrees that the per diem rate will be limited to the rate allowed by the STATE at the time of execution of the AGREEMENT. The CITY agrees that a meal allowance shall be limited to CITY employees while in travel status only and only when used in lieu of a per diem rate.

The CITY shall submit detailed certified labor rates as requested, and in a timely manner, to the External Audits Section of the Finance and Audits Bureau of The Alabama Department of Transportation. The CITY agrees that material differences between rates submitted with a proposal and rates provided as certified for the same proposal are subject to adjustment and reimbursement.

EXHIBIT M

CERTIFICATION FOR FEDERAL-AID CONTRACTS: LOBBYING

This certification is applicable to the instrument to which it is attached whether attached directly or indirectly with other attachments to such instrument.

The prospective participant/recipient, by causing the signing of and the submission of this Federal contract, grant, loan, cooperative AGREEMENT, or other instrument as might be applicable under Section 1352, Title 31, U. S. Code, and the person signing same for and on behalf of the prospective participant/recipient each respectively certify that to the best of the knowledge and belief of the prospective participant or recipient and of the person signing for and on behalf of the prospective participant/recipient, that:

- a. No Federal appropriated funds have been paid or will be paid, by or on behalf of the prospective participant/recipient or the person signing on behalf of the prospective participant/recipient as mentioned above, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
- b. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, or other instrument as might be applicable under Section 1352, Title 31, U. S. Code, the prospective participant/recipient shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U. S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The prospective participant/recipient also agrees by submitting this Federal contract, grant, loan, cooperative agreement or other instrument as might be applicable under Section 1352, Title 31, U.S. Code, that the prospective participant/recipient shall require that the language of this certification be included in all lower tier subcontracts, which exceed \$100,000 and that all such subrecipients shall certify and disclose accordingly.

EXHIBIT N

FUNDS SHALL NOT BE CONSTITUTED AS A DEBT

It is agreed that the terms and commitments contained herein shall not be constituted as a debt of the State of Alabama in violation of Article 11, Section 213 of the Constitution of Alabama, 1901, as amended by Amendment Number 26. It is further agreed that if any provision of this AGREEMENT shall contravene any statute or Constitutional provision of amendment, either now in effect or which may, during the course of this AGREEMENT, be enacted, then the conflicting provision in the AGREEMENT shall be deemed null and void.

When considering settlement of controversies arising from or related to the work covered by this AGREEMENT, the parties may agree to use appropriate forms of non-binding alternative dispute resolution.

TERMINATION DUE TO INSUFFICIENT FUNDS

- a. If the agreement term is to exceed more than one fiscal year, then said agreement is subject to termination in the event that funds should not be appropriated for the continued payment of the agreement in subsequent fiscal years.
- b. In the event of proration of the fund from which payment under this AGREEMENT is to be made, agreement will be subject to termination.

NO GOVERNMENT OBLIGATION TO THIRD PARTY CONTRACTORS

The STATE and CITY acknowledge and agree that, notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying contract, absent the express written consent by the Federal Government, the Federal Government is not a party to this contract and shall not be subject to any obligations of or liabilities to the STATE, CITY, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying contract.

The CITY agrees to include the above clause in each subcontract financed in whole or in part with Federal assistance provided to FHWA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

RE: SPR-PART3-PLTC(022)
100073605 (in LTPS under the UT Scope)
Joint Agreement between the MPO, the Transit Agency & the State of Alabama in Orange County, FL

Kaasha, Good afternoon.

I have just received this MPO agreement and the original copy of the resolution was not sent in with the agreement but instead a copy.

I know that any other "regular" agreement requires that the original resolution be included in the agreement. Would this situation be any different?

Thank you,
Nancy

Hey.

I am sending you this so when I am looking for info on the situation in the future, I have some notes on it.

So –

We sent it to Legal and they sent it back to us.

Sorry to have to ask but what else did they need?

Thank you!

-Nancy

FHWA -- Eastern Federal Lands Highway Division Projects

This page has been intentionally left blank.

(Any projects in the Florida-Alabama TPO region that are received from the Eastern Federal Lands Division of the Federal Highway Administration will be inserted here.)

Appendix K

FY 2027-2031 TIP Process and Comments Received

FY 2027-2031 TIP Process

The TPO updates and adopts the TIP each year for submittal to FDOT, Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA). Projects within the urbanized area must appear in the TIP in order to receive state and federal funding. ALDOT only requires the TIP to be adopted every four years. However, since Florida adopts their TIPs annually, Alabama projects are also included annually in the Florida-Alabama TIP.

The FY 2027-2031 TIP process began in June 2025 when Project Priorities were adopted by the TPO and then submitted to FDOT and ALDOT. The Project Priorities are then used to develop the FDOT FY 2027-2031 Tentative Five-Year Work Program. The Tentative Five-Year Work Program is the primary source of information for the TIP. The FDOT Work Program, ALDOT STIP, and the TIP are consistent with the TPO's adopted priorities to the extent feasible. Projects are based on DOT maintenance requirements, the TPO Long Range Transportation Plan (LRTP), Transportation Systems Management (TSM) studies, Transportation Alternatives (TA) Project Priorities, and Aviation, Port, and Transit Master Plans. Projects listed in the TIP are subject to amendment as necessary by the TPO at any time during the year. The TIP has been developed through coordination with FDOT, ALDOT, and local governments.

The agendas and meeting minutes for the TPO and Advisory Committees are located at https://www.ecrc.org/programs/transportation_planning/agendas_and_reports.php. The updated draft Florida-Alabama TPO FY 2027-2031 Transportation Improvement Program was posted online prior to the June 2026 TPO and Advisory Committee Meetings. An e-mail with the draft TIP link on the TPO web site was sent to the TPO and Advisory Committee Members. The draft Florida-Alabama TPO FY 2027-2031 Transportation Improvement Program is accessible by clicking on the link below. The advertisements for the meetings can be requested by contacting the TPO's Marketing Team, marketing@ecrc.org. The Meeting minutes can be obtained by contacting the TPO's Transportation Team transportation@ecrc.org.

https://www.ecrc.org/programs/transportation_planning/plans_and_documents/index.php#outer-140.

The following is the Public Involvement element for the Transportation Improvement Program.

- Provide reasonable public access to technical and policy information used
- Provide adequate public notice of public involvement activities and time for public review and comment at key decisions, such as but not limited to the approval of the TIP
- Demonstrate explicit consideration and response to public input received during plan development process

- Make the TIP drafts and final documents available on the TPO website at , www.ecrc.org, a print copy of the current plan is available upon request
- Hold public meetings at convenient times and accessible locations
- Seek out and consider the needs of those traditionally underserved by existing transportation systems, including but not limited to, low-income and minority households
- Coordinate with the statewide transportation planning public involvement and consultation processes under 23 C.F.R. Subpart B, as described in the FDOT MPO Program Handbook
- Periodically review the effectiveness of the procedures and strategies contained in the participation plan
- When significant written and oral comments are received on a draft TIP as a result of public involvement, a summary, analysis, and report on the disposition of comments shall be made part of the final documents
- If the final TIP differs significantly from the one made available for public comment or raises new material issues, an additional opportunity for public comment must be made available
- When the Metropolitan Planning Area (MPA) includes Indian Tribal Lands, the TPO shall appropriately involve the Indian Tribal Government(s)
- When the MPA includes federal public lands, the TPO shall appropriately involve the federal government

COMMENTS ON DRAFT FY 2027-31 FLORIDA-ALABAMA TIP

Florida Department of Transportation—Chipley Office

- 1. 4552411 East Maxwell Street from North Hayne Street to North 12th Avenue. Change “from North Hayne Street to from North 12th Avenue” and change “to North 12th Avenue to North Hayne Street.**
Change has been made.

Florida Department of Transportation—Urban Liaison Office

- 1. Provided TIP Review Check List on May 6, 2026.**
The TIP Checklist identified no follow-up comments since the TIP included the required material identified by the Florida Department of Transportation.

Alabama Department of Transportation—Montgomery Office

- 1. Please show where in the TIP where the Memorandum of Understanding is located.**
The Memorandum of Understanding is included in Appendix I.
