

## **Florida-Alabama Transportation Planning Organization (FL-AL TPO)**

## **Congestion Management Process Minor Update**

**Adopted: November 2025**

## 1.0 Introduction

The Congestion Management Process (CMP) Major Update takes place every five years to coincide with the TPO's Long Range Transportation Plan (LRTP) update. The CMP Major Update was updated in December of 2024 as part of the 2050 LRTP and can be found at [https://www.ecrc.org/programs/transportation\\_planning/plans\\_and\\_documents/long\\_range\\_transportation\\_plan/2050\\_lrtp\\_documents.php#outer-1596](https://www.ecrc.org/programs/transportation_planning/plans_and_documents/long_range_transportation_plan/2050_lrtp_documents.php#outer-1596). The CMP review specific strategies and projects (such as congested areas and corridors) as a part of the overall identification of opportunities for process improvement.

A minor update takes place on an annual basis and is documented through the CMP minor update report in order to coordinate its implementation with TIP development. The annual CMP minor update reflects the accomplishments in terms of congestion mitigation expected by the TPO by evaluating the Performance Measures, LOS Tables, the Truck Traffic, and producing a Corridor Management Plan on a segment recommended through the annual Project Priorities process. FDOT publishes the existing and future LOS metrics at [FDOT District 3 Existing Level of Service 2024](#) and [FDOT District 3 Future Level of Service 2045](#) via interactive map. The Performance Measures Tracking (**Appendix C**) is also updated annually as part of the CMP minor update.

### Performance Target Methodology:

% of Worker 16 and over who Carpool to Work - Average of the FL-AL TPO percentage plus 0.5%

% Pedestrian Facility SHS Coverage - Existing + Planned Pedestrian Facilities that will cover the SHS. Baldwin County % is for the TPO area only in Baldwin County.

% Bicycle Facility SHS Coverage - Existing + Planned Bicycle Facilities that will cover the SHS. Baldwin County % is for the TPO area only in Baldwin County.

Passengers per Revenue Mile - Peer Group Mean of Passengers per Revenue Mile in ECAT's TDP (Table 31)

Vehicle Miles Traveled (in millions) - Average of the FL-AL TPO percentage

Serious Injury Rates per Annual 100 MVMT - Supports FDOT's "Vision Zero", Baldwin County Serious Injury Rate for the TPO area on Baldwin County.

Fatality Rates per Annual 100 MVMT - Supports FDOT's "Vision Zero", Baldwin County Fatality Rate for the TPO area on Baldwin County.

% Population within 1 mile of Bicycle Facilities - Population within 1 mile of Existing + Planned Bicycle Facilities

% of Facilities with LOS D, E, F - Percent of 2045 facilities with LOS D, E, or F minus 5%

% Interstate Person-Miles Traveled that are Reliable - ECRC established target

% Non-Interstate NHTS Person-Miles Traveled that are Reliable - ECRC established target

# of Resurfacing Projects in TIP/Total Projects in TIP - Sum of resurfacing project mileage/FL-AL TPO Roadway Network Mileage

## RESOLUTION FL-AL 25-28

### A RESOLUTION OF THE FLORIDA-ALABAMA TRANSPORTATION PLANNING ORGANIZATION ADOPTING THE CONGESTION MANAGEMENT PROCESS PLAN MINOR UPDATE

**WHEREAS**, the Florida-Alabama Transportation Planning Organization (TPO) is the organization designated by the governors of Florida and Alabama as being responsible, together with the states of Florida and Alabama, for carrying out the continuing, cooperative and comprehensive transportation planning process for the Florida-Alabama TPO Planning Area; and

**WHEREAS**, the Pensacola Urbanized Area is an area with a population of 200,000 or more, thus making it a Transportation Management Area (TMA); and

**WHEREAS**, Fixing America's Surface Transportation Act ("FAST Act") Section 1201 134(k)(3)(a) requires that TMAs address congestion management through a process that provides for effective management and operation, based on a cooperatively developed and implemented metropolitan-wide strategy of new and existing transportation facilities eligible for funding under this chapter and title 23 using travel demand reduction, job access projects, and operational management strategies; and

**WHEREAS**, the Congestion Management Process Plan (CMPP) is considered a fully operational management system plan; and

**WHEREAS**, the purpose of the CMPP is to rate the performance of transportation facilities and suggest low-cost and short-term strategies to alleviate congestion; and

**WHEREAS**, the CMPP requires an annual minor update which entails evaluating performance measures and level of service (LOS) ratings for all segments of the CMPP network;

**NOW, THEREFORE, BE IT RESOLVED BY THE FLORIDA-ALABAMA TRANSPORTATION PLANNING ORGANIZATION THAT:**

The 2025 Congestion Management Process Plan minor update is hereby adopted.

Passed and duly adopted by the Florida-Alabama Transportation Planning Organization on this 12<sup>th</sup> day of November 2025.
