

**FY 2027 – 2031  
Transportation Improvement Program (TIP)**

**Draft: April 23, 2026**

**Amended:**

“...Planning for the transportation needs of the Panama City-Panama City Beach Urban Area...”

Appendix I: FY 2027-2031 TIP Process and Comments Received	

## **Executive Summary**

The purpose of the Transportation Improvement Program is to provide a project listing that reflects the needs and desires of the Transportation Planning Organization (TPO) Study Area. The TIP is also developed to reflect the financial restraints within the various funding sources and programs. The TIP is a five-year plan for transportation improvements within the TPO Study Area; it contains information about the type of work to be completed, project phasing, estimated costs, and funding sources. The Code of Federal Regulations defines the Transportation Improvement Program (TIP) as a “prioritized listing/program of transportation projects covering a period of four years that is developed and formally adopted by a TPO (transportation planning organization) as part of the metropolitan planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53” [23 C.F.R 450.104]. Florida Statute requires the addition of a fifth year to the TIP [339.175(8)(c)(1)]. The TIP is also required to include all regionally significant projects, regardless of funding [23 C.F.R 450.326(f)]. All projects listed in Section 2 are considered Regional Significant Projects as the facilities that serve regionally significant needs are included in the transportation model network.

The TIP is developed by the Bay County TPO in cooperation with the Florida Department of Transportation (FDOT) and the local governments in the TPO region. These cooperating agencies provide the Bay County TPO with estimates of available federal and state funds for use in development of the financial plan. In the development of the Department’s 5 Year Work Program, an inflation factor is applied to all appropriate phases of years one through five of the program. The inflation factors and application to appropriate phases are discussed in the Department’s Work Program Instructions. Therefore, the projects in the TIP are presented in Year of Expenditure (YOE), which takes into account the inflation rate over the five years in the TIP.

### **Organizational Structure and 3-C Planning Process:**

The Bay County TPO was established by the designation of the governor of Florida and an interlocal agreement in 1981, following the 1980 Census. The TPO Planning Area includes all of Bay County. The current interlocal agreement was approved on February 15, 2015 (Resolution Bay 15-02). Apportionment of membership was approved by the TPO on August 2, 2023.

The Emerald Coast Regional Council (ECRC) provides the designated professional staff to the Bay County TPO and performs the work required to maintain the continuing, cooperative and comprehensive (3-C) planning process. The ECRC serves seven (7) counties and is unique in its role in staffing three (3) separate TPOs (MPOs) in Northwest Florida. A staff services agreement between the Bay County TPO and the ECRC, originally established in August 1981 establishes this staffing arrangement. The TPO maintains bylaws, which describe

the operating procedures for the TPO and its advisory committees. The bylaws were updated and adopted in 2013.

The Bay County Transportation Planning Organization (TPO) is the designated Metropolitan Planning Organization (MPO) for the Panama City-Panama Beach, FL Urban Area. The TPO is mandated by the Federal Highway Act of 1962 (and subsequent re-authorizations) to perform the transportation planning activities within the urban area. This legislation ensures 3-C “continuing, cooperative and comprehensive” planning process. This process involves collaboration among various governmental agencies and units of government and results in a consensus regarding the transportation products for the urban area.

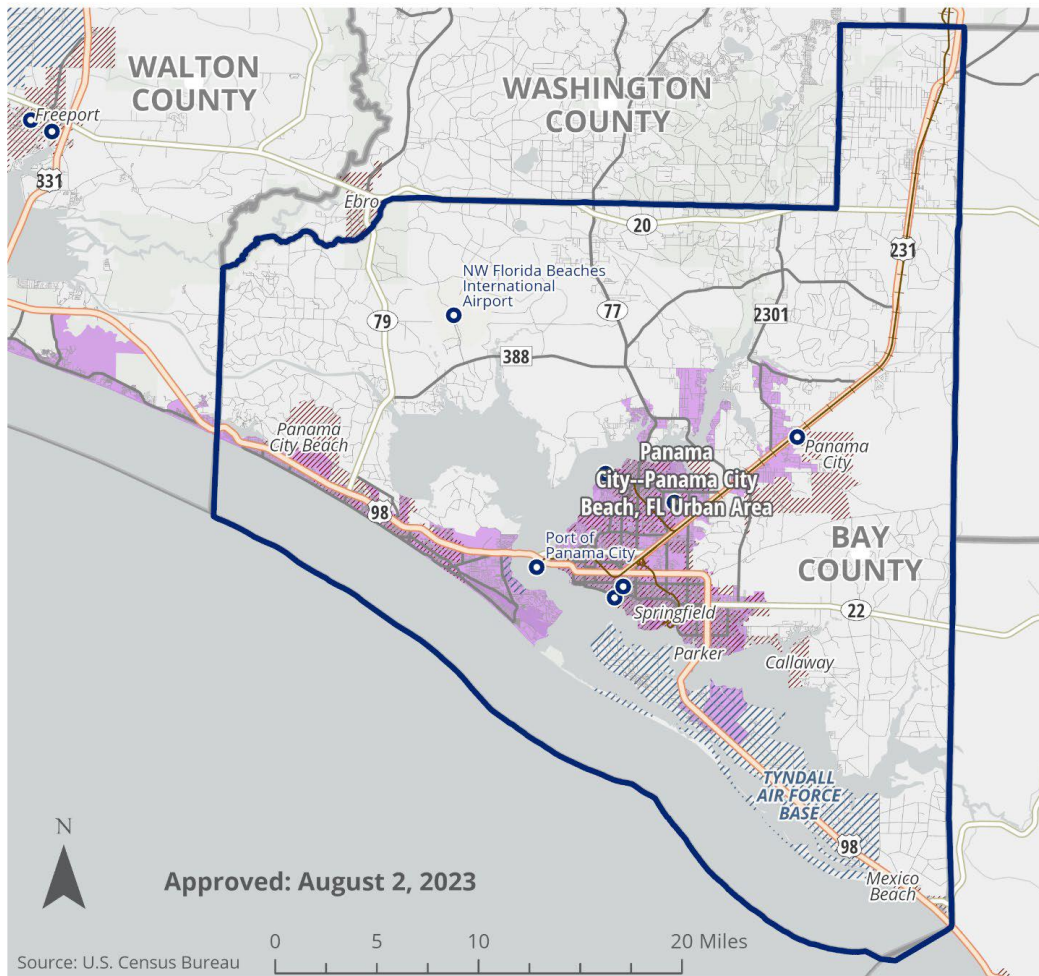

The Bay County TPO was formed after the 1980 Census. The current composition of the Bay County TPO after the 2020 Census consists of 19 members.

- 5 Bay County Commissioners
- 5 City of Panama City Council Members
- 2 City of Panama City Beach Council Members
- 2 City of Callaway Council Member
- 2 City of Lynn Haven Council Member
- 1 City of Mexico Beach Council Member
- 1 City of Parker Council Member
- 1 City of Springfield Council Member

Two advisory committees provide input to the TPO regarding transportation plans in the urban area. The Technical Coordinating Committee consists of planners, engineers, and various transportation related agencies in the TPO area and the Citizens’ Advisory Committee represents the citizens in the TPO area. The current study area of the TPO is listed below and is based on the 2020 Census. The TPO is the policy board whereas the Technical Coordinating Committee and the Citizens’ Advisory Committee provide recommendations to the TPO for possible action.

Several transportation related products are presented to the TPO and Advisory Committees such as the Long Range Transportation Plan, Transportation Improvement Program, Project Priorities, and the Unified Planning Work Program that are required based on Federal and State regulations. The Long Range Transportation Plan must accompany a twenty year planning horizon and is updated every five years. The Transportation Improvement Program is updated annually and provides a list of projects (Federal, State, and Local) with their anticipated funding phases and dollars amounts for five years. The Project Priorities are primarily based on the Long Range Transportation Plan Cost Feasible Plan and are provided annually to the Department of Transportation to use as a guide to build their five year Work Program. The Unified Planning Work Program is updated every two years and provides a detailed list of the TPO’s work activities and dollars amounts. After presentations to the TPO, opportunity for public comment, and discussion by the TPO members, these planning related products are approved.

## Bay County TPO Metropolitan Planning Area Boundary

### **Title VI:**

Pursuant to Section 9 of the US DOT Order 1050.2A, the Bay County TPO assures FDOT that no person on the basis of race, color, national origin, sex, age, disability, family, or religious status as provided by the Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, State of Florida Civil Rights Act of 1992, and other nondiscrimination authorities be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination or retaliation under any program or activity. For additional information click on the following link [https://www.ecrc.org/resource\\_center/public\\_involvement/title\\_vi\\_ada.php](https://www.ecrc.org/resource_center/public_involvement/title_vi_ada.php).

## **Financial Plan:**

The TIP is financially constrained for each year. Federally funded projects identified in the TIP can be implemented using current and proposed revenue sources based on the FDOT's Tentative Work Program and locally designated transportation revenues. As required by federal and state law, a summary of available funds by funding category and project type for the state and federally funded projects contained within the TIP has been included in Appendix F [23 C.F.R. 450.326(k); C.F.R. 450.326(j); and Subsection 339.175(8), F. S.] The detailed project listing and financial summary "contain system-level estimates of costs and revenue sources that are reasonably expected to be available to adequately operate and maintain Federal-aid highways (as defined by 23 U.S. C. 101(a)(5)) and public transportation (as defined by title 49 U.S.C. Chapter 53) [23 CFR 450.324 (h)].

To further ensure the financial soundness of the TIP, all projects funded by the Florida Department of Transportation with federal or non-federal dollars are considered committed projects if included in the first three years of the FDOT Five-Year Work Program. Section 339.135(4)(b)(5) Florida Statutes mandates that the FDOT Work Program include a balanced 36-month forecast of cash and expenditures and a five-year finance plan supporting the Work Program. All local government projects (non-federally funded) that are included in the TIP are a part of a member local government's capital improvement program. Non-federally funded projects with funding in the first year of local government capital improvement element or capital improvement programs are considered to be committed projects.

## **Project Categories:**

Capacity – Projects (such as widening existing roads or building roads on new alignments) in the TIP are from the Cost Feasible Plan of the TPO Long Range Transportation Plan Update and the Project Priorities.

Transportation Systems Management (TSM) - Drawn from the FDOT Candidate list and the TPO Priorities for TSM Improvements, these projects may also be identified in the TPO's Congestion Management Process Plan, Corridor Management Plans, and Safety Plans. Some are part of studies by FDOT or local governments and are needed to improve mobility and /or safety at intersections and along existing roadways. TSM projects are typically low-cost and can be constructed in less than two years with allocated District 3 funds.

Transportation Alternatives – Transportation Alternatives Program (TA) provides funding for programs and projects defined as transportation alternatives. The INFRASTRUCTURE INVESTMENT AND JOBS ACT (IIJA) continues the Transportation Alternatives (TA) set-aside from the Surface Transportation Block Grant (STBG) program. Eligible uses of the set-aside funds include a variety of smaller-scale transportation projects such as pedestrian and bicycle facilities,

recreational trails, safe routes to school projects, community improvements such as historic preservation and vegetation management, and environmental mitigation related to stormwater and habitat connectivity. <https://www.fhwa.dot.gov/bipartisan-infrastructure-law/ta.cfm>.

### **Eligible Entities**

Under 23 U.S.C. 133(h)(4)(A), as amended by the IIJA, the entities eligible to receive TA Set-Aside funds are:

1. A local government. Local government entities include any unit of local government below a State government agency, except for an TPO representing an urbanized area with a population over 200,000. Examples include city, town, township, village, borough, parish, or county agencies.
2. A regional transportation authority. Regional transportation authorities are considered the same as the Regional Transportation Planning Organizations defined in the statewide planning section (23 U.S.C. 135(m)).
3. A transit agency. Transit agencies include any agency responsible for public transportation that is eligible for funds as determined by the Federal Transit Administration.
4. A natural resource or public land agency. Natural resource or public land agencies include any Federal, Tribal, State, or local agency responsible for natural resources or public land administration. Examples include:
  - State or local park or forest agencies.
  - State or local fish and game or wildlife agencies.
  - Department of the Interior land management agencies.
  - U.S. Forest Service.
5. A school district, local education agency, or school. School districts, local education agencies, or schools may include any public or nonprofit private school. Projects should benefit the general public and not only a private entity.
6. A Tribal government.
7. A metropolitan planning organization that serves an urbanized area with a population of 200,000 or fewer. TPOs representing urbanized areas over 200,000 population are not eligible entities.
8. A nonprofit entity. The BIL removed the requirement that the nonprofit entity be responsible for the administration of local transportation safety programs.
9. Any other local or regional governmental entity with responsibility for or oversight of transportation or recreational trails (other than a metropolitan planning organization that serves an urbanized area with a population of over 200,000 or a State agency) that the State determines to be eligible, consistent with the goals of 23 U.S.C. 133(h).
10. A State, at the request of an eligible entity listed above. State DOTs are not eligible entities as defined under 23 U.S.C. 133(h)(4)(A) unless requested by another eligible entity. (23 U.S.C. 133(h)(4)(A)(x)). TPOs representing urbanized areas over 200,000 population are not eligible entities. (23 U.S.C. 133(h)(4)(A)(ix)). State DOTs and TPOs Transportation Alternatives (TA) Set-Aside Implementation Guidance may partner with any eligible entity project sponsor to carry out a project. After projects have been selected, the State DOT may manage projects. The RTP set-aside funds retain the RTP eligible project sponsor provisions under 23 U.S.C. 206 (23 U.S.C. 133(h)(5)(C)).

## Eligible Projects

The IJJA retained previous TA Set-Aside eligibility, amended the reference for SRTS projects, and added activities in furtherance of a vulnerable road user safety assessment, as defined in 23 U.S.C. 148(a). See 23 U.S.C. 133(h)(3). The BIL also added eligibility for State DOTs to use funds for administrative and technical assistance, limited to 5 percent of the TA Set-Aside fund (after the RTP set-aside). 23 U.S.C. 133(h)(6)(C). TA Set-Aside eligible projects consist of: Section 133(h)(3)(A): Projects or Activities described in 23 U.S.C. 101(a)(29) or 23 U.S.C. 213 as in effect prior to the enactment of the FAST Act. Those sections contained the following eligible projects:

(1) Transportation Alternatives as defined in 23 U.S.C. 101(a)(29) means any of the following activities when carried out as part of any program or project authorized or funded under title 23 U.S.C., or as an independent program or project related to surface transportation:

(A) Construction, planning, and design of on-road and off-road trail facilities for pedestrians, bicyclists, and other nonmotorized forms of transportation, including sidewalks, bicycle infrastructure, pedestrian and bicycle signals, traffic calming techniques, lighting and other safety-related infrastructure, and transportation projects to achieve compliance with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.).

(B) Construction, planning, and design of infrastructure-related projects and systems that will provide safe routes for non-drivers, including children, older adults, and individuals with disabilities to access daily needs.

(C) Conversion and use of abandoned railroad corridors for trails for pedestrians, bicyclists, or other nonmotorized transportation users.

(D) Construction of turnouts, overlooks, and viewing areas.

(E) Community improvement activities, including:

(i) inventory, control, or removal of outdoor advertising;

(ii) historic preservation and rehabilitation of historic transportation facilities;

(iii) vegetation management practices in transportation rights-of-way to improve roadway safety, prevent against invasive species, and provide erosion control (see State DOTs Leveraging Alternative Uses of the Highway Right-of-Way Guidance); and

(iv) archaeological activities relating to impacts from implementation of a transportation project eligible under title 23, U.S.C.

(F) Any environmental mitigation activity, including pollution prevention and pollution abatement activities and mitigation to: (i) address stormwater management, control, and water pollution prevention or abatement related to highway construction or due to highway runoff; or (ii) reduce vehicle-caused wildlife mortality or to restore and maintain connectivity among terrestrial or aquatic habitats.

(2) The recreational trails program under 23 U.S.C. 206 of title 23. (See the Recreational Trails Program section. Any project eligible under the RTP also is eligible under the TA Set-Aside.)

(3) The safe routes to school program (23 U.S.C. 208):

- Infrastructure-related projects eligible under 23 U.S.C. 208(g)(1).

- Noninfrastructure-related activities eligible under 23 U.S.C. 208(g)(2).

- SRTS coordinators eligible under section under 23 U.S.C. 208(g)(3).
  - (4) Planning, designing, or constructing boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divided highways.
  - See Boulevards from Divided Highways for examples.
- Section 133(h)(3)(B): projects and activities under the safe routes to school program under 23 U.S.C. 208.
- Section 133(h)(3)(C): activities in furtherance of a vulnerable road user safety assessment (as defined in 23 U.S.C. 148(a)).
- Section 133(h)(6)(C): Improving Accessibility and Efficiency. See State Technical Assistance description under the Allocations and Suballocations.

### **Other Related Eligibility**

The BIL amended other sections of title 23 that relate to projects eligible under the TA Set-Aside, including:

- STBG: 23 U.S.C. 133(b)(7) clarified eligibility for recreational trail projects including the maintenance and restoration of existing recreational trails, and amended the citation for the safe routes to school program under section 208.
- HSIP: 23 U.S.C. 148(a)(11)(B)(v) added SRTS noninfrastructure projects as eligible under HSIP as a specified safety project. Many activities eligible under the TA Set-Aside already were eligible under HSIP, subject to HSIP criteria.

Bicycle/Pedestrian - The projects identified in the TPO Bicycle Pedestrian Plan are added to the Long Range Transportation Plan. Transportation Alternatives and SUN Trail Funded projects are included in the TIP.

Public Transportation – Transit projects are drawn from the TPO Five Year Transit Development Plan and the local transit operator provides priorities to the TPO. Projects support the Bayway and the Community Transportation Coordinator (CTC). The CTC receives funding directly for the Commission for the Transportation Disadvantaged. Other funding sources include the Federal Transit Administration (FTA) and FDOT.

Aviation – Aviation projects are drawn from the airport master Plan and Airport Layout Plan, developed by local authorities and reviewed by the DOT and the Federal Aviation Administration (FAA). Project Priorities are given to the TPO for inclusion in the report and may be funded by the FAA, FDOT, or Airport Authority. The airfield included in this report is the Northwest Florida Beaches International Airport.

Seaport - Port projects are drawn from the adopted Port Master Plan, for area deep water seaports. They are primarily the domain of city government, and though the TIP is consistent with city plans, their inclusion is primarily due to the formation of the Seaport and Economic Development Trust Fund. This fund provides state money through the Florida Ports Council for port projects. The Port Panama City is the only deep water port in this report.

Resurfacing – Also known as system preservation, these projects are determined by the FDOT. While the TPO may ask that particular roadways be examined for resurfacing needs, the priority for resurfacing is based on an engineering

evaluation of pavement condition. Resurfacing projects on the State Highway System are funded through a statewide program.

Bridge – These projects are selected by the FDOT on criteria established through bridge inspections. Bridge Sufficiency Ratings are established by the FHWA and are on a 0 (worst) to 100 (best). Funds are generally available for rehabilitation work if the bridge rating falls below 80, or are available for replacement if the rating falls below 50. For bridges off the state highway system, the engineering costs will be the owner’s responsibility. All other phases (excluding in-house phases) are to be split 75% Federal (from the set-aside) and 25% owner up to a total cost of \$5 million (limiting federal participation on each bridge to \$3.75 million). This limitation excludes in-house phases.

Freight – The TPO staff is a member of the State of Florida Metropolitan Planning Organization Advisory Council’s Freight Committee and has submitted Freight Projects to this committee for consideration for funding advancement in the TIP.

Safety – The TPO gives the highest point total for Safety in its Evaluation Criteria for ranking projects in its Long Range Transportation Plan Needs Plan. FDOT develops a Highway Safety Improvement Program annually. Each transportation project in the TIP when it is designed and/or constructed is intended to improve safety. In addition, safety is addressed in the Performance Measures section later in this report.

Miscellaneous - Supplemental projects not fitting into any of the other category. An example is planning funds for the TPO Process.

### **Project Selection:**

Project selection is dependent on the priorities for the various projects and on financial constraints. The selection of priorities for the TPO Study Area involves various forms of input including input from the citizens and through the Citizens’ Advisory Committee and Technical Coordinating Committee making recommendations to the TPO.

The TIP is consistent with the federal requirements in 23 CFR 450.322(c). Important components of Federal and State Legislation for Transportation Improvement Programs include:

1. TIP/STIP must be updated at least every four (4) years and contain four years’ worth of projects.
2. Proposed TIP projects must be derived from locally developed public “human transit” transportation services including: Special Needs of Elderly Individuals and Individuals with Disabilities (See U.S.C. 49 sections 5310).
3. Visual aids should be included in TIP development such as

photographs, charts, graphs, and any other visual aid that would enhance public knowledge of the project.

The Infrastructure Investment and Jobs Act (IIJA) retains the ten (10) Planning Factors as the *Scope of the Planning Process*. The ten (10) Planning Factors are:

(A) support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;

(B) increase the safety of the transportation system for motorized and nonmotorized users;

(C) increase the security of the transportation system for motorized and nonmotorized users;

(D) increase the accessibility and mobility of people and for freight;

(E) protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth, housing, and economic development patterns;

(F) enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;

(G) promote efficient system management and operation;

(H) emphasize the preservation of the existing transportation system;

(I) improve the resiliency and reliability of the transportation system and reduce or mitigate storm water impacts of surface transportation; and

(J) enhance travel and tourism.

**Project Priority Statement:**

The Bay County TPO Adopted Project Priorities for Fiscal Years 2027-2031 is in Appendix E.

**Consistency with Other Plans:**

In accordance with these federal and state laws, this TIP covers five fiscal years and is consistent with the Florida Transportation Plan, the Bay County TPO Long Range Transportation Plan (LRTP), the Congestion Management Process Plan (CMPP) and the local government comprehensive plans. The TIP contains project information for the construction and maintenance of the transportation facilities of the TPO Study Area. Facility types vary from roads, highways and bridges to

seaports, airports, and bicycle and pedestrian accommodations. The TIP also includes project information for the various public transportation systems such as local bus and trolley systems and the Transportation Disadvantaged Program. The TIP is consistent with the federal requirements in 23 CFR 450.322(c).

### **Implemented Projects:**

Annually, FDOT and Bayway produce lists of projects that have had federal funds obligated to them in the preceding year. This listing of projects for Fiscal Year 2025 is in Appendix D.

### **Public Involvement:**

The public participation process for the FY2027-2031 TIP began during February, March, April, and 2025 with the development of the TPO's Project Priorities. In May 2025, the draft Project Priorities were presented to the TPO and its advisory committees, the Citizens' Advisory Committee and the Technical Coordinating Committee. This review of the Project Priorities was advertised within TPO's agenda and it was sent by news release to local media. Public outreach took place on-line through a survey from March 24, 2025 to May 9, 2025. News releases were distributed to media outlets and meeting information was promoted through social media sites. Flyers were created and emailed to members of the TPO and advisory committees. Workshops with the TPO, TCC, and CAC also occurred in person on March 5 and April 23, 2025 to obtain comments on the Project Priorities. Both of these workshops were advertised and contain an agenda item for public comment.

In May 2025, the proposed final Project Priorities were presented to the advisory committees for final review and to the TPO for adoption. The adoption of the Priorities in May 2025 was part of TPO agenda, so it was advertised and issued as a news release. A public forum was part of that meeting to allow an additional opportunity for public involvement. The adopted Project Priorities are in Appendix E.

This review of the Project Priorities was advertised within TPO's agenda and it was sent by news release to local media. A hybrid public workshop to review and comment on the Project Priorities was held on April 23 2025. Notifications were sent to various community groups, inviting them to attend the workshop.

On October 16, 2025, FDOT held a hybrid public workshop to gather public comments on its Tentative Five-Year Work Program, which includes selected TPO Project Priorities. The Tentative Five-Year Work Program was also placed on-line for a week to obtain additional public comment. In November 2025, FDOT presented the Tentative Five-Year Work Program to the TPO for endorsement; that TPO meeting was also advertised with the local media. Public comments gathered throughout the creation of the Project Priorities and in the review of the Tentative Work Program have been considered through each step of the planning process.

As such, this TIP reflects a combination of the public's interests as well as the interests of the various government agencies that are participants in the TPO planning process.

In cases where public comment is significant, 23 Code of Federal Regulations (CFR) Part 450 requires the following: "When significant written and oral comments are received on the draft transportation plan or TIP (including the financial plan) as a result of the public participation process or the interagency consultation process required by EPA's conformity regulations [for air quality], a summary, analysis, and report on the disposition of comments shall be made part of the final plan and TIP." The public comments received in the review of the Project Priorities are listed in Appendix E. In addition, the public comments received during the development of the TIP are listed in Appendix I. Public notice of public involvement activities and time established for public review and comment on the TIP will satisfy the Program of Projects public review requirements of the Section 5307 Program. Due dates for comments are included in the May TPO agenda enclosure and in the emails to review agencies.

### **Certification:**

The last Joint FDOT/TPO Certification was held on March 2, 2026. The Joint FDOT/TPO Certification is an annual process conducted by FDOT District 3 and the Bay County TPO.

### **Air Quality:**

The Clean Air Act (CAA) requires the Environmental Protection Agency (EPA) to develop and enforce air quality standards. Under the CAA, the EPA is mandated to review standards for criteria pollutants every five years. Criteria pollutants are listed as carbon monoxide (CO), nitrogen dioxide (NO<sub>2</sub>), ozone (O<sub>3</sub>), sulfur dioxide (SO<sub>2</sub>), and particulate matter 2.5 or 10. The National Ambient Air Quality Standard (NAAQS) for ozone was last reviewed in 2008 at which time the EPA lowered the standard from 85 ppb to the current standard of 75 ppb. On January 19, 2010, the EPA published a Notice of Proposed Rulemaking in the Federal Register, with the intention of strengthening the NAAQS for ground level ozone. On October 1, 2015, the EPA finalized revisions to the National Ambient Air Quality Standards (NAAQS) for ground-level ozone. The rule sets more stringent standards, lowering both the primary (health-based) and secondary (welfare-based) standards from 75 parts per billion (ppb) to 70 ppb.

The TPO staff for the Bay County Transportation Planning Organization (TPO) monitors air quality and ozone readings for the TPO on a quarterly basis. The Bay County TPO is currently in attainment for ground level ozone. In anticipation of the lowered standard, the TPO staff is interacting with government agencies and the public to ensure that air quality affected by ground-level ozone can be readily addressed and mitigated to maintain air quality compliance. TPO staff will establish regional air quality reporting guidelines and increase interaction with the public and local governments, repositioning as an information resource for air

quality in Northwest Florida. There are five air quality monitoring sites located within Northwest Florida. One of which is in Bay County. Data collected from this monitor and updates on the NAAQS will be reported to the Bay County TPO and Advisory Committees quarterly.

### **Congestion Management Process:**

The TPO is responsible for implementing the Congestion Management Process, and projects identified in the Plan are included in the TIP. The TPO updates its Congestion Management Process in conjunction with the Long Range Transportation Plan. Projects identified through the Congestion Management Process can be a priority for Transportation Systems Management as they are submitted as a “candidate” project by FDOT. Corridor Management Plans identified in the Congestion Management Process will be listed as Corridor Management for studies and/or implementation if they are included in the TIP. The Congestion Management Process major update can be found at this link [2025.09.05 Final CMP.pdf](#). A minor update to the Congestion Management Process occurs annually, except for the year of the major update, through updates to the Performance Measures and Level of Service tables. The Congestion Management Process minor update can be found at this link [Bay CMP 2024 Minor Update Final.pdf](#).

### **Transportation Disadvantaged (TD):**

The Florida Commission for the Transportation Disadvantaged requires each county to submit Annual Performance Reports to review the services provided and costs for those services. The Annual Performance Reports for Bay County are in Appendix F.

### **Amendment Process:**

For Administrative Modifications to the TIP, TPO action is not required. The Transportation Planning Director approves this type of amendment by signature, then copies are placed in the next TPO agenda as an information item and the TIP is updated with the amended information and the amended date in the cover is updated.

TIP Amendments and Modifications are governed by the FDOT MPO Handbook:

An administrative modification is a minor revision that includes minor changes to the project/project phase costs, minor changes to funding sources of previously included projects, and minor changes to project/project phase initiation dates. An administrative modification is a revision that does not require public review and comment, and a redemonstrations of fiscal constraint.

An amendment means a revision that involves a major change to a project including the deletion of a project or a major change in project cost, project/project phase initiation dates, or a major change in design concept or design scope. An

amendment is a revision the requires public review and comment and a redemonstrations of fiscal constraint.

1. The complete Transportation Improvement Program shall be adopted only upon a vote of TPO, assembled in a properly noticed public meeting;
2. In order to expedite amendments to the TIP, the TPO authorizes the Transportation Planning Director to administratively approve airport, public transportation, and seaport project amendments which do not materially affect surface transportation traffic volumes or traffic distribution in the vicinity of the subject airport, public transportation facility, or seaport;
3. The TPO authorizes the Transportation Planning Director to administratively approve roll-forward amendments, to ensure that approved projects that did not get authorized by June 30 remain eligible for authorization after July 1;
4. If the TPO is requested to amend its TIP on an emergency basis, such as during a period when the TPO is not scheduled to meet, the TPO authorizes its Chairman or the Transportation Planning Director to approve projects less than \$2.0 million;
5. The TPO also authorizes the Transportation Planning Director to administratively approve amendments to the TIP which do not meet any one of the five criteria which require a formal TIP amendment: (a) addition of new individual projects; (b) change adversely impacts financial constraint of the TIP; (c) change results in major scope changes; (d) deletion of a project from the TIP; or (e) change in project cost greater than 20% AND \$2.0 million;
6. The TPO requires the Transportation Planning Director to inform the TPO of all TIP amendments approved under these authorizations at least once per quarter; and

Project Priorities amendments must be approved by the TPO by formal action. They must be placed on the TPO agenda and listed in the legal ad placed for the meeting. Approval of an amendment to the Project Priorities must be by roll-call vote. Once approved, the Project Priorities are updated with the amended information and copies of the amendment are provided to FDOT.

### **Federal Planning Emphasis Areas**

On December 30, 2021, FHWA distributed a memorandum to state DOTs to encourage TPOs to identify tasks associated with Planning Emphasis Areas (PEAs). The following lists the eight PEAs as defined by FHWA:

Public Involvement – Early, effective, and continuous public involvement brings diverse viewpoints into the decision-making process. FHWA Division and FTA regional offices should encourage TPOs, State DOTs, and providers of public transportation to increase meaningful public involvement in transportation planning

by integrating Virtual Public Involvement (VPI) tools into the overall public involvement approach while ensuring continued public participation by individuals without access to computers and mobile devices. The use of VPI broadens the reach of information to the public and makes participation more convenient and affordable to greater numbers of people. Virtual tools provide increased transparency and access to transportation planning activities and decision-making processes. Many virtual tools also provide information in visual and interactive formats that enhance public and stakeholder understanding of proposed plans, programs, and projects. Increasing participation earlier in the process can reduce project delays and lower staff time and costs.

Strategic Highway Network (STRAHNET)/U.S. Department of Defense (DOD) Coordination – FHWA Division and FTA regional offices should encourage TPOs and State DOTs to coordinate with representatives from DOD in the transportation planning and project programming process on infrastructure and connectivity needs for STRAHNET routes and other public roads that connect to DOD facilities. According to the Declaration of Policy in 23 U.S.C. 101(b)(1), it is in the national interest to accelerate construction of the Federal-aid highway system, including the Dwight D. Eisenhower National System of Interstate and Defense Highways, because many of the highways (or portions of the highways) are inadequate to meet the needs of national and civil defense. The DOD's facilities include military bases, ports, and depots. The road networks that provide access and connections to these facilities are essential to national security. The 64,200-mile STRAHNET system consists of public highways that provide access, continuity, and emergency transportation of personnel and equipment in times of peace and war. It includes the entire 48,482 miles of the Dwight D. Eisenhower National System of Interstate and Defense Highways and 14,000 miles of other non-Interstate public highways on the National Highway System. The STRAHNET also contains approximately 1,800 miles of connector routes linking more than 200 military installations and ports to the primary highway system. The DOD's facilities are also often major employers in a region, generating substantial volumes of commuter and freight traffic on the transportation network and around entry points to the military facilities. Stakeholders are encouraged to review the STRAHNET maps and recent Power Project Platform (PPP) studies. These can be a useful resource in the State and TPO areas covered by these route analyses.

Federal Land Management Agency (FLMA) Coordination – FHWA Division and FTA regional offices should encourage TPOs and State DOTs to coordinate with FLMAs in the transportation planning and project programming process on infrastructure and connectivity needs related to access routes and other public roads and transportation services that connect to Federal lands. Through joint coordination, the State DOTs, TPOs, Tribal Governments, FLMAs, and local agencies should focus on integration of their transportation planning activities and develop cross-cutting State and TPO long range transportation plans, programs,

and corridor studies, as well as the Office of Federal Lands Highway's developed transportation plans and programs. Agencies should explore opportunities to leverage transportation funding to support access and transportation needs of FLMAs before transportation projects are programmed in the Transportation Improvement Program (TIP) and Statewide Transportation Improvement Program (STIP). Each State must consider the concerns of FLMAs that have jurisdiction over land within the boundaries of the State (23 CFR 450.208(a)(3)). TPOs must appropriately involve FLMAs in the development of the metropolitan transportation plan and the TIP (23 CFR 450.316(d)). Additionally, the Tribal Transportation Program, Federal Lands Transportation Program, and the Federal Lands Access Program TIPs must be included in the STIP, directly or by reference, after FHWA approval in accordance with 23 U.S.C. 201(c) (23 CFR 450.218(e)).

Planning and Environment Linkages (PEL) – FHWA Division and FTA regional offices should encourage State DOTs, TPOs and Public Transportation Agencies to implement PEL as part of the transportation planning and environmental review processes. The use of PEL is a collaborative and integrated approach to transportation decision-making that considers environmental, community, and economic goals early in the transportation planning process, and uses the information, analysis, and products developed during planning to inform the environmental review process. PEL leads to interagency relationship building among planning, resource, and regulatory agencies in the early stages of planning to inform and improve project delivery timeframes, including minimizing duplication and creating one cohesive flow of information. This results in transportation programs and projects that serve the community's transportation needs more effectively while avoiding and minimizing the impacts on human and natural resources.

Data in Transportation Planning – To address the emerging topic areas of data sharing, needs, and analytics, FHWA Division and FTA regional offices should encourage State DOTs, TPOs, and providers of public transportation to incorporate data sharing and consideration into the transportation planning process, because data assets have value across multiple programs. Data sharing principles and data management can be used for a variety of issues, such as freight, bike and pedestrian planning, equity analyses, managing curb space, performance management, travel time reliability, connected and autonomous vehicles, mobility services, and safety. Developing and advancing data sharing principles allows for efficient use of resources and improved policy and decision-making at the State, TPO, regional, and local levels for all parties.

### **State Planning Emphasis Areas – 2021**

Safety – The Florida Transportation Plan and the State's Strategic Highway Safety Plan place top priority on safety, with a state target of zero traffic fatalities and serious injuries. In addition to adopting safety targets, the TPOs must show how

their Long Range Transportation Plan (LRTP) and priority projects in their Transportation Improvement Program (TIP) support progress toward those targets. The UPWP should consider enhancements to data analyses and community involvement to better inform the identification and prioritization of safety projects.

Resilience – Resilience, as it relates to transportation emphasis area, is: “Improve the resilience and reliability of the transportation system and mitigate stormwater impacts of surface transportation.” Resilience is defined as the ability to adapt to changing conditions and prepare for, withstand, and recover from disruption. These conditions can encompass a wide variety of environmental, technological, economic, or social impacts. TPOs can address resilience within their planning processes by leveraging tools such as the *FHWA Resilience and Transportation Planning Guide* and the *FDOT Quick Guide: Incorporating Resilience* in the TPO LRTP. It should be noted that while these documents focus primarily on the development of TPO LRTPs and TIPs, addressing resilience should be a consideration within every planning document prepared by an TPO. TPOs should place a particular emphasis on coordination with agency partners responsible for natural disaster risk reduction, or who may be developing local resilience planning initiatives. Additionally, TPOs should consider the additional costs associated with reducing vulnerability of the existing transportation infrastructure. Proactive resiliency planning will help the TPO develop planning documents that are ultimately more realistic and cost-effective.

Emerging Mobility – Advances in communication and automation technology result in new mobility options, ranging from automated and connected transport, electric vehicles, ridesharing, and micro-mobility, to flying cars and space travel. These changes may be disruptive and transformational, with impacts to safety, vehicle ownership, travel capacity, vehicle miles traveled, land-use, transportation design, future investment demands, supply chain logistics, economy, and the workforce. Implementation of all seven goals of the Florida Transportation Plan can be furthered through both the transformation of major corridors and hubs and the expansion of transportation infrastructure to embrace and support the adoption of emerging mobility. The TIP should recognize the important influence of emerging mobility on the multi-modal transportation system and include related planning studies, collaboration efforts, research, or other activities.

Performance Measures – Performance Management is a strategic approach to connect investment and policy decisions to help achieve performance goals. Performance measures are quantitative criteria used to evaluate progress. Performance measure targets are the benchmarks against which collected data is gauged. The INFRASTRUCTURE INVESTMENT AND JOBS ACT (IIJA) requires State DOTs and TPOs to conduct performance-based planning by tracking performance measures and setting data-driven targets to improve those measures.

Performance-based planning ensures the most efficient investment of federal transportation funds by increasing accountability, transparency, and providing for better investment decisions that focus on key outcomes related to seven national goals:

- Improving Safety;
- Maintaining Infrastructure Condition;
- Reducing Traffic Congestion;
- Improving the Efficiency of the System;
- Improving Freight Movement;
- Protecting the Environment; and,
- Reducing Delays in Project Delivery.

23 CFR 490.107 establishes timelines for State DOTs and TPOs to comply with the requirements of IIJA. State DOTs are required to establish statewide targets and TPOs have the option to support the statewide targets or adopt their own.

**Safety.** Safety (PM 1) is the first national goal identified in 23 CFR 49.207. In March of 2016, the Highway Safety Improvement Program (HSIP) and Safety Performance Management Measures Rule (Safety PM Rule) was finalized and published in the *Federal Register*. The rule requires TPOs to set targets for the following safety-related performance measures and report progress to the State DOT:

- Number of Fatalities;
- Number of Serious Injuries;
- Number of Nonmotorized Fatalities and Serious Injuries;
- Rate of Fatalities per 100 Million Vehicle Miles Traveled (VMT); and
- Rate of Serious Injuries per 100 Million VMT.

The FDOT Highway Safety Improvement Plans (HSIP) focuses on how to accomplish the vision of eliminating fatalities and reducing serious injuries on all public roads. The HSIP development process included review of safety-related goals, objectives, and strategies in TPO plans. The HSIP guides FDOT, TPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the State.

The Florida Department of Transportation Highway Safety Improvement Plan (HSIP) focused on how to accomplish the vision of eliminating fatalities and reducing serious injuries on all public roads. The HSIP development process included review of safety-related goals, objectives, and strategies in TPO plans. The HSIP guides FDOT, TPOs, and other safety partners in addressing safety and

defines a framework for implementation activities to be carried out throughout each State.

The HSIP highlights the commitment to a vision and initiative of zero deaths. The HSIP annual report documents the statewide performance measures toward that zero deaths vision and initiative. As such, the TPO supported the adoption of the HSIP safety performance measures, FDOT’s 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, and 2026 safety targets, which set the target at “0” for each performance measure to reflect FDOT’s goal of zero deaths. The TPO supported the FDOT targets by approving Resolution 18-01 on February 21, 2018, Resolution 19-01 on February 6, 2019, Resolution 20-01 on February 5, 2020, Resolution 21-03 on February 24, 2021, Resolution 22-01 on February 2, 2022, Resolution 23-01 on January 4, 2023, Resolution 23-34 on November 1, 2023, Resolution 24-19 on December 9, 2024; and Resolution 25-23 on November 5, 2025. (see Bay County TPO Safety Performance Table).

**Bay County TPO Safety Performance Targets**

<b>Entity</b>	<b>Number of Fatalities</b>	<b>Rate of Fatalities per Hundred Million Vehicle Miles Traveled</b>	<b>Number of Serious Injuries</b>	<b>Rate of Serious Injuries per Hundred Vehicle Miles Traveled</b>	<b>Number of Non-Motorized Fatalities and Non-Motorized Serious Injuries</b>
FDOT (2018)	0	0	0	0	0
FDOT (2019)	0	0	0	0	0
FDOT (2020)	0	0	0	0	0
FDOT (2021)	0	0	0	0	0
FDOT (2022)	0	0	0	0	0
FDOT (2023)	0	0	0	0	0
FDOT (2024)	0	0	0	0	0
FDOT (2024)	0	0	0	0	0
FDOT (2025)	0	0	0	0	0
FDOT	0	0	0	0	0

(2026)					
--------	--	--	--	--	--

**Bridge and Pavement.** Bridge and Pavement (PM 2) is the second national goal identified in 23 CFR 490.307 and 23 CFR 490.407 and was finalized in May 2017 and published in the *Federal Register*. The rule requires TPOs to set targets for the following bridge and pavement related performance measures and report progress to the State DOT. These performance measures were adopted again in 2023 and do not need to be adopted again until 2027.

- Percent of Interstate Pavements in Good Condition;
- Percent of Interstate Pavements in Poor Condition;
- Percent of Non-Interstate National Highway System Pavements in Good Condition;
- Percent of Non-Interstate National Highway System Pavements in Poor Condition;
- Percent of National Highway System Bridges classified as in Good Condition by Deck Area; and
- Percent of National Highway System Bridges classified as in Poor Condition by Deck Area.

**System Performance.** System Performance (PM3) was the third national goal identified in 23 CFR 490.507 and 23 CFR 490.607 and was also finalized in May 2017 and published in the *Federal Register*. The rule requires TPOs to set targets for the following system performance related performance measures and report progress to the State DOT.

- Percent of Person Miles Traveled on Interstate System that is reliable;
- Percent of Person Miles Traveled on Non-Interstate National Highway System that is reliable; and
- Truck Travel Time Reliability Index.

Whereas, Safety Targets are established annually by the TPO by February 27<sup>th</sup>, Targets for Pavement, Bridge, and System Performance were adopted on September 26, 2018 by Resolution 18-12 for targets in 2021 which supported the FDOT targets and were adopted again in 2023 by Resolution 23-08 on April 19, 2023 and do not need to be adopted again until 2027. FDOT targets for 2021 for Pavement are:  $\geq 60$  for Percent of Interstate Pavements in Good Condition,  $\leq 5$  for Percent of Interstate Pavements in Poor Condition;  $\geq 40$  for Percent of Non-Interstate National Highway System Pavements in Good Condition; and  $\leq 5$  for Percent on Non-Interstate National Highway System Pavements in Poor Condition. FDOT targets for 2021 for Bridges are:  $\geq 50$  for Percent of National Highway System Bridges Classified as in Good Condition by Deck Area and  $\leq 10$  for Percent of National Highway System Bridges Classified as in Poor Condition by Deck Area.

FDOT's 2021 targets for System Performance are:  $\geq 70$  for Percent of Person Miles Traveled on Interstate System that is Reliable;  $\geq 50$  for Percent of Person Miles Traveled on Non-Interstate National Highway System that is Reliable; and  $\leq 2$  for Truck Travel Time Reliability Index

FDOT targets for 2025 for Pavement are:  $\geq 60$  for Percent of Interstate Pavements in Good Condition,  $\leq 5$  for Percent of Interstate Pavements in Poor Condition;  $\geq 40$  for Percent of Non-Interstate National Highway System Pavements in Good Condition; and  $\leq 5$  for Percent on Non-Interstate National Highway System Pavements in Poor Condition. FDOT targets for 2025 for Bridges are:  $\geq 50$  for Percent of National Highway System Bridges Classified as in Good Condition by Deck Area and  $\leq 10$  for Percent of National Highway System Bridges Classified as in Poor Condition by Deck Area. FDOT's 2025 targets for System Performance are:  $\geq 70$  for Percent of Person Miles Traveled on Interstate System that is Reliable;  $\geq 50$  for Percent of Person Miles Traveled on Non-Interstate National Highway System that is Reliable; and  $\leq 2$  for Truck Travel Time Reliability Index (see Bay County TPO Bridge, Pavement, and System Performance Tables).

### Bay County TPO Bridge Targets

Entity	Percent of NHS Bridges classified as in Good Condition by Deck Area		Percent of NHS Bridges classified as in Poor Condition by Deck Area	
	2 Year (2019)	4 Year (2021)	2 Year (2019)	4 Year (2021)
FDOT	$\geq 50$	$\geq 50^*$	$\leq 10$	$\leq 10^*$

\*TPO only required to adopt 4-year targets. Adopted by Resolution 18-12 on September 26, 2018.

Entity	Percent of NHS Bridges classified as in Good Condition by Deck Area		Percent of NHS Bridges classified as in Poor Condition by Deck Area	
	2 Year (2023)	4 Year (2025)	2 Year (2023)	4 Year (2025)
FDOT	$\geq 50$	$\geq 50^*$	$\leq 10$	$\leq 5^*$

\*TPO only required to adopt 4-year targets. Adopted by Resolution 23-08 on April 19, 2023. However, FDOT adjusted its 4 year targets in 2025 which adopted by Resolution 24-20 on December 9 2024.

### Bay County TPO Pavement Targets

Entity	Percent of Interstate Pavements in Good Condition	Percent of Interstate Pavements in Poor Condition	Percent of Non-Interstate NHS Pavements in Good Condition	Percent of Non-Interstate NHS Pavements in Poor Condition
--------	---	---	---	---

	2 Year (2019)	4 Year (2021)	2 Year (2019)	4 Year (2021)	2 Year (2019)	4 Year (2021)	2 Year (2019)	4 Year (2021)
FDOT	Not Required	≥60*	Not Required	≤5*	≥40	≥40*	≤5	≤5*

\*TPO only required to adopt 4-year targets. Adopted by Resolution 18-12 on September 26, 2018. Please note there are no interstates in Bay County.

Entity	Percent of Interstate Pavements in Good Condition		Percent of Interstate Pavements in Poor Condition		Percent of Non-Interstate NHS Pavements in Good Condition		Percent of Non-Interstate NHS Pavements in Poor Condition	
	2 Year (2023)	4 Year (2025)	2 Year (2023)	4 Year (2025)	2 Year (2023)	4 Year (2025)	2 Year (2023)	4 Year (2025)
FDOT	≥60	≥60*	≤5	≤5*	≥40	≥40*	≤5	≤5*

\*TPO only required to adopt 4-year targets. Adopted by Resolution 23-08 on April 19, 2023. Please note there are no interstates in Bay County.

### Bay County TPO System Performance Targets

Entity	Percent of Person Miles Traveled on Interstate System that is Reliable		Percent of Percent of Person Miles Traveled on Non-Interstate System that is Reliable		Truck Travel Time Reliability Index	
	2 Year (2019)	4 Year (2021)	2 Year (2019)	4 Year (2021)	2 Year (2019)	4 Year (2021)
FDOT	75	≥70*	Not Required	≥50*	1.75	≤2.0*

\*TPO only required to adopt 4-year targets. Adopted by Resolution 18-12 on September 26, 2018. Please not there are no interstates in Bay County.

Entity	Percent of Person Miles Traveled on Interstate System that is Reliable		Percent of Percent of Person Miles Traveled on Non-Interstate System that is Reliable		Truck Travel Time Reliability Index	
	2 Year (2023)	4 Year (2025)	2 Year (2023)	4 Year (2025)	2 Year (2023)	4 Year (2025)
FDOT	≥75	≥75*	≥50	≥60*	≤1.75	≤2.0*

\*TPO only required to adopt 4-year targets. Adopted by Resolution 23-08 on April 19, 2023. Please not there are no interstates in Bay County. However, FDOT adjusted its 4 year targets in 2025 which adopted by Resolution 24-20 on December 9 2024.

**Transit Asset Management (TAM).** The TPO is also required to adopt State of Good Repair Performance Measures for Transit Asset Management (TAM). The TAM rule from the Federal Transit Administration became effective on October 1,

2016. The rule requires TPOs to set targets for the following transit related performance measures and report progress to the State DOT.

- Rolling Stock (Percentage of revenue vehicles that have met or exceeded their Useful Life Benchmark);
- Equipment (Percentage of non-revenue, support-service vehicles and maintenance vehicles that have met or exceeded their Use Life Benchmark);
- Facilities (Percentage of facilities within an asset class rated below condition 3 on the Transit Economics Requirements Model Scale); and
- Infrastructure. (Percentage of track segments with performance restrictions).

Similarly, TAM targets were adopted by the TPO on September 26, 2018 by Resolution 18-13 which supported the FDOT targets and are adopted annually by the transit provider. The TPO must reference the TAM targets annually in the TIP. The Infrastructure category does not apply to the TPO since there is no rail fixed guideway track in the TPO area. The Rolling Stock category consists of Buses and Cutaway Buses. The targets for these categories are Buses (20 Percent or less) and Cutaway Buses (20 Percent or less). The Equipment category consists of Vans and Trucks. The targets for these categories are Vans (20 Percent or less) and Trucks (20 Percent or less). Facilities category consists of Administration and Maintenance. The targets for these categories are Administration (25 Percent or less) and Maintenance (25 Percent or less) (See Bay County TPO Transit Asset Management (TAM) Table).

**Bay County TPO Transit Asset Management (TAM) Targets**

Entity	Percent of Revenue Vehicles that have met or exceed their Useful Life Benchmark		Percent of Service Vehicles that have met or exceed their Useful Life Benchmark		Percent of FTA-funded facilities with a condition rating below 3.0 (Good) on the FTA Transit Economic Modal Scale	
	Buses	Cutaway Buses	Vans	Trucks	Administration	Maintenance
Bay County (2018)*	20%” or less	20%” or less	20%” or less	20%” or less	25%” or less	25%” or less
Bay County (2019)	20%” or less	20%” or less	20%” or less	20%” or less	25%” or less	25%” or less
Bay County (2020)	20%” or less	20%” or less	20%” or less	20%” or less	25%” or less	25%” or less
Bay County (2021)	20%” or less	20%” or less	20%” or less	20%” or less	25%” or less	25%” or less
Bay	20%” or less	20%” or less	20%” or less	20%” or less	25%” or less	25%” or less

County (2022)	less	less	less	less		
Bay County (2023)	38%” or less	20%” or less	20%” or less	22%” or less	25%” or less	25%” or less
Bay County (2024)	20%” or less	20%” or less	20%” or less	20%” or less	25%” or less	25%” or less
Bay County (2025)	34%” or less	43%” or less	20%” or less	20%” or less	25%” or less	25%” or less
Bay County (2026)	7.7%	60%	0%	0%	0%	0%

\*Adopted by Resolution 18-13 on September 26, 2018.

Public transportation agencies are required to establish and report transit asset management targets annually for the following fiscal year. Each public transit provider or its sponsors must share its targets, TAM, and asset condition information with each TPO in which the transit provider’s projects and services are programmed in the TPO’s TIP.

To the maximum extent practicable, transit providers, states, and TPOs must coordinate with each other in the selection of performance targets.

The TAM rule defines two tiers of public transportation providers based on size parameters. Tier I providers are those that operate rail service or more than 100 vehicles in all fixed route modes, or more than 100 vehicles in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes, or have 100 vehicles or less in one non-fixed route mode. A Tier I provider must establish its own transit asset management targets, as well as report performance and other data to FTA. A Tier II provider has the option to establish its own targets or to participate in a group plan with other Tier II providers whereby targets are established by a plan sponsor, typically a state DOT, for the entire group.

A total of 20 transit providers participated in the FDOT Group TAM Plan and continue to coordinate with FDOT on establishing and reporting group targets to FTA through the National Transit Database (NTD) (See Table below). The participants in the FDOT Group TAM Plan are comprised of the Section 5311 Rural Program and open-door Section 5310 Enhanced Mobility of Seniors & Individuals with Disabilities FDOT subrecipients. The Group TAM Plan was adopted in October 2018 and covers fiscal years 2018-2019 through 2021-2022. Updated targets were submitted to NTD in 2019.

**Florida Group TAM Plan Participants**

District	Participating Transit Providers	
1	Hendry County Central Florida Regional Planning Council	
2	Suwannee Valley Transit Authority Suwannee River Economic Council Baker County Council on Aging Nassau County Council on Aging/Transit Ride Solution (Putnam County)	Levy County Transit Big Bend Transit
3	Tri-County Community Council Big Bend Transit Gulf County ARC Calhoun County Senior Citizens Association	Liberty County Transit JTRANS Wakulla Transit
4	<i>No participating providers</i>	
5	Flagler County Public Transportation Sumter Transit Marion Transit	
6	Key West Transit	
7	<i>No participating providers</i>	

The TPO has the following Tier I and Tier II providers operating in the region:

- Tier I: none
- Tier II: Bayway and Bayway On Demand

The Bay County TPO is served by two Tier II transit service providers: Bayway and Bayway On Demand. These providers are not part of the FDOT Group TAM Plan and, therefore are responsible for reporting targets to NTD.

The statewide group TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities over the next year. The targets reflect the most recent data available on the number, age, and condition of transit assets, and expectations and capital investment plans for improving these assets during the next fiscal year.

As required by FTA, FDOT will update their respective TAM Plan at least once every four years. FDOT will update the statewide performance targets for the participating agencies on an annual basis and will notify the participating transit agencies and the TPOs in which they operate when the targets are updated.

**Public Transit Safety Performance.** The Federal Transit Administration (FTA) Public Transportation Agency Safety Plan (PTASP) rule established transit safety performance management requirements for certain providers of public transportation that receive federal financial assistance. The PTASP rule requires

operators of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53 to develop and implement a PTASP based on a safety management systems approach. Development and implementation of PTSAPs is anticipated to help ensure that public transportation systems are safe nationwide.

The rule applies to all operators of public transportation that are a recipient or sub-recipient of FTA Urbanized Area Formula Grant Program funds under 49 U.S.C. Section 5307, or that operate a rail transit system that is subject to FTA's State Safety Oversight Program. The rule does not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations that are regulated by the United States Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

The transit agency sets targets in the PTASP based on the safety performance measures established in the National Public Transportation Safety Plan (NPTSP). The required transit safety performance measures are:

1. Total number of reportable fatalities.
2. Rate of reportable fatalities per total vehicle revenue miles by mode.
3. Total number of reportable injuries.
4. Rate of reportable injuries per total vehicle revenue miles by mode.
5. Total number of reportable safety events.
6. Rate of reportable events per total vehicle revenue miles by mode.
7. System reliability - Mean distance between major mechanical failures by mode.

Each provider of public transportation that is subject to the rule must certify it has a PTASP, including transit safety targets for the above measures, in place no later than July 20, 2020. However, on April 22, 2020, FTA issued a Notice of Enforcement Discretion that extends the PTASP deadline to December 31, 2020 due to the extraordinary operational challenges presented by the COVID-19 public health emergency.

Once the public transportation provider establishes targets, it must make the targets available to TPOs to aid in the planning process. TPOs have 180 days after receipt of the PTASP targets to establish transit safety targets for the TPO planning area. In addition, the Bay County TPO must reflect those targets in any LRTP and TIP updated on or after July 20, 2021. The transit safety targets need to be adopted annually by the transit provider. The TPO must reference the transit safety targets annually in the TIP.

In Florida, each Section 5307 and 5311 transit provider must develop a System Safety Program Plan (SSPP) under Chapter 14-90, Florida Administrative Code. FDOT technical guidance recommends that Florida’s transit agencies revise their existing SSPPs to be compliant with the new FTA PTASP requirement.

The Targets for Transit Safety Measures were approved by the TPO on January 13, 2021 by Resolution 21-06: Demand Response (DR) and Fixed Route (FR): Fatalities = (FR) 0; (DR) 0; Fatalities per Revenue Mile = (FR) 0/0; (DR) 0/0; Injuries = (FR) 7; (DR) 1; Injuries per Revenue Mile = (FR) 1/177,228; (DR) 1/229,935; Safety Events = (FR) 5;(DR) 0; Safety Events per Revenue Mile = (FR) 1/106,337; and (DR) 0/0; System Reliability = (FR) 27,179 Miles; and (DR) 86,768 Miles.

### Transit Safety Performance Targets

Mode of Service	Fatalities (Total)	Fatalities per Revenue Mile (Rate)	Injuries (Total)	Injuries per Revenue Mile (Rate)	Reportable Events (Total)	Reportable Events per Revenue Mile (Rate)	Mean Distance between Mechanical Failures (System Reliability)
Fixed Route (FR) (2021)*	0	0/0	7	1/177,228	5	1/106,337	27,179 Miles
Demand Response (DR) (2021)*	0	0/0	1	1/229,935	0	0/0	86,768 Miles
Fixed Route (FR) (2022)	0	0/0	15	1/100,000	4	1/150,000	75,000 Miles
Demand Response (DR) (2022)	0	0/0	0	1/234,112	0	1/234,112	100,000 Miles
Fixed Route (FR) (2023)	0	0/0	1	1/494,953	2	2/494,953	164,984 Miles
Demand Response (DR) (2023)	0	0/0	1	1/257,265	1	1/257,256	85,755 Miles
Fixed Route (FR) (2024)	0	0/0	1	1/482,464	4	4/482,464	80,411 Miles
Demand Response (DR) (2024)	0	0/0	1	1/301,575	0	0/301,575	75,394 Miles
Fixed Route (FR) (2025)	0	0/0	12	3/100,000	4	1/150,000	75,000 Miles

Demand Response (DR) (2025)	0	0/0	0	1/ 234,112	0	1/ 234,112	100,000
Fixed Route (FR) (2026)	0	0/0	2	0.41/ 100,000	3	0.61/ 100,000	122,990
Demand Response (DR) (2026)	0	0/0	0	0/ 100,000	0	0/ 100,000	134,974

\*Adopted by Resolution 21-06 on January 13, 2021.

**Safety.** For the Bay County TPO, this includes the Safe Routes to School and the Bay County Community Traffic Safety Team Programs; and Bridge, Capacity, Bicycle/Pedestrian, Transportation Alternative, Transportation System Management, Public Transportation, Resurfacing, Aviation, Port, and other Miscellaneous categories in the TIP. The expectation of the TIP projects in each of these categories is to improve safety and to reduce fatalities once these projects are constructed for highway, sidewalk, bicycle lane, and multi-use path, and transit improvements. The Florida SHSP and the Florida Transportation Plan (FTP) both highlight the commitment to a vision of zero deaths. The FDOT Florida Highway Safety Improvement Program (HSIP) annual report documents the statewide interim performance measures toward that zero deaths vision. As such, the TPO is supporting the adoption of the FDOT statewide HSIP interim safety performance measures and FDOT’s safety targets, which set the target at “0” for each performance measure to reflect the Department’s goal of zero deaths. The TIP considers potential projects that fall into specific investment priorities established by the TPO in the Long-Range Transportation Plan (LRTP). For the Bay County TPO, this includes safety programs such the Bay County Community Traffic Safety Team (CTST) and Safe Routes to Schools (SRTS) Team and address infrastructure or behavior safety. Infrastructure examples: Installation of school flashing signals, roadway lighting, traffic calming, traffic signals. Behavioral safety examples: SRTS education/enforcement activities, pedestrian/bicycle safety education. The TIP includes specific investment priorities that support all of the TPO’s goals including safety, using a prioritization and project selection process established in the LRTP. This process evaluates projects that have an anticipated effect of reducing both fatal and injury crashes. The TPO’s goal of reducing fatal and serious injury crashes is linked to this investment plan and the process used in prioritizing the projects is consistent with federal requirements. The TPO will continue to coordinate with FDOT and transit providers to take action on the additional targets and other requirements of the federal performance management process.

**Bridge and Pavement.** The focus of Bay County TIP’s investments for bridge and pavement condition includes Bridge, Roadway Capacity, and Resurfacing projects.

These improvements include pavement replacement or reconstruction (on the NHS); new lanes or widenings of NHS facilities, including resurfacing existing NHS lanes associated with new capacity; bridge replacement or reconstruction; new bridge capacity on the NHS; and system resiliency projects that improve NHS bridge components (e.g., upgrading culverts). The Bay County TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the statewide pavement and bridge performance targets. The Bridge Projects identified in the TIP will maintain the bridges classified in Good Condition and assist in improving the bridges classified in Poor Condition. Resurfacing Projects in the TIP will assist in improving the Interstate and Non-Interstate National Highway System pavements that are classified in Poor Condition as well as improving reliability of freight movement for interstate and Non-Interstate National Highway System roadways. System preservation is one of the Federal Planning Factors and the Objectives in the 2045 Long Range Transportation support this Planning Factor are: Objectives 3.1, 3.4, 3.5, 3.6, 4.1, 4.2, 4.3, 4.4, 4.5, 4.6, 5.1, 5.3, 5.4, 5.5, 5.6, 5.7, 5.9, and 8.3. Some of the bridges mentioned in the 2045 LRTP that need to be annually monitored are the DuPont Bridge and Mill Bayou Bridge on SR 390. This corresponds to the 2045 Long Range Transportation Plan Objective 3.4. The focus of Bay County TPO's investments in bridge and pavement condition include:

- Pavement replacement or reconstruction (on the NHS)
- New lanes or widenings of NHS facilities, including resurfacing existing NHS lanes associated with new capacity
- Bridge replacement or reconstruction
- New bridge capacity on the NHS.

The focus of Bay County TPO's investments that address system performance and freight include programs and strategies or major projects funded in the TIP and the LRTP that address system performance and freight on the Interstate and non-Interstate NHS in the TPO area, such as those in the following categories:

- Corridor Management/ Complete Street improvements
- Intersection improvements (on NHS roads)
- Investments in transit, bicycle, or pedestrian systems that promote mode shift
- Freight improvements (Interstate) that increase reliability (could include improved weigh stations, addressing identified truck bottlenecks on the Interstate, etc.).
- TSMO/ITS projects or programs

**Transit Asset Management (TAM).** The Transit Projects identified in the Bay County TIP will assist in keeping the transit vehicles and facilities in State of Good Repair. The LRTP also contained a multimodal Cost Feasible Plan scenario that contained several transit projects and box funds for transit capital funds. However, only the boxed funds made it to the Cost Feasible Plan, These dollars and the Federal Transit Administration dollars identified in the Long Range Transportation help maintain the vehicles and facilities in the State of Good Repair.

The TIP includes specific investment priorities that support the TPO's goals including safety, efficiency, connectivity, economic vitality, security, quality of life, and the planning process which guide the Evaluation Criteria. The Evaluation Criteria in the LRTP filters down to Project Priorities, and the TIP.

As identified in CFR 450.326(d), a description of the anticipated effect of the TIP toward achieving the performance targets in the metropolitan transportation plan was included in the 2045 Long Range Transportation Plan which was adopted on June 16, 2021. The 2045 Long Range Transportation Plan also included a Systems Performance Report for Performance Measures.

### **Project Costs:**

Appendix C is a status report for on-going projects. In addition, detailed projects costs for SIS and Non-SIS facilities are described below.

### **Projects on the Strategic Intermodal System (SIS)**

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects on the SIS will have historical costs, five years of the current TIP and five years beyond the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational project, there may not be a total cost provided but rather additional details on that program.

The SIS is a network of high priority transportation facilities which includes the state's largest and most significant commercial service airports, spaceport, deepwater seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways and highways. All projects on the SIS will have a SIS identifier on the TIP page.

For costs beyond the ten year window, access to the Long Range Transportation Plan (LRTP) is provided. The link to the LRTP is [https://www.ecrc.org/programs/transportation\\_planning/bay\\_county\\_tpo/plans\\_and\\_documents/long\\_range\\_transportation\\_plan/index.php#](https://www.ecrc.org/programs/transportation_planning/bay_county_tpo/plans_and_documents/long_range_transportation_plan/index.php#). The LRTP reference on the TIP page provides the information necessary to locate the full project costs and/or additional details regarding the project in the LRTP. When the LRTP reference in the TIP states modification and \ or amendment report, the most recent report is used.

### **Non SIS projects**

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects not on the SIS will have historical costs and five years of the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

Total project costs and other project details will be accessible in the TIP for all non SIS projects in the TIP. All projects not on the SIS will have a Non-SIS identifier on the TIP page.

For costs beyond the five year window, access to the Long Range Transportation Plan (LRTP) is provided. The link to the LRTP is [https://www.ecrc.org/programs/transportation\\_planning/bay\\_county\\_tpo/plans\\_and\\_documents/long\\_range\\_transportation\\_plan/index.php#](https://www.ecrc.org/programs/transportation_planning/bay_county_tpo/plans_and_documents/long_range_transportation_plan/index.php#). The LRTP reference on the TIP page provides the information necessary to locate the full project costs and/or additional details regarding the project in the LRTP. If there is no LRTP reference in the TIP, full project costs are provided in the TIP. When the LRTP reference in the TIP states modification and \ or amendment report, the most recent report is used.

**Indirect Costs** - The indirect costs are calculated at a set rate that FHWA approves. These are FDOT expenses, like salaries, that support each transportation project and are included in total project costs. The state funded indirect costs are utilized to satisfy the federal matching requirements necessary to obtain the federal funds for the projects.

**DISCLAIMER:** The “Total Project Cost” amount displayed for each of the federal and state funded projects in the TIP represents 10 years of programming in the Florida Department of Transportation’s (FDOT’s) Work Program database for projects on the Strategic Intermodal System (SIS) (FYs 2027 through 2036), and 5 years of programming in the FDOT Work Program for non-SIS projects (FYs 2027 through 2031), plus historical cost information for all projects having expenditures paid by FDOT prior to FY2027.

For a more comprehensive view of a particular project's anticipated total project cost for all phases of the project, please refer to the Long Range Transportation Plan (LRTP). It should be noted, however, that some projects in the FDOT Work Program such as resurfacing, safety, or operational products may not be specifically referenced within the LRTP due to their short term nature. LRTP references to such projects in the TIP are referenced by LRTP Final Report Page Number. These LRTP references are intended to increase transparency and demonstrate consistency between the LRTP and TIP. The link to the LRTP is [https://www.ecrc.org/programs/transportation\\_planning/bay\\_county\\_tpo/plans\\_and\\_documents/long\\_range\\_transportation\\_plan/index.php#](https://www.ecrc.org/programs/transportation_planning/bay_county_tpo/plans_and_documents/long_range_transportation_plan/index.php#).

In summary, the adopted FY 2027-2031 TIP Resolution is included on the next page. The list of projects by categories listed in the Table of Contents are included in the preceding pages as well. Lastly, the Appendices referenced in this narrative and Table of Contents follows the list projects with the final Appendix being the process on how the FY 2027-2031 TIP was developed and the comments that were received and well as the TPO Staff’s responses to the comments.

**RESOLUTION BAY 26-09**

**A RESOLUTION OF THE BAY COUNTY  
TRANSPORTATION PLANNING ORGANIZATION  
ADOPTING THE FISCAL YEAR 2027-2031  
TRANSPORTATION IMPROVEMENT PROGRAM**

**WHEREAS**, the Bay County Transportation Planning Organization (TPO) is the organization designated by the Governor of the State of Florida as being responsible, together with the State of Florida, for carrying out the continuing, cooperative and comprehensive transportation planning process for the Bay County TPO Planning Area; and

**WHEREAS**, the Transportation Improvement Program (TIP) is adopted annually by the TPO and submitted to the Governor of the State of Florida, to the Federal Transit Administration, and through the State of Florida to the Federal Highway Administration; and

**WHEREAS**, the Transportation Improvement Program (TIP) is developed in accordance with 23 Code of Federal Regulations 450 Section 134(j) and Section 339.175(8) Florida Statutes; and

**WHEREAS**, the TIP is periodically amended to maintain consistency with the Florida Department of Transportation Work Program; and

**WHEREAS**, authorization for federal funding of projects within an urbanized area cannot be obtained unless the projects are included in the TPO's TIP; and

**WHEREAS**, the Bay County Transportation Planning Organization (TPO) believes the TIP will support the performance targets established by the State and supported by the TPO.

**NOW, THEREFORE, BE IT RESOLVED BY THE BAY COUNTY TRANSPORTATION PLANNING ORGANIZATION THAT:**

The TPO adopts the FY 2027-2031 Transportation Improvement Program.

Passed and duly adopted by the Bay County Transportation Planning Organization on the 27<sup>th</sup> day of May 2026.

**BAY COUNTY TRANSPORTATION  
PLANNING ORGANIZATION**

# **Appendix A**

## **Acronyms/Definitions**

**BIL/IIJA** Bipartisan Infrastructure Law/Infrastructure Investment and Jobs Act.

**BPAC** Bicycle/Pedestrian Advisory Committee: Advisory committee utilized by metropolitan planning organizations (MPOs) for specialized citizen input into the transportation planning process.

**CAC** Citizens' Advisory Committee: Advisory committee utilized by most metropolitan planning organizations (MPOs) for citizen input into the transportation planning process.

**CFR** Code of Federal Regulations: Compilation of the rules of the executive department and agencies of the federal government

**CMAQ** Congestion Mitigation and Air Quality Improvement Program: A new categorical funding program created under ISTEA which directs funding to projects that contribute to meeting national air quality standards in non-attainment areas for ozone and carbon monoxide.

**CMPP** Congestion Management Process Plan: This plan assists decision-makers in selecting cost effective, short term strategies to enhance the mobility of people and goods by rating the performance of existing transportation facilities

**CTC** Community Transportation Coordinators: People contracted by the Transportation Disadvantaged Commission to provide complete, cost-effective and efficient transportation services to transportation disadvantaged (TD) persons.

**CTST** Community Traffic Safety Team: Florida's Community Traffic Safety Teams (CTSTs) are locally based groups of highway safety advocates who are committed to solving traffic safety problems through a comprehensive, multi-jurisdictional, multi-disciplinary approach. Members include local city, county, state, and occasionally federal agencies, as well as private industry representatives and local citizens.

**DEO** Department of Economic Opportunity: State land planning and community development agency responsible for a number of programs, including Chapters 163 and 380 of the Florida Statutes (F.S.).

**DEP** Florida Department of Environmental Protection: State agency responsible for the implementation of most of Florida's environmental regulations, including air monitoring and assessment; formerly the Departments of Natural Resources and Environmental Regulation.

**ECAT** Escambia County Area Transit: Public transportation system.

**EMO** Environmental Management Office: The office at the Florida Department of Transportation responsible for protecting and enhancing a sustainable human and natural environment while developing safe, cost effective, and efficient transportation systems.

**EPA** Environmental Protection Agency: A federal agency responsible for dealing with national environmental issues.

**FAA** Federal Aviation Administration: Federal entity responsible for overseeing air commerce, air traffic control, noise abatement and other related issues.

**FAST** Fixing America's Surface Transportation Act. Federal legislation that was signed into law on December 4 2015 that funds surface transportation programs at over \$300 billion for fiscal years 2016 through 2020.

**FDOT** Florida Department of Transportation: State agency responsible for transportation issues and planning in Florida.

**FHWA** Federal Highway Administration: Division of the U.S. Department of Transportation responsible for administering federal highway transportation programs.

**F.S.** Florida Statutes: Documents in which Florida's laws are found.

**FTA** Federal Transit Administration: A statewide, comprehensive transportation plan which establishes long-range goals to be accomplished over a 20-25 year time frame; developed by Florida Department of Transportation (FDOT); updated on an annual basis.

**FTP** Florida Transportation Plan: A statewide, comprehensive transportation plan which establishes long-range goals to be accomplished over a 20-25 year time frame; developed by Florida Department of Transportation (FDOT); updated on an annual basis.

**FY** Fiscal Year: A budget year; runs from July 1 through June 30 for the state of Florida, and from October 1 through September 30 for the federal government.

**ICE** Intergovernmental Coordination Element: Required element of a local government comprehensive plan addressing coordination between adjacent local governments, and regional and state agencies; requirements for content are found in Rule 9J-5.015, F.A.C. and 163.3177(6)(h), F.S.

**ITS** Intelligent Transportation System: The use of computer and communications technology to facilitate the flow of information between traveler and system operators to improve mobility and transportation productivity.

**JPA** Joint Participation Agreement: Legal instrument describing intergovernmental tasks to be accomplished and/or funds to be paid between government agencies. **K** Design Hour Factor: Used to convert daily traffic counts to hourly traffic counts, and annual average traffic counts to peak season traffic counts; most road are designed for peak hour, peak season traffic counts. **LDR** Land Development Regulations: Local development regulations used to implement comprehensive plans; required by 9J-5.006, F.A.C. and Chapter 163.3177(6)(a), F.S.

**LAP** Local Agency Program: Agreement negotiated between a Local Agency and FDOT allocating Federal funds to a transportation project.

**LRC** Long Range Component: The part of the Florida Transportation Plan (FTP) that addresses a time span of about 20 years; updated at least every five years to reflect changes in the issues, goals and long range objectives.

**LRTP** Long Range Transportation Plan: A 20 year forecast plan required of state planning agencies and TPO/MPOs; it must consider a wide range of social, environmental, energy and economic factors in determining overall regional goals and consider how transportation can best meet these goals.

**MAP 21** Moving Ahead for Progress in the 21<sup>st</sup> Century Act. Federal legislation that was signed into law on July 6, 2012 that funds surface transportation programs at over \$105 billion for fiscal years 2013 and 2014.

**MPO** See TPO

**MPOAC** Metropolitan Planning Organization Advisory Council: An advisory council, consisting of one member from each TPO, which serves the principal forum for collaborative policy discussion in urban areas; it was created by law to assist the TPO/MPOs in carrying out the urbanized area transportation planning process.

**NHS** National Highway System: Specific major roads to be designated by September 30, 1995; the NHS will consist of 155,000 (plus or minus 15%) miles of road and represents one category of roads eligible for federal funds under ISTEA.

**RTPO** Regional Transportation Planning Organization:

**ROW** Right-of-Way: Real property that is used for transportation purposes; defines the extent of the corridor that can be used for the road and associated drainage.

**RPC** Regional Planning Council: A multipurpose organization composed of representatives of local governments and appointed representatives from the geographic area covered by the council, and designated as the primary organization to address problems and plan solutions that are of greater than local concern or scope; currently 11 regional planning councils exist in Florida.

**SAFETEA-LU** Safe, Accountable, Flexible, and Efficient Transportation Equity Act, a Legacy for Users: Federal legislation that was signed into law on August 10<sup>th</sup> 2005. This legislation built upon the ISTEA and TEA-21 premises but advocated a new direction in transportation planning, as evidenced by its name.

**SIS** Strategic Intermodal System: The SIS is a transportation system that is made up of statewide and regionally significant facilities and services (strategic), that contains all forms of transportation for moving both people and goods, including linkages that provide for smooth and efficient transfers between modes and major facilities (intermodal), and that integrates individual facilities, services, forms of transportation (modes) and linkages into a single, integrated transportation network (system)

**SRTS** Safe Routes to School: The Safe Routes to School Program (SRTS) was authorized in August 2005 by Section 1404 of the federal transportation act, SAFETEA-LU (the *Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users*). SRTS funds are administered through the seven FDOT Districts and overseen by the State Safe Routes to School Coordinator Program guidelines and other program documents have been developed to create a competitive application process for infrastructure projects and non-infrastructure programs.

**STIP** State Transportation Improvement Program: A staged, multiyear, statewide, intermodal program that is consistent with the state and metropolitan transportation plans; identifies the priority transportation projects to be done over the next three years; is developed by the Florida Department of Transportation (FDOT) and must be approved by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) at least every two years.

**TAP** Transportation Alternatives Program. Provides funding for programs and projects defined as transportation alternatives, including on and off road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility, community improvement activities, and environmental mitigation, recreational trail program projects, safe routes to school projects, and projects for the planning design or construction of boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divided highways.

**TCC** Technical Coordinating Committee: A standing committee of most metropolitan planning organizations (MPOs); function is to provide advice on plans or actions of the MPO from planners, engineers and other staff members (not general citizens.)

**TD** Transportation Disadvantaged: People who are unable to transport themselves or to purchase transportation due to disability, income status or age.

**TDP** Transit Development Program: A plan developed by the transit operator and endorsed by the TPO; it addresses public transportation needs, operations, services, and contains a financial plan. The plan has a 10-year horizon, with a major update every five years, and it also requires annual updates.

**TDSP** Transportation Disadvantage Service Plan: A five year plan which reviews the need for Transportation Disadvantaged services, goals, objectives, and performance measures; it is updated annually.

**TIP** Transportation Improvement Program: A priority list of transportation projects developed by a metropolitan planning organization that is to be carried out within the five year period following its adoption; must include documentation of federal and state funding sources for each project and be consistent with adopted local comprehensive plans.

**TPO (MPO)** Transportation or Metropolitan Planning Organization: The forum for cooperative transportation decision-making; required for urbanized areas with populations over 50,000.

**TSM** Transportation Systems Management: Strategies to improve the efficiency of the transportation system through operational improvements such as the use of bus priority or reserved lanes, signalization, access management, turn restrictions, etc.

**UPWP** Unified Planning Work Program: Developed by Metropolitan Planning Organizations (MPOs); identifies all transportation and transportation air quality activities anticipated within the next one to two years, including schedule for completing, who is doing it, and products to be produced

### **Federally Obligated Projects for Fiscal Year 2025**

**Bay County Transportation Planning Organization  
Federally Obligated Projects List for Fiscal Year 2025**

**Prepared for**

**Prepared by and staff to the Bay County TPO**

**October 3, 2025**

**Staff Contact**

**Gary Kramer, Transportation Planner IV**

[gary.kramer@ecrc.org](mailto:gary.kramer@ecrc.org)

## **Purpose of this Report:**

The Infrastructure Investment and Jobs Act (IIJ Act) transportation legislation enacted by Congress in November 2021 requires an annual listing of obligated projects{23CFR 450.334} (a) In metropolitan planning areas, on an annual basis, not later than 90 calendar days following the end of the program year, the State, public transportation operator(s), and the MPO shall cooperatively develop a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C. Chapter 53 were Obligated in the preceding program year. (b) The listing shall be prepared in accordance with 450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under 450.326(g)(1) and (4) and identify for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year and the Federal funding remaining and available for subsequent years. (c) The listing shall be published or otherwise made available in accordance with the MPO's public participation criteria.

The purpose of this report is to report Federal funding obligations in the Bay County Transportation Planning Organization (TPO) that took place within the planning area during Fiscal Year (FY) 2024-2025, which covers October 1, 2024 to September 30, 2025. The Federal Highway Administration (FHWA) defines "obligation" as "the federal government's promise to pay a State for the Federal share of a project's eligible cost." Obligated projects were not necessarily initiated or completed during this year. The obligated amounts reflected in this report also may not be equal to the final project cost.

## **Background**

Federal Law requires states and local governments to conduct cooperative, comprehensive, and continuing ("3-C") transportation planning to receive federal funds for highway and transit improvements. and an interlocal agreement in 1981, following the 1980 Census. The TPO Planning Area includes all of Bay County. The current interlocal agreement was approved on February 15, 2015 (Resolution Bay 15-02). Apportionment of membership was approved by the TPO on June 26, 2013. An updated apportionment of membership was approved by the TPO on August 2, 2023,

submitted and approved by the governor on August 8, 2024. However, the board membership and composition did not change.

According to Section 339.175, Florida Statutes, TPO board members shall be local elected officials. The current membership of the Bay County TPO is made up of:

- Five (5) members from Bay County Commission
- Five (5) members from Panama City Commission
- Two (2) members from Callaway City Commission
- Two (2) members from Panama City Beach City Commission
- Two (2) members from Lynn Haven City Commission
- One (1) member from Parker City Commission
- One (1) member from Springfield City Commission
- One (1) member from Mexico Beach City Commission

The Emerald Coast Regional Council (ECRC) provides the designated professional staff to the Bay County TPO and performs the work required to maintain the continuing, cooperative and comprehensive (3-C) planning process. The ECRC serves seven (7) counties and is unique in its role in staffing three (3) separate TPOs (MPOs) in West Florida. A staff services agreement between the Bay County TPO and the ECRC, originally established in August 1981 establishes this staffing arrangement.

This report contains the following information: Florida Department of Transportation's Annual Obligations Report, and Public Transportation's Annual Obligations Report.

Appendix B – Public Outreach Report and Public Comments

Appendix C – Resolution BAY 25-09

## INTRODUCTION

The Bay County Transportation Planning Organization (TPO), staffed by the Emerald Coast Regional Council, is tasked with developing Project Priorities. Project Priorities, which are essentially the Cost Feasible Plan element of the Long Range Transportation Plan (LRTP), are usually approved in May each year and are due to the State Department of Transportation by August 1<sup>st</sup>. The adopted Project Priorities are used by the State Department of Transportation to develop a five-year Work Program. This five-year Work Program is then used by the TPO to develop its five-year Transportation Improvement Program (TIP). The TIP is also adopted by the TPO at its May meeting each year. The chart below explains the process identified above.

The projects listed in this Project Priorities document are identified by the following tables:

- Capacity Projects (Tables 1-2).
- Transportation System Management Projects (Tables 3).
- Transportation Alternatives Projects (Table 4).
- Public Transportation Related Projects (Table 5).
- Aviation Projects (Table 6).
- Port Projects (Table 7).
- SUN Trail Projects (Table 8).

#### **METHODOLOGY**

- Capacity projects are based on the 2045 LRTP. Completed projects are removed from the list, projects that are scheduled for construction in the first three years are moved to the committed list, and new projects are placed at the end of the priorities list and ranked by cost of the funding set asides and construction projects.
- Transportation System Management Projects are ranked based on TPO approved criteria. Projects were provided by the Florida Department of Transportation.
- Transportation Alternatives Projects are ranked based on TPO approved criteria.
- Public Transportation Related Projects are listed by potential grants and are furnished by the TPO's Public Transportation Staff in consultation with Bayway Staff.
- Aviation Project Priorities are furnished by the Northwest Florida Beaches International Airport.
- Port Project Priorities are provided by Port Panama City.
- SUN Trail Project Priorities were submitted by Bay County and the City of Panama City and are ranked based upon TPO approved criteria.

The Capacity, Transportation System Management, Transportation Alternatives, and SUN Trail Projects have separate Evaluation Criteria to rank projects. The Evaluation Criteria for these four categories are listed in Appendix A. However, **the TPO has the final decision on how the Project Priorities are ranked.**

#### **PUBLIC INVOLVEMENT**

Public Outreach for the FY 2027-2031 Project Priorities took place from March 24, 2025— May 9, 2025 and a Public Outreach Report is included in Appendix B. In addition, two TPO and Advisory Committee workshops (March 5 and April 23, 2025) and one public workshop (April 23, 2025) were in person as well as virtual as part of the development of the FY 2027-2031 Project Priorities. Each of the workshops and the public outreach were advertised in the Florida Administrative Register. An e-mail notice was also sent to the TPO and Advisory Committee Members. News releases were distributed to media outlets and meeting information was promoted through social media sites. Flyers were created and emailed to members of the TPO and advisory committees

Comments from the public involvement opportunities were identified in the TPO and Advisory Committee Members May agenda enclosure. A Public Forum was also held at the TPO meeting in May, but no public comments occurred under the Public Forum. The comments from the public involvement opportunities are included in Appendix B. The Project Priorities Tables from drafts through adoption were posted on the web site for review and comment. The Project Priorities schedule was reviewed at the February TPO Meeting and the Project Priorities were approved at the May TPO Meeting (see Resolution Bay 25-09 in Appendix C) with the following changes:

**Table 1 NON-SIS:**

- Non-SIS Priority #9. US 98 Pedestrian Overpass Structure at Frank Brown Park. Changed to a Feasibility Study for an Underground Pedestrian Structure.

**Table 2 SIS:**

- SIS Priorities #3 US 231 from Pipeline to Penny and #4 SR 390 from SR 77 to US 231. Switched these priorities.
- SIS Priority #5. US 98 at Thomas Dr. Interchange. Changed Thomas Dr. to Navy Boulevard.

<sup>1</sup> Includes adding flyover ramps on US 98 at the intersection of US 231 and on SR 77 (Martin Luther King, Jr. Boulevard) over US 231. Martin Luther King, Jr. Boulevard will be widened from four to six lanes from East 23rd Street to 15th Street. It will bridge over US 231 and the Bay Line Railroad.

<sup>2</sup> Include features such as widening SR 389 (East Avenue) from Sherman Avenue to Baldwin Road and Transmitter Road from C Street to Brooke Lane from two to four lanes. Additionally, a new six lane bridge will be built over Mill Bayou.

**Table 8: FY 27-31 SUN Trail Project Priorities Bay County TPO**

Priority	FDOT WP#	Project	Limits	Description	Phases
1	4456012	Tyndall AFB - Sun Trail Network	Crooked Sound Dr. to Drone Recovery Road	Project will connect SR30 (US98) Multi-Use Path from Crooked Sound Dr to Drone Recovery Road. The Project will extend the Sun Trail 2.5 miles and bring Tyndall AFB into the Sun Trail System.	PE Funded 2026 CST
2	NA	Panama City Sun Trail Program - Phase 2	Intersection of Michigan Ave. and Bay Line Railroad to Southeast of Jenks Ave. & W. 14th St. at the intersection of the Bay Line Railroad tracks.	This 4.13 mile trail is Phase 2 of a multi-phase trail network spanning throughout Panama City. The phase we are requesting funding for begins at the intersection of Michigan Ave. and the Bay Line Railroad tracks and follows the railroad tracks until ending just before the intersection with Jenks Avenue. An additional separate section of Phase 2 begins at the intersection of W. 6th St. and W. Beach Dr. and continues directly north until W. 11th St. The trail then curves right before intersecting with the Bay Line Railroad. This segment will connect to the W. Beach Dr. Multiuse Trail.	PE and CST
3	NA	Panama City Sun Trail Program - Phase 3	Intersection of Pacifica Ave. & Frankford Ave. to Intersection of West Beach Dr. & Frankford Ave.	This 3.17 mile trail is Phase 3 of a multi-phase trail network spanning throughout Panama City. The phase we are requesting funding for begins at the intersection of Frankford Ave. and Pacifica Ave. and proceeds directly south along Frankford Ave. before terminating at W. Beach Dr.	PE and CST
4	NA	Panama City Sun Trail Program - Phase 1	East end of Hathaway Bridge to Intersection of Bay Line Railroad and Michigan Ave.	This 1.57 mile trail is Phase 1 of a multi-phase trail network spanning throughout Panama City. The phase we are requesting funding for begins at the east end of the Hathaway Bridge and terminates at the intersection of the Bay Line Railroad tracks and Michigan Ave.	PE and CST
5	NA	Panama City Sun Trail Program - Phase 4	Intersection of Bayview Ave. & W. 11th St. to Intersection of Frankford Ave. & W. 11th St.	This 0.62 mile trail is Phase 4 of a multi-phase trail network spanning throughout Panama City. The phase we are requesting funding for begins at the intersection of Bayview Ave. and W. 11th St. and continues east on W. 11th St. before terminating at the Frankford Ave. intersection.	PE and CST
6	NA	Panama City Sun Trail Program - Phase 5	Intersection of Cherry St. & Harris Ave. to Intersection of East 11th St. & MLK Blvd.	This 1.97 mile trail is Phase 5 of a multi-phase trail network spanning throughout Panama City. The phase we are requesting funding for begins at the intersection of Cherry St. & Harris Ave. before turning east on 3rd St. and then north on N. Bonita Ave. The route then turns east on Lapaloma Terrace, follows E. 7th St., and continues north on N. Cove Blvd. before terminating on E. 11th St.	PE and CST
7	NA	Panama City Sun Trail Program - Phase 6	MLK Blvd. & E. 11th St. to roughly 800 ft before the intersection of US 231 & Ormond Ave.	This 4.41 mile trail is Phase 6 of a multi-phase trail network spanning all throughout Panama City. The phase requested for funding for begins at the intersection of MLK Blvd. & E. 11th St. going east before turning north on N. East Avenue. The route then turns northeast once reaching US 231 and follows the road until terminating roughly 800 ft before the intersection of US 231 & Ormond Ave.	PE and CST

PE - Preliminary Engineering (Design)  
ROW - Right-of-Way  
CST - Construction

**FULLY FUNDED PROJECTS NOT YET CONSTRUCTED**

## **Appendix A – Evaluation Criteria**

## 2045 LONG RANGE TRANSPORTATION PLAN EVALUATION CRITERIA

Category and Criteria (Description)	Criteria Rating Scale (Lesser Benefit < --- > Higher Benefit)		
<b>Transportation Safety - 20% [Goal 1; Objectives 1.1, 1.3, 1.4, and 6.5]</b>			
<b>Complete Systems (Project assists in providing a completed transportation system)</b> <i>Does the project provide an opportunity to continue completion of the transportation system for all users?</i>	0 No		1 Yes
<b>School Activity (Project within two miles of a public school, private school, or College)</b> <i>Will the project help to improve a school zone or school-related activities (e.g., school crossings, school routes, buses, etc.)?</i>	0 No		1 Yes
<b>Safety Improvement Strategies (Crash Rates based on Signal Four Analytics)</b> <i>Projects ranked from highest to lowest and awarded a graduated point value based on ranking past five years</i>	0 Lowest	0.5 Mid-Range	1 Highest
<b>Identified by Community Traffic Safety Team (Project on the Bay County Community Traffic Safety Team List of Projects)</b> <i>Has the project been identified as a Community Traffic Safety Team Project?</i>	0 No	0.5 < 1 Year	1 1 Year or >
<b>Multimodal Choices and Connections - 15% [Goal 2; Objectives 2.1, 2.2, and 3.6]</b>			
<b>Pedestrian (Project included as a Pedestrian project in the TPO's Bicycle/Pedestrian Plan)</b> <i>To what extent will the project enhance pedestrian and related connections or opportunities?</i>	0 >1/2 mile	0.5 within 1/2 mile	1 Same facility
<b>Bicycle (Project included as a bicycle project in the TPO's Bicycle/Pedestrian Plan)</b> <i>To what extent will the project enhance bicycle and related connections or opportunities?</i>	0 >1 miles	0.5 within 1 mile	1 Same facility
<b>Public Transportation (Project is located on a Bay Towne Trolley Route or a FDOT Park and Ride Lot)</b> <i>To what extent will the project enhance public transportation and related connections or opportunities (e.g., park&amp;ride, bus shelters)?</i>	0 >1/2 mile	0.5 within 1/2 mile	1 Same facility
<b>System Efficiency and Preservation - 10% [Goal 3; Objectives 3.1, 3.2, 3.3, 3.4, and 3.5]</b>			
<b>AADT (2015 FDOT or 2015 Local Government Traffic Counts)</b> <i>What is the estimated daily traffic volume at the project location?</i>	0 0 to <10,000	0.5 10,000 to 20,000	1 >20,000
<b>Route Significance (Project is on the Strategic Intermodal System or National Highway System)</b> <i>Is the project located on the National Highway System or FHHS?</i>	0 No		1 Yes
<b>Existing Deficiency (Regional Transportation Model and TPO's LOS Tables for 2015 or other LOS Analysis)</b> <i>Will the project address one or more deficiencies (e.g., failing LOS, ADA, signal delay, resurfacing, etc.)?</i>	0 <1.0	0.5 1.0 to 1.3	1 >1.3

Category and Criteria (Description)	Criteria Rating Scale (Lesser Benefit < --- > Higher Benefit)		
<b>System Sustainability and Livability - 10% [Goals 4 and 5; Objectives 4.1, 4.3, 4.6, 4.7, 4.8, 5.1, 5.2, 5.5, and 5.7]</b>			
<b>Environmental and Social (PD&amp;E Study and/or FDOT Consultant ETDM Review)</b> <i>To what extent will the project have social or environmental impacts as evaluated through an FDOT PD&amp;E or equivalent study?</i>	0 Substantial	0.5 Moderate	1 Low
<b>Recreational Opportunity (Project is linked to water, campgrounds, parks, and trails)</b> <i>To what extent might the project add, enhance, or otherwise benefit recreational opportunities for residents or visitors?</i>	0 >2miles		1 0 to 2 miles
<b>Local Planning (Project is located in a Local Government Comprehensive Plan or Master Plan)</b> <i>Is the project identified or supported by an existing municipal comprehensive plan or other locally-adopted plan or study?</i>	0 No		1 Yes
<b>Economic Vitality - 15% [Goal 6; Objectives 6.1, 6.4, 6.5, and 6.6]</b>			
<b>Economic Reach (Positive Employment Growth from 2020 to 2045 Traffic Analysis Zones along Corridor)</b> <i>To what extent will the project support planned development or provide economic benefits (e.g. job growth/retention)?</i>	0 No	0.5 >0 to 2%	1 >2%
<b>Base Access (Project on the SIS for Military Access or the Strategic Highway Network (STRAHNET))</b> <i>Does the project improve military base access directly or indirectly (e.g., along a connecting route)?</i>	0 No		1 Yes
<b>Intermodal Goods Movement (Project on the Strategic Intermodal System (SIS) or TPO 's Regional Freight Plan Network)</b> <i>To what extent will the project enhance, expand, or benefit intermodal facilities or opportunities for goods movement?</i>	0 No		1 Yes
<b>Tourism (Project provides for tourism, recreation, or ecotourism enhancement)</b> <i>To what extent does the project promote tourism, recreation, or ecotourism?</i>	0 No		1 Yes
<b>Transportation Security - 10% [Goal 7; Objectives 7.1, 7.2, 7.3, and 7.5]</b>			
<b>Emergency Response (Project on a hurricane evacuation route in the Northwest Florida Hurricane Evacuation Restudy)</b> <i>Will the project directly enhance emergency response or improve emergency access for police, fire, ambulance, major utility center, etc?</i>	0 No		1 Yes
<b>Identified Security Issues (Project is within 2 miles of military installation, airport, port, and local government center)</b> <i>Will the project help to address a previously-identified security issue or concern?</i>	0 None		1 Yes
<b>Service Disruption (Project is within 5 miles of a hurricane evacuation route from the Hurricane Restudy above)</b> <i>Does the proposed project provide alternative routes for natural disaster evacuation?</i>	0 No		1 Yes

Category and Criteria (Description)	Criteria Rating Scale (Lesser Benefit < --- > Higher Benefit)		
<b>Congestion Management - 20% [Goal 8; Objective 8.1]</b>			
<b>Correct Deficiency (Project is deficient in the Existing Plus Committed Network)</b> <i>Will the project appropriately address congestion as identified by studies or other observations?</i>	0 <1.0	0.5 1.0 to 1.3	1 >1.3
<b>Congestion Management Strategies (Volume to Capacity Ratio from the 2045 Needs Plan Network)</b> <i>To what extent will the project incorporate congestion management strategies?</i>	0 <1.3	0.5 1.0 to 1.3	1 <1.0
<b>Facility Level of Service (LOS) (2018 FDOT LOS Tables)</b> <i>What is the LOS of the proposed project area?</i>	0 A-B	0.5 C	1 D-F

	# of Criteria	Weight	Max Points
<b>Multimodal Transportation Safety</b>	4	20	80
<b>Multimodal Choices and Connections</b>	3	15	45
<b>System Efficiency and Preservation</b>	3	10	30
<b>System Sustainability and Livability</b>	3	10	30
<b>Economic Vitality</b>	4	15	60
<b>Multimodal Transportation Security</b>	3	10	30
<b>Congestion Management</b>	3	20	60
<b>Maximum points one project can have:</b>			<b>335</b>

Bay County TPO has final authority to select the projects for inclusion in the Cost Feasible Plan and to rank them in the Project Priorities.

## TRANSPORTATION SYSTEMS MANAGEMENT (TSM) CRITERIA

A. Level of Service (LOS) Issue Addressed	
Current Deficiency	5 Points
Five Year Deficiency	3 Points
Ten Year Deficiency	1 Point
Not deficient	0 Points
B. Regional Significant Roadway (defined as a roadway that is included in the model for the metropolitan area's transportation network)	
Yes	2 Points
No	1 Point
C. Crash Rate	
Safety Ratio Greater than 2.00	3 Points
Safety Ratio from 1.00 to 2.00	2 Points
Safety Ratio less than 1.00	1 Point
D. Has an existing TPO priority	
Yes	2 Points
No	1 Point
E. Significant Freight Corridor	
Designated NHS Intermodal Connector or Truck	
Traffic more than 10% Annual Average Daily Traffic (AADT)	3 Points
Truck Traffic 8-10% AADT	2 Points
Truck Traffic 5-7.99% AADT	1 Point
F. Local Project Support	
Wide Support = Resolutions of support from 2 local governments + 2 letters of support from community organizations	5 Points
Moderate Support = Resolutions of support from 2 local government or 1 local government resolution + 1 letter of support from community organization	4 Points
No demonstrated support beyond 1 local government sponsor resolution	3 Points

**TRANSPORTATION ALTERNATIVES (TA) PROJECT CRITERIA**

	<b>Evaluation Category</b>	<b>Scoring (Maximum Points Possible)</b>	<b>Project Score</b>
Criterion 1	Safety	25	
Criterion 2	Connectivity	15	
Criterion 3	Location Efficiency	10	
Criterion 4	Public Support	15	
Criterion 5	Proximity to School	15	
Criterion 6	Design Amenities	10	
Criterion 7	Environmental/Archaeological Projects/ Historic Preservation	5	
Criterion 8	Age of Project <i>1 point per year, capped at 5 years</i>	5	
	<b>Total</b>	<b>100</b>	

## SHARED USE NON-MOTORIZED (SUN) TRAIL PROJECT CRITERIA

Criteria	Source Data	Criteria Rating Scale Lesser Benefit <----> Higher Benefit			
1. Is additional financial contribution committed to the project?	Local Government	0	-	-	10
		No	-	-	Yes
2. Which phases are complete?	Local Government	2.5	5	7.5	10
		No Phases	Feasibility Study Only	Feasibility Study and PD&E/Design	Feasibility Study and PD&E/Design and ROW
3. Does the project have a high level of documented public support?	Local Government	0	-	-	10
		No	-	-	Yes
4. Does the project facilitate a system of interconnected trails by closing a gap in the SUN Trail Network?	<a href="#">FDOT SUN Trail Network</a>	0	-	-	10
		No	-	-	Yes
Tie Breakers					
1. Is the project included in the TPO's Long Range Transportation Plan, the ECRC Pedestrian Bicycle Committee's regional priorities, or ECRC's Regional Rural Transportation Plan? Yes or No. <i>(Yes takes priority)</i>	<a href="#">Florida-Alabama TPO LRTP</a> <a href="#">Okaloosa-Walton TPO LRTP</a> <a href="#">Bay County TPO LRTP</a> <a href="#">ECRC Bicycle Pedestrian Plan</a> <a href="#">ECRC Regional Rural Transportation Plan</a>				
2. What is the total project cost per mile? <i>(Lower cost takes priority)</i>	Local Government				

## **Appendix B – Public Outreach Report and Public Comments**

# Survey Snapshot

- **Survey open:** March 24 – May 9
- **Total surveys:** 108
- **Top outreach channels:**
  - Social Media (46 %)
  - Email (37%)
  - Friend or Colleague (19%)
- Respondents represented a range of cities and zip codes - **from Panama City, Lynn Haven, and Panama City Beach** – highlighting broad geographic participation

# Daily Experience

Most respondents (~58%) commute 15 -45 minutes, and ~66% experience congestion daily or frequently

### Commute Duration

### Congestion Impact

## Bay County TPO Causes of Traffic Congestion

(Based on 108 responses)

## Bay County TPO Transportation Priorities

(Based on 108 responses)

# Survey Comments

Received **73 open comments** via the survey  
*(Themes reflect an initial review; full analysis is still in progress)*

## Early themes mentioned by participants included:

- **Highway 231 and Highway 22** were frequently mentioned for congestion, safety issues, and the need for more lanes and better traffic flow, especially in Callaway and Bayou George.
- **Pedestrian and bike safety** came up often, with requests for sidewalks, safer crossings, and protected lanes on roads like Beach Drive and Harrison Avenue.
- Many expressed frustration with **construction delays** and **long project timelines**, especially on Back Beach Road and 15th Street.
- Some called for **expanded transit options**, like trolleys or park-and-ride, particularly for North Bay County commuters.
-

## March 5, 2025 TPO, TCC, CAC Workshop Comments and Responses

1. **Table 1 – Non-SIS Priority 1, ITS – Operations and Maintenance of the current ITS System. The SMART Bay Project was referenced as a possible project for the increase to \$700,000 from the \$600,000 increase for this Project Priority.**  
*Comment noted.*
2. **Table 1 – Non-SIS Priority 2, SR 22 (Wewa Highway) from SR 30A (US 98) Tyndall Parkway to Star Avenue. A question was asked if this project is funded because a FDOT Identification Number is identified.**  
*It was clarified that FDOT Identification Number is the identification number from the Design Phase for this project which is complete. This priority for this project is for the Right-of-Way Phase.*
3. **Table 1 – Non-SIS Priority 8. Star Avenue from SR 22 (Wewa Highway) to US 231 (SR 75). The growth along the US 231/Titus Road/Star Avenue Corridor and the increased traffic and development on the SR 22 Corridor justify the need for this project was stated and it was mentioned the project should be moved up on the priority list.**  
*Comment noted.*
4. **Table 1 – Non-SIS Priority 10. Roundabout at Harrison Street and 6<sup>th</sup> Street. It was expressed that this project should be removed. The origin of the project was requested.**  
*The FY 2027-2031 Project Priorities will be an action item at the May 28, 2025 Bay County TPO Meeting. This project is identified in this City of Panama City Planning Document [CPC Downtown Strategic Vision 100819 ONLINE.pdf](#) on pages 43 and 89. As a result, it was included in the TPO's 2045 Long Range Transportation Plan Needs Plan and ultimately the TPO's 2045 Long Range Transportation Plan Cost Feasible Plan.*
5. **Table 1 – Non-SIS Priority 11. Bay Parkway Phase III from Clara Avenue to Chip Seal Parkway. It was mentioned that a public workshop on this project for the PD&E Study and Design Plans will be held on March 6, 2025.**  
*Comment noted.*
6. **Table 3– TSM Priority 3. SR 390 at Harvard Boulevard Traffic Signal. An email was received after the meeting requesting the origin of this project.**  
*The TPO staff receives a candidate list of TSM projects for every project priority cycle from FDOT. This project was included in the candidate list of projects received from FDOT for the FY 2027-2031 Project Priorities and was ranked based on TPO approved criteria.*

7. **Table 5– Bay County TPO Public Transportation Priority FTA Section 5307 Toll Revenue Credit. BayWay has requested the 80% and 20% matches for this project be changed from \$1,625,000 and \$406,250 to \$1,325,000 and \$331,250 for all five fiscal years 27-31.**

*Changes will be made.*

8. **Table 5 – Bay County TPO Public Transportation Priority FTA Section 5307 Local Funds. BayWay has requested the 50% and 50% matches for this project be changed from \$700,000 and \$700,000 to \$1,000,000 and \$1,000,000 for all five fiscal years 27-31.**

*Changes will be made.*

## April 23, 2025 Public Workshop Comments and Responses

- 1. Table 1 – Non-SIS Priority 2. SR 22 from US 98 (Tyndall Parkway) to Star Avenue. What can be done to fund this project and what is the reason Priority 4 has funding and SR 22 does not?**

*It was mentioned that funding projects on the Non-SIS is very difficult for FDOT. Past examples of segmentation, letters of support, and local contributions were mentioned, but the right-of-way cost is very expensive. Priority 4 is less than \$500,00 per year while the right of way cost for SR 22 would be several million dollars.*

- 2. Table 4 – TA. What is the possibility of funding these priorities?**

*When the tentative work program is presented in November, the priorities that FDOT has chosen to fund will be identified. There is about \$3,000,000 per year for FDOT to fund the TA program across the 16 counties of FDOT District III.*

- 3. Table 4 – TA Priority 2. South Gay Avenue from Boat Race Road to Cherry Street. What is the improvement?**

*The improvement is to construct an East Bound Left Turn Lane.*

- 4. Advisory Committee Membership was mentioned by an attendee.**

*Membership of the Advisory Committees is referenced in the bylaws which are on the ECRC website. It was explained that the Technical Advisory Committee consists of planners and engineers for the municipalities and the Citizens Advisory Committee represents the composition of the area based on area profiles.*

- 5. The function of the ECRC was explained by an attendee.**

*The ECRC serves as the staff for the Bay County Transportation Planning Organization and prepares the documents and the meeting materials for the Transportation Planning Organization and Advisory Committees. The Transportation Planning Organization members provide guidance on the transportation projects for the region not just projects in their individual jurisdiction.*

## April 23, 2025 TPO, TCC, CAC Workshop Comments and Responses

1. **Table 1 – Non-SIS Priority 2. SR 22 from US 98 (Tyndall Parkway) to Star Avenue. What can be done to fund this project?**  
*It was mentioned that funding projects on the Non-SIS is very difficult for FDOT. Past examples of segmentation, letters of support, and local contributions were mentioned by members, but the right-of-way cost is very expensive.*
2. **Table 1 – Non-SIS Priority 3. Harvard Boulevard from SR 390 to Issac Bryd State Park. Support for this project was mentioned.**  
*Comment noted.*
3. **Table 1 – Non-SIS Priority 6. Corridor Management/Complete Streets Implementation. What segment would be identified for implementation?**  
*SR 77 from Baldwin Avenue to Bailey Bridge is the segment that would be identified for implementation.*
4. **Table 1 – Non-SIS Priority 8. Star Avenue from SR 22 (Wewa Highway) to US 231 (SR 75). The growth along US 231/Titus Corridor and the increased traffic from the new Gulf Coast Parkway and development on the SR 22 Corridor justify the need for this project was stated and it was mentioned the project should be moved up on the priority list. The cost and length of the project were discussed for the possibility of local contribution for the Project Development and Environmental Study.**  
*Comment noted.*
5. **Table 1 – Non-SIS Priority 9. Elevated US 98 Pedestrian Structure at US 98 and Frank Brown Park. It was mentioned that an underpass such as the recently completed underpass on US 98 in Walton County would be cheaper and better utilized instead of a Pedestrian Overpass. Grants and a Feasibility Study were mentioned as possible priorities because of the development at US 98/Pier Park. It was also mentioned that the overpass could be an obstruction for the airport traffic. The cost of the Feasibility Study was also discussed.**  
*Comment noted.*
6. **Table 2 – SIS Priorities 1 and 2. US 231 from US 98 to 23<sup>rd</sup> Street and US 231 from 23<sup>rd</sup> Street to Pipeline Road. What is the funding in the work program and when will construction be funded?**  
*The funding in the work program is for Right-of Way. Construction is the next phase to be funded but it is not currently in the five year work program.*

- 7. Table 2 – SIS Priority 3. SR 75 (US 231) from North of Pipeline Road to North of Penny Road and SIS 4. SR 390 from SR 77 to US 231. It was mentioned that these two priorities should be switched.**  
*Comment noted.*
- 8. Table 2 – SIS Priority 5. US 98 at Thomas Drive. It was mentioned that the portion of Thomas Drive that runs north to south from US 98 to the curve has been renamed as Navy Boulevard.**  
*Change will be made.*
- 9. Table 2 –SIS Priority 7. East Avenue from Port Entrance to SR 30 (US 98) 5<sup>th</sup> Steet. Support for this project was mentioned.**  
*Comment noted.*
- 10. Table 2 –SIS Priority 8. East Avenue from SR 30 (US 98) 5<sup>th</sup> Steet to Sherman Avenue. The location of this project was requested.**  
*The location of the project was provided.*
- 11. Table 2 – SIS Priority 9. SR 30 (US 98) from West of Phillips Inlet Bridge to SR 79. Support for this project was mentioned.**  
*Comment noted.*
- 12. Table 5 – Transportation Alternatives. What is the possibility of a funding increase for this program?**  
*Transportation Alternatives is a Federally funded program. A funding increase for approximately \$3,000,000 for the 16 counties in the FDOT District III region is not expected at this time.*
- 13. Table 8 – SUN Trail Priority 1. Crooked Sound Drive to Drone Recovery Road. It was asked what entity submitted this project request.**  
*Bay County submitted the project request.*

## **Appendix C – Resolution Bay 25-09**

**RESOLUTION BAY 25-09**

**A RESOLUTION OF THE BAY COUNTY  
TRANSPORTATION PLANNING ORGANIZATION  
ADOPTING THE FY 2027-2031 PROJECT PRIORITIES**

---

**WHEREAS**, the Bay County Transportation Planning Organization (TPO) is the metropolitan planning organization designated by the governor of Florida as being responsible for carrying out a continuing, cooperative, and comprehensive transportation planning process for the Bay County metropolitan planning area; and

**WHEREAS**, the Transportation Improvement Program (TIP) is adopted annually by the TPO and submitted to the governor of the state of Florida, to the Federal Transit Administration (FTA), through the State of Florida and the Federal Highway Administration (FHWA); and

**WHEREAS**, public outreach occurred on March 24—May 9, 2025, TPO, advisory committee public workshops were held on March 5 and April 23, 2025, and a hybrid public workshop was held on April 23, 2025; and

**WHEREAS**, the initial step in development of the TIP is for the TPO to submit its transportation project priorities for all modes of travel to the Florida Department of Transportation (FDOT) prior to July 1<sup>st</sup>;

**NOW, THEREFORE, BE IT RESOLVED BY THE BAY COUNTY TRANSPORTATION PLANNING ORGANIZATION THAT:**

The TPO adopts the FY 2027 - FY 2031 Project Priorities, with any changes that may have been presented.

Passed and duly adopted by the Bay County Transportation Planning Organization on this 28<sup>th</sup> day of May 2025.

**BAY COUNTY TRANSPORTATION  
PLANNING ORGANIZATION**

## Federal and State Requirements

### TIP Development and Approval

See: 23 USC 134 (c)(1), 23 USC 134(g)(2), 23 USC 134(j)(1)(A), 23 USC 134(j)(D), 23 CFR 450.326(a), s.339.175(8) FS, s.339.175(8)(c)1 FS, s.339.175(8)(c)7-8 FS, s.339.175(14) FS

	Response	Page Number(s)	Comment Type	Comments
Does the TIP include projects and project phases recommended for advancement in the next fiscal year and the 4 subsequent fiscal years (for a total of 5 fiscal years)?	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Was the TIP approved by the MPO? (This could be an MPO resolution or signed signature block on the TIP cover page.)	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<b>Was the TIP developed:</b>				
By the MPO in cooperation with the state and any affected public transportation operator(s)?	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Using estimates of available federal and state funds provided to the MPO by the state?	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
In coordination with other MPO(s) (If there are multiple MPOs located within a U.S. Census Bureau designated urban area or if there is a project within the boundaries of multiple MPOs)?	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

### Plan Consistency

See: 23 USC 134(g)(3)(B), 23 USC 134(j)(1)(A)(i), 23 USC 134(j)(3)(C), 23 CFR 450.326(i), 23 CFR 450.326(n)(1), s.339.175(8)(a), s.339.175(8)(c)1-2 FS, s.339.175(8)(c)5-7 FS

<b>Does the TIP:</b>	Response	Page Number(s)	Comment Type	Comments
Describe how it was developed with due consideration of other types of planning activities within the MPO's area, including how projects are consistent, to the maximum extent feasible, with affected seaport, airport, and spaceport master plans and with public transit development plans?	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Demonstrate how the projects align with the goals, policies, and investment priorities of the MPO's current Long Range Transportation Plan (LRTP)? This can be accomplished by providing the page number or identification number where each project can be found in the MPO's LRTP.	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Describe the criteria and process for prioritizing LRTP projects for inclusion, including any changes from previous TIPs? This may be addressed through a brief description of, or a reference to, the MPO's LOPP.	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Describe how projects are consistent, to the maximum extent feasible, with approved local government comprehensive plans within the MPO's area?	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Provide justification for any project or project phase that is inconsistent with an approved local government comprehensive plan in the MPO's area (if applicable)?	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

### Public Participation

See: 23 USC 134(j)(1)(4), 23 USC 134(j)(4), 23 USC 134(j)(7), 23 CFR 450.326(b), s.339.175(8)(e) FS, 339.175(8)(h)

	Response	Page Number(s)	Comment Type	Comments
Were all interested parties provided with a reasonable opportunity to comment on the proposed TIP?	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Was the TIP published or otherwise made readily available for public review (including electronically accessible formats, to the maximum extent practicable)?	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Did the MPO make the Annual List of Obligated Projects for the previous year available for public review?	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

**Project Information Requirements**

See: Title 23 USC, Title 49 USC, 23 USC 134(j)(2)(C), 23 CFR 450.326(f), 23 CFR 450.326(g)(1)-(4), 23 CFR 667, s.339.175(8)(c)(1) FS

Does the TIP include:	Response	Page Number(s)	Comment Type	Comments
All projects and project phases to be funded with federal, state, and local funds within the time period of the TIP?				
All regionally significant projects requiring FHWA/FTA action, regardless of funding source?				
All regionally significant projects proposed to be funded with other Federal funds and with non Federal funds (as required)?				
Projects listed in FDOT's <a href="#">23 CFR PART 667 Report</a> ?				
All Federal discretionary grants that fund capital projects under Title 23 or Title 49, USC, per the Infrastructure Investment and Jobs Act (IIJA)? (Federal discretionary grants that fund capital projects must be in the TIP before executing a grant agreement with USDOT.)				

Does each project in the TIP include:	Response	Page Number(s)	Comment Type	Comments
Sufficient descriptive information to identify the project (type of work, termini, length, etc.)?				
Estimated total project cost?				
Amount and source of federal and nonfederal funds by year?				
Responsible agency?				
Financial Project Number (FPN)?				

**Performance Requirements**

See: 23 USC 134(j)(1)(A)(iii), 23 USC 134(j)(2)(D), 23 CFR 450.326(c)-(d), s.339.175(10)(b)

Does the TIP:	Response	Page Number(s)	Comment Type	Comments
Incorporate the Transportation Performance Measures (TPM) template provided by FDOT's Systems Forecasting and Trends Office? If yes, the response to the following TPM questions should also be yes.				
Describe, to the maximum extent practicable, the anticipated effect of achieving the performance targets listed below, linking investment priorities to those targets? i. Highway Safety Performance Measures (PM 1) ii. Pavement & Bridge Condition Measures (PM 2) iii. System Performance and Freight Measures (PM 3) iv. Transit Asset Management Measures v. Transit Safety Performance Measures				
Report on progress toward establishing performance targets for performance measures established in 339.175(10)(b), FS? These are the same as the federal performance measures.				

**Financial Plan/Financial Constraint**

See: 23 USC 134(j)(2)(B), 23 USC 134(j)(3)(D), 23 CFR 450.326(j)-(k), s.339.175(8)(c)(3) FS, s.427.015(1) FS

NOTE: Florida's TIPs are developed consistent with the FDOT Five-Year Work Program, demonstrating fiscal constraint and including only those projects and phases for which full funding can reasonably be anticipated within the planned timeframe for completion. (Select "Yes" unless the MPO is doing something outside normal procedures.)

Does the TIP:	Response	Page Number(s)	Comment Type	Comments
Demonstrate that there are sufficient funds (federal, state, local, and private) to implement proposed transportation system improvements?				
Compare funding sources and amounts, by year, to total project costs? (It is recommended to include a table(s) to demonstrate this.)				
Use year-of-expenditure dollars (inflation applied based on reasonable principles and information) for revenue and cost estimates?				
Discuss the development of Transportation Disadvantaged (TD) services, a description of costs and revenues from TD services, and a list of improvements funded with TD funds?				

**Recommended Content Framework**

	Response	Page Number(s)	Comment Type	Comments
Was the TIP developed using the Official TIP Snapshot? Include the date the MPO downloaded the Snapshot in the Comments box.				
<b>Does the TIP's cover page include:</b>	Response	Page Number(s)	Comment Type	Comments
MPO name				
MPO address				
Correct fiscal years				
Date of adoption				
<b>Does the TIP include:</b>	Response	Page Number(s)	Comment Type	Comments
A table of contents that shows the title of each section with the correct page number?				
A list of definitions, abbreviations, codes, and acronyms?				
Discussion of the MPO's current FDOT/MPO Annual Joint Certification and past FHWA/FTA quadrennial certification (for TMA MPOs)?				
The anticipated date of the next FHWA/FTA quadrennial certification (for TMA MPOs)?				
Discussion of the congestion management process?				

# **Appendix I**

## **FY 2027-2031 TIP Process and Comments Received**

## **FY 2027-2031 TIP Process**

The TPO updates and adopts the TIP each year for submittal to FDOT, Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA). Projects within the urbanized area must appear in the TIP in order to receive state and federal funding.

The FY 2027-2031 TIP process began in June 2025 when Project Priorities were adopted by the TPO and then submitted to FDOT. The Project Priorities are then used to develop the FDOT FY 2027-2031 Tentative Five-Year Work Program. The Tentative Five-Year Work Program is the primary source of information for the TIP. The FDOT Work Program and the TIP are consistent with the TPO's adopted priorities to the extent feasible. Projects are based on FDOT maintenance requirements, the TPO Long Range Transportation Plan (LRTP), Transportation Systems Management (TSM) studies, Transportation Alternatives (TA) Project Priorities, and Aviation, Port, and Transit Master Plans. Projects listed in the TIP are subject to amendment as necessary by the TPO at any time during the year. The TIP has been developed through coordination with FDOT and local governments.

The agendas and meeting minutes for the TPO and Advisory Committees are located at [https://www.ecrc.org/programs/transportation\\_planning/bay\\_county\\_tpo/agendas\\_and\\_reports.php](https://www.ecrc.org/programs/transportation_planning/bay_county_tpo/agendas_and_reports.php). The updated draft Bay County TPO FY 2027-2031 Transportation Improvement Program was posted online prior to the June 2026 TPO and Advisory Committee Meetings. An e-mail with the draft TIP link on the TPO web site was sent to the TPO and Advisory Committee Members. The draft Bay County TPO FY 2027-2031 Transportation Improvement Program is accessible by clicking on the link below. The advertisements for the meetings can be requested by contacting the TPO's Marketing Team, [marketing@ecrc.org](mailto:marketing@ecrc.org). The Meeting minutes can be obtained by contacting the TPO's Transportation Team [transportation@ecrc.org](mailto:transportation@ecrc.org).

[https://www.ecrc.org/programs/transportation\\_planning/bay\\_county\\_tpo/plans\\_and\\_documents/index.php#outer-56](https://www.ecrc.org/programs/transportation_planning/bay_county_tpo/plans_and_documents/index.php#outer-56)

The following is the Public Involvement element for the Transportation Improvement Program.

- Provide reasonable public access to technical and policy information used
- Provide adequate public notice of public involvement activities and time for public review and comment at key decisions, such as but not limited to the approval of the TIP
- Demonstrate explicit consideration and response to public input received during plan development process
- Make the TIP drafts and final documents available on the TPO website at, [www.ecrc.org](http://www.ecrc.org), a print copy of the current plan is available upon request
- Hold public meetings at convenient times and accessible locations

- Seek out and consider the needs of those traditionally underserved by existing transportation systems, including but not limited to, low-income and minority households
- Coordinate with the statewide transportation planning public involvement and consultation processes under 23 C.F.R. Subpart B, as described in the FDOT MPO Program Handbook
- Periodically review the effectiveness of the procedures and strategies contained in the participation plan
- When significant written and oral comments are received on a draft TIP as a result of public involvement, a summary, analysis, and report on the disposition of comments shall be made part of the final documents
- If the final TIP differs significantly from the one made available for public comment or raises new material issues, an additional opportunity for public comment must be made available
- When the Metropolitan Planning Area (MPA) includes Indian Tribal Lands, the TPO shall appropriately involve the Indian Tribal Government(s)
- When the MPA includes federal public lands, the TPO shall appropriately involve the federal government

Any comments and TPO Staff's responses to the FY 2027-2031  
TIP will be inserted here.
