1 Minor Update

The Congestion Management Process Plan (CMPP) Major Update takes place every five years to coincide with the LRTP update. The CMPP Major Update was updated in 2020 as part of the 2045 LRTP and can be found at www.ecrc.org/bay2045LRTP. The CMPP reviews specific CMP strategies and projects (such as congested areas and corridors) as a part of the overall identification of opportunities for process improvement.

A minor update takes place on an annual basis and is documented through this CMPP minor update report in order to coordinate its implementation with TIP development. The annual minor CMPP update reflects the accomplishments in terms of congestion mitigation expected by the TPO by evaluating the Performance Measures, Truck Traffic Map, and LOS Tables. FDOT publishes the annual LOS metrics at [D3 Level of Service](#) via interactive map and exportable tables. The Performance Measures Tracking (**Appendix C**) is also updated annually as part of the minor CMP update.
