

Site Assessment Results

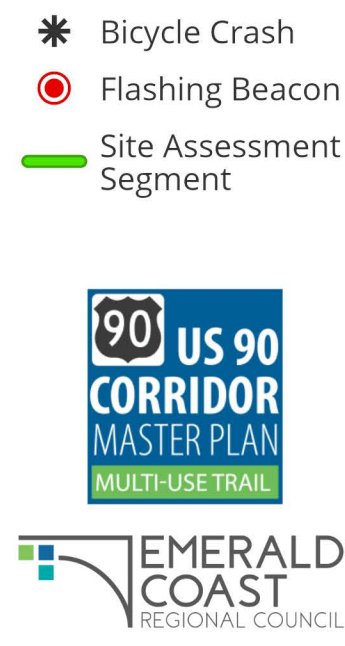

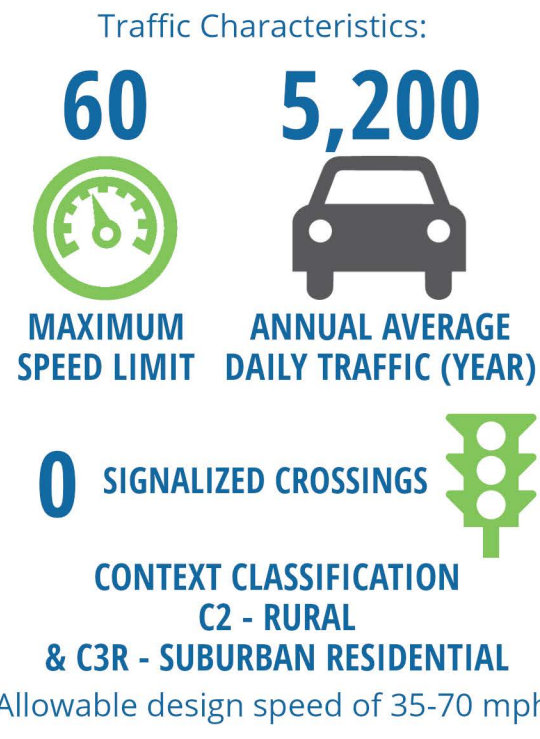

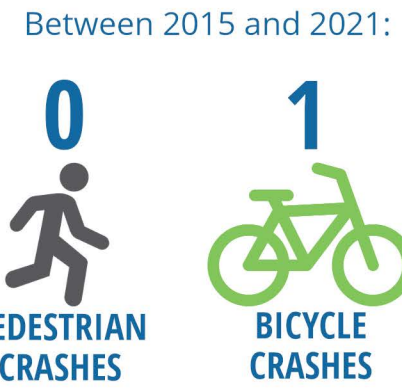

Segment #5: US 90 from Cooper Lane to Middle Brook Road

This US 90 segment extends through the town of Holt and is surrounded by a variety of land uses, including residential, vacant residential, commercial, and agricultural. It is a two-lane roadway with paved shoulders, but no sidewalk facilities. Right-of-way ranges from 60-125 feet and the CSX rail line parallels much of the corridor.

During the site assessment think about how a multi-use trail could fit within context of the corridor and what potential hazards and conflicts may exist.

- Conflicts**
 - Business Signs
 - Drainage
 - Parking Lots or Buildings
 - Trees/Landscaping
 - Utility Markers
- Safety Hazards**
 - High Speed Limits
 - Steep Side Slopes
- Other Comments**
 - Site Assessment Segment
 - Potential Alternate Route
 - Railroad
- Parks**
 - Schools
 - Municipality

Opportunity

Available right-of-way with open space on south side
